Modern Japanese:

Historical Dictionary of Modern Japanese Literature and Theater Scott J. Miller, 2009-07-01 With the Meiji Restoration in 1868 Japan opened its doors to the West and underwent remarkable changes as it sought to become a modern nation. Accompanying the political changes that Western trade ushered in were widespread social and cultural changes. Newspapers, novels, poems, and plays from the Western world were soon adapted and translated into Japanese. The combination of the rich storytelling tradition of Japan with the realism and modernism of the West produced some of the greatest literature of the modern age. *Historical Dictionary of Modern Japanese Literature and Theater* presents a broad perspective on the development and history of literature, narrative, poetry, and drama in modern Japan. This book offers a chronology, introduction, bibliography, and over 400 cross-referenced dictionary entries on authors, literary and historical developments, trends, genres, and concepts that played a central role in the evolution of modern Japanese literature. *Modern Japanese Art and the Meiji State* Dōshin Satō, 2011 This is an insightful and intelligent rethinking of Japanese art history, its Western influences. This broad-ranging and profoundly influential analysis describes how Western art institutions and vocabulary were transplanted to Japan in the late nineteenth century. In the 1870-80s, artists and government administrators in Japan encountered the Western system of the arts for the first time. Under pressure to exhibit and sell its artistic products abroad, Japan's new Meiji government came face to face with the need to create European-style art schools and museums and even to establish Japanese words for art, painting, artist, and sculpture. *Modern Japanese Art* is a full re-conceptualization of the field of Japanese art history, exposing the politics through which the words, categories, and values that structure our understanding of the field came to be, while revealing the historicity of Western and non-Western art history. **Routledge Handbook of Modern Japanese Literature** Rachael Hutchinson, Leith Douglas Morton, 2025-08-29 This 2nd edition of the *Routledge Handbook of Modern Japanese Literature* provides a comprehensive survey of the field of modern Japanese literature and gives readers an overview of how we study Japanese literature today. Including sections on space and time, gender and sexuality, politics, war, memory, national and colonial identities, and the production and dissemination of literature, the Handbook examines the ways in which it is possible to read modern Japanese literature and situate it in relation to critical theory. It also features updated and brand new chapters addressing the works of internationally renowned writers such as Futabatei Shimei and Murakami Haruki and defines the way writers produce literature in modern Japan as well as how those works have been read and understood by different readers in different time periods. Written by an international team of experts, the Handbook examines modes of literary production such as fiction, poetry, and critical essays as distinct forms of expression that nonetheless are closely interrelated, and as such it will be a vital resource for students and scholars of Japanese literature, literature in translation, and modern and contemporary literature. **Representing the Other in Modern Japanese Literature** Rachael Hutchinson, Mark Williams, 2006-09-27 *Representing the Other in Modern Japanese*

Literature looks at the ways in which authors writing in Japanese in the twentieth century constructed a division between the Self and the Other in their work Drawing on methodology from Foucault and Lacan the clearly presented essays seek to show how Japanese writers have responded to the central question of what it means to be Japanese and of how best to define their identity Taking geographical racial and ethnic identity as a starting point to explore Japan's vision of non-Japan representations of the Other are examined in terms of the experiences of Japanese authors abroad and in the imaginary lands envisioned by authors in Japan Using a diverse cross section of writers and texts as case studies this edited volume brings together contributions from a number of leading international experts in the field and is written at an accessible level making it essential reading for those working in Japanese studies colonialism identity studies and nationalism **Guide to Modern**

Japanese History & Culture from Ancient to Modern Times John W. Dower, 1986 **The Dilemma of Faith in Modern Japanese Literature** Massimiliano Tomasi, 2018-04-19 The first book length study to explore the links between Christianity and modern Japanese literature this book analyses the process of conversion of nine canonical authors unveiling the influence that Christianity had on their self construction their oeuvre and ultimately the trajectory of modern Japanese literature Building significantly on previous research which has treated the intersections of Christianity with the Japanese literary world in only a cursory fashion this book emphasizes the need to make a clear distinction between the different roles played by Catholicism and Protestantism In particular it argues that most Meiji and Taisho intellectuals were exposed to an exclusively Protestant and mainly Calvinist derivation of Christianity and so it is against this worldview that the connections between the two ought to be assessed Examining the work of authors such as Kitamura Tokuo Akutagawa Ryunosuke and Nagayo Yoshir this book also contextualises the spread of Christianity in Japan and challenges the notion that Christian thought was in conflict with mainstream literary schools As such this book explains how the dualities experienced by many modern writers were in fact the manifestation of manifold developments which placed Christianity at the center rather than at the periphery of their process of self construction The Dilemma of Faith in Modern Japanese Literature will be of great interest to students and scholars of Japanese modern literature as well as those interested in Religious Studies and Japanese Studies more generally *Southern Exposure* Michael Molasky, Steve Rabson, 2000-08-01 Southern Exposure is the first anthology of Okinawan literature to appear in English translation and it appears at a propitious time Although Okinawa

Prefecture comprises only one percent of Japan's population its writers have been winning a disproportionate number of literary awards in recent years including the prestigious Akutagawa Prize for fiction which was awarded to Matayoshi Eiki in 1996 and to Medoruma Shun in 1997 Both Matayoshi and Medoruma are represented in this anthology which includes a wide range of fiction as well as a sampling of poetry from the 1920s to the present day Modern Okinawa has been forged by a history of conquest and occupation by mainland Japan and the United States Its sense of dual subjugation and the propensity of its writers to confront their own complicity with Japanese militarism imbues Okinawa's literary tradition with insightful perspectives on a wide range of issues But this tradition is as deeply rooted in the region's lush semitropical landscape as in the forces of history As this anthology demonstrates Okinawan writers often suffuse their works with a lyricism and humor that disarms readers while bringing them face to face with the region's richly ambiguous legacy

The Origins of Modern Japanese Philosophy Richard Stone, 2024-05-16 Nishida Kitaro is widely considered as the first original philosopher in modern Japan Addressing this claim Richard Stone critically examines Nishida's relation to his contemporary philosophers in the Meiji era 1868-1912 highlighting the continuity difference and relationships between them Stone reassesses the notion that Nishida's *An Inquiry into the Good* 1911 was substantially more philosophically worthwhile than any preceding attempts at philosophy in Japan whilst demonstrating how his early ideas were heavily influenced by the work of thinkers such as Inoue Enryō Onishi Hajime and Miyake Setsurei He argues that original philosophy in Japan did not suddenly start with Nishida Instead it developed within a process of methodological refinement wherein ideas starting from early Meiji philosophers were gradually given more rigorous treatment over the course of the era eventually culminating in Nishida's early philosophy Providing an in-depth analysis of Nishida's work that brings it into dialogue with his predecessors *The Origins of Modern Japanese Philosophy* offers both an engaging insight into the Meiji Period as the background of Nishida's philosophical formation and also a clear account of how several core themes in modern Japanese philosophy evolved over the course of an era
