Memories Of Lac Du Flambeau Elders:

Memories of Lac Du Flambeau Elders Elizabeth M. Tornes, 2004 *Memories of Lac du Flambeau Elders* is a collection of interviews with fifteen Ojibwe elders of the Lac du Flambeau Band of Lake Superior Chippewa Indians in northern Wisconsin. The elders, in their seventies and eighties when interviewed, all experienced enormous changes in their lifetimes. In their stories, they discuss these changes as well as the traditions and beliefs that the Ojibwe have continued to maintain despite attempts at forced assimilation on the part of the U.S. government and others. Their stories are testimony to the enduring strength of the Ojibwe people and their way of life. Most historical accounts of the Ojibwe have been written by Americans of European descent. This book tells the history of the Lac du Flambeau Ojibwe in their own words. It also includes a historical introduction by Leon Valliere Jr. going back four hundred years to Lac du Flambeau's original settlement. A black and white photographic portrait of each elder prefaces each interview, and historical photos from the George W. Brown Jr. Ojibwe Museum Cultural Center collection illustrate the text. Distributed for the Center for the Study of Upper Midwestern Cultures.

Honoring Elders Michael David McNally, 2009 Using archival and ethnographic research, Michael D. McNally follows the making of Ojibwe eldership, showing that deference to older women and men is part of a fuller moral, aesthetic, and cosmological vision connected to the ongoing circle of life and tradition of authority that has been crucial to surviving colonization.

White, 2008-02 In this collection of more than 200 stunning and storied photographs ranging from daguerreotypes to studio portraits to snapshots historian Bruce White explores historical images taken of Ojibwe people through 1950 and considers the negotiation that went on between the photographers and the photographed and what power the latter wielded Ultimately this book tells more about the people in the pictures what they were doing on a particular day how they came to be photographed how they made use of costumes and props than about the photographers who documented and in some cases

doctored views of Ojibwe life The Bohemian Flats Mary Relindes Ellis, 2014-04-15 In *The Bohemian Flats* Mary Relindes Ellis's rich imaginative gift carries us from the bourgeois world of fin de siècle Germany to a vibrant immigrant enclave in the heart of the Midwest and to the killing fields of World War I. Shell shock as it was called, lands Raimund Kaufmann in a London hospital, a victim of the war but also of his own and his brother's efforts to get out of Germany and build a new life in America. While his recovery eludes him, his memory returns us to Minneapolis to the Flats, a milling community on the Mississippi River where Raimund and his brother Albert have sought respite from the oppressive hand of their older brother, now the master of the family farm and brewery. In Minnesota, the brothers confront different forms of prejudice but they also find a chance to remake their lives according to their own principles and wishes until the war makes their German roots inescapable. Following these lives, *The Bohemian Flats* conjures both the sweep of irresistible history and the intimate reality of a man and a family caught up in it. From a nineteenth-century German farm to the thriving wildly diverse immigrant village below Minneapolis on the Mississippi to the European front in World War I and returning to twentieth-century America, this is a story that takes a reader to the far reaches of human experience and the depths of the human heart. **The Lure of the North Woods** Aaron Shapiro, 2013-03-30 In the late nineteenth century, the North Woods offered people little in the way of a pleasant escape. Rather, it was a hub of production supplying industrial America with vast quantities of lumber and mineral ore. This book tells the story of how northern Minnesota, northern Wisconsin, and Michigan's Upper Peninsula became a tourist paradise, turning a scarred countryside into the playground we know today. Stripped of much of its timber and ore by the early 1900s, the North Woods experienced deindustrialization earlier than the Rust Belt cities that consumed its resources. In *The Lure of the North Woods*, Aaron Shapiro describes how residents and visitors reshaped the region from a landscape of exploitation to a vacationland. The rejuvenating North Woods profited in new ways by drawing on emerging connections between the urban and the rural, including improved transportation, promotion, recreational land use, and conservation initiatives. Shapiro demonstrates how this transformation helps explain the interwar origins of modern American environmentalism when both the consumption of nature for pleasure and the work of the Civilian Conservation Corps in the North Woods and elsewhere led many Americans to cultivate a fresh perspective on the outdoors. At a time when travel and recreation are considered major economic forces, *The Lure of the North Woods* reveals how leisure and tourism, in particular, has shaped modern America. *The Story of Act 31* J. P. Leary, 2018-03-15 From forward thinking resolution to violent controversy and beyond. Since its passage in 1989, a state law known as Act 31 requires that all students in Wisconsin learn about the history, culture, and tribal sovereignty of Wisconsin's federally recognized tribes. *The Story of Act 31* tells the story of the law's inception, tracing its origins to a court decision in 1983 that affirmed American Indian hunting and fishing treaty rights in Wisconsin and to the violent public outcry that followed the court's decision. Author J. P. Leary paints a picture of controversy stemming from past policy decisions that denied generations of Wisconsin students the opportunity to learn
