nonhuman animals and confronting fears and discomforts about mental impairment Carlson presents a complex history of ideas and notions about cognitive impairment the treatment of intellectually disabled people and social and cultural reactions to them Sensitive and clearly argued this book offers significant new thinking on recent trends in disability studies and philosophy The Oxford Handbook of Disability History Michael Rembis, Catherine J. Kudlick, Kim Nielsen, 2018-06-19 Disability history exists outside of the institutions healers and treatments it often brings to mind It is a history where disabled people live not just as patients or cure seekers but rather as people living differently in the world and it is also a history that helps define the fundamental concepts of identity community citizenship and normality The Oxford Handbook of Disability History is the first volume of its kind to represent this history and its global scale from ancient Greece to British West Africa The twenty seven articles written by thirty experts from across the field capture the diversity and liveliness of this emerging scholarship Whether discussing disability in modern Chinese cinema or on the American antebellum stage this collection provides new and valuable insights into the rich and varied lives of disabled people across time and place *Outrage in Ohio* David Kimmel, 2018-09-01 The story of Mary Secaur s demise and the vengeance inflicted upon her suspected assailants by an enraged mob that took the law into its own hands The Daily Standard On a hot and dusty Sunday in June 1872 13 year old Mary Secaur set off on her two mile walk home from church She never arrived The horrific death of this young girl inspired an illegal interstate pursuit and arrest courtroom dramatics conflicting confessions and the daylight lynching of a traveling tin peddler and an intellectually disabled teenager Who killed Mary Secaur Were the accused actually guilty What drove the citizens of Mercer County to lynch the suspects David Kimmel seeks answers to these provoking questions and deftly recounts what actually happened in the fateful summer of 1872 imagining the inner workings of the small rural community reconstructing the personal relationships of those involved and restoring humanity to this gripping story Using a unique blend of historical research and contemporary accounts *Outrage in Ohio* explores how a terrible crime ripped an Ohio farming community apart and asks us to question what really happened to Mary Secaur Kimmel tells of the 1872 rape and horrifying murder of Mary a 13 year old girl who lived near Van Wert in Mercer County Kimmel uses intensive research and constructed conversations to produce his look at this crime Akron Beacon Journal *American Patroness* Katherine Dugan, Karen E. Park, 2024-01-02 A vital collection of interdisciplinary essays that illuminates the significance of Marian shrines and promises to teach scholars how to read them for decades to come *American Patroness Marian Shrines and the Making of US Catholicism* is a collection of twelve essays that examine the historical and contemporary roles of Marian shrines in US Catholicism The essays in this collection use historical ethnographic and comparative methods to explore how Catholics have used Marian devotion to make an imprint on the physical and religious landscape of the United States Using the dynamic malleability of Marian shrines as a starting place for studying US Catholicism each chapter reconsiders the American religious landscape from the perspective of a single shrine to Mary and asks What does this shrine reveal about US

Catholicism and about American religion Each of the contributors in *American Patroness* examines why and how Marian shrines persist in the twenty first century and subsequently uses that examination to re read contemporary US Catholicism Because shrines are not neutral spaces they reflect and shape the elastic yet strict boundaries of what counts as Catholic identity and who controls prayer practices the studies in this collection also shed light on the contested dynamics of these holy sites *American Patroness* demonstrates that Marian shrines continue to be places where an American Catholic identity is continuously worked on negotiations about power occur and Marian relationships are fostered and nurtured in spaces that are simultaneously public and intimate
