Multiculturalism In Latin America Indigenous Rights Diversity And Democracy:

Multiculturalism in Latin America R. Sieder, 2002-06-28 During the last fifteen years Latin American governments reformed their constitutions to recognize indigenous rights The contributors to this book argue that these changes post fundamental challenges to accepted notions of democracy citizenship and development in the region Using case studies from Mexico Guatemala Bolivia and Peru they analyze the ways in which new legal frameworks have been implemented appropriated and contested within a wider context of accelerating economic and legal globalization highlighting the key implications for social policy human rights and social justice

Multiculturalism and Minority Rights in the Arab World Will Kymlicka, Eva Pförtl, 2014-03-20 Since the Arab Spring Arab states have become the new front line in the struggle for democratization and for open societies As the experience of other regions has shown one of the most significant challenges facing democratization relates to minority rights This book explores how minority claims are framed and debated in the region and in particular how political actors draw upon re interpret or resist both the new global discourses of minority rights and more local traditions and practices of co existence The contributors examine a range of pre colonial colonial and post colonial factors that shape contemporary minority politics in the Arab world and that encumber the reception of international norms of multiculturalism These factors include the contested legacies of Islamic doctrines of the dhimmi and the Ottoman millet system colonial era divide and rule strategies and post colonial Arab nation building While these legacies complicate struggles for minority rights they do not entail an Arab exceptionalism to global trends to multiculturalism This volume explores a number of openings for new more pluralistic conceptions of nationhood and citizenship and suggests that minority politics at its best can serve as a vehicle for a more general transformative politics supporting a broader culture of democracy and human rights and challenging older authoritarian clientelistic or patriarchal political tendencies The chapters include both broad theoretical and historical perspectives as well as more focused case studies including Western Sahara Morocco Algeria Israel Palestine Sudan United Arab Emirates and Iraq

Latin America's Multicultural Movements Todd A. Eisenstadt, 2013-03-21 Bringing together the expertise of dozens of Latin American scholars *Latin America's Multicultural Movements* examines multicultural rights recognition in theory and in practice Yucatán

Law and Society in Latin America Cesar Garavito, 2014-09-04 Over the past two decades legal thought and practice in Latin America have changed dramatically new constitutions or constitutional reforms have consolidated democratic rule fundamental innovations have been introduced in state institutions social movements have turned to law to advance their causes and processes of globalization have had profound effects on legal norms and practices *Law and Society in Latin America A New Map* offers the first systematic assessment by leading Latin American socio legal scholars of the momentous transformations in the region Through an interdisciplinary and comparative lens contributors analyze the central advances and dilemmas of contemporary Latin American law Among them are pioneering jurisprudence and legal mobilization for the fulfillment of socioeconomic rights in

a highly unequal region the rise of multicultural constitutionalism and legal struggles around identity politics the globalization of legal education and practice tensions between developmental policies and environmental justice and the emergence of a regional human rights system These and other processes have not only radically altered the institutional landscape of the region but also produced academic and practical innovations that are of global interest and defy conventional accounts of Latin American law inherited from law and development studies Painting a portrait of the new Latin American legal thought for an international audience *Law and Society in Latin America A New Map* will be of particular interest to students of comparative law legal mobilization and Latin American politics **Resurgent Voices in Latin**

America Edward L. Cleary, Timothy J. Steigenga, 2004 Annotation After more than 500 years of marginalisation Latin America's forty million Indians have gained political recognition and civil rights Here social scientists explore the important role of religion in indigenous activism showing the ways that religion has strengthened indigenous identity and contributed to the struggle for indigenous rights **An Interdisciplinary Journey from Non-Discrimination to Collective Rights**

Jessika Eichler, 2024-04-22 This book develops a critique of the equality paradigms and principles to be found in the majority of today's legal orders It accompanies the reader taking her him x from a critique of non discrimination and equality to the opposite end of the spectrum that is to collective rights collectivization processes and a manifestation of recognition that is based on difference This interdisciplinary theoretical journey explores a multiplicity of legal orders in terms of how they provide spaces of articulation for difference The book draws emblematically on the rights of indigenous peoples as well as recognized and unrecognized cultural ethnic linguistic and religious minorities The book thereby builds on legal and political theory which ultimately proves essential given the dedicated objective of the book that is to introduce a variety of recognition principles and what the author terms scales of collectivization which facilitate a better understanding of collective rights and further ways to capture define and ultimately measure these rights *Development in Crisis* Rae Lesser Blumberg, Samuel Cohn, 2015-08-20

Development in Crisis Threats to human well being in the Global South and Global North is a provocative engaging and interesting collection of real world case studies in development and globalization focusing on under emphasized threats to growth and human welfare worldwide Created by two of America's top development sociologists it targets undergraduates graduates academics and development professionals Crises such as falling state capacity declining technological innovation increasing class inequality and persisting gender inequality are considered along with their economic and social consequences **Rights, Cultures, Subjects and Citizens** Susanne Brandtstädter, Peter Wade, Kath Woodward, 2013-09-13

This book questions the political logic of foregrounding cultural collectives in a world shaped by globalization and neoliberalization Throughout the world it is no longer only individuals but increasingly collective cultures who are made responsible for their own regulation welfare and enterprise This appears as a surprising shift from the tenets of classical liberalism which defined the ideal subject of politics as the unencumbered self the free equal and self governing

individual The increasing promotion and recognition of cultural rights in international legislation multiculturalism and public debates on culture as a political problem more generally indicate that culture has become a more central terrain for governance and struggles around rights and citizenship On the basis of case studies from China Latin America and North America the contributors of this book explore the links between culture civility and the politics of citizenship They argue that official reifications of culture in relation to citizenship and even the recognition of cultural rights may obey strategies of governance and control but that citizens may still use new cultural rights and networks and the legal mechanisms that have been created to protect them in order to pursue their own agendas of empowerment This book was originally published as a special issue of *Economy and Society* *Narratives and Imaginings of Citizenship in Latin America* Cristina Rojas, Judy Metzler, 2016-01-08 This book looks at how citizenship has been imagined and transformed in Latin America through the twentieth and early twenty first centuries from different disciplinary perspectives including anthropology history urban planning geography and political studies It looks beyond citizenship as a formal legal status to explore how ideas about citizenship have shaped political and historical landscapes in different ways through the region It shows how conceptions of citizenship are intertwined with understandings of natural spaces and environments how indigenous politics are de colonizing western liberal conceptions of citizenship and how citizenship is being transformed through local level politics and projects for development In addition to showcasing some of the novel emerging forms of citizenship in the region the book also traces the ways in which historical narratives of citizenship and national belonging persist within present day politics Collectively the chapters show that citizenship remains an important entry point for understanding politics projects of reform and struggles for transformation in Latin America This book was published as a special issue of *Citizenship Studies*

Multicultural Odysseys Will Kymlicka, 2009-02-05 We are currently witnessing the global diffusion of multiculturalism both as a political discourse and as a set of international legal norms States today are under increasing international scrutiny regarding their treatment of ethnocultural groups and are expected to meet evolving international standards regarding the rights of indigenous peoples national minorities and immigrants This phenomenon represents a veritable revolution in international relations yet has received little public or scholarly attention In this book Kymlicka examines the factors underlying this change and the challenges it raises Against those critics who argue that multiculturalism is a threat to universal human rights Kymlicka shows that the sort of multiculturalism that is being globalized is inspired and constrained by the human rights revolution and embedded in a framework of liberal democratic values However the formulation and implementation of these international norms has generated a number of dilemmas The policies adopted by international organizations to deal with ethnic diversity are driven by conflicting impulses Pessimism about the destabilizing consequences of ethnic politics alternates with optimism about the prospects for a peaceful and democratic form of multicultural politics The result is often an unstable mix of paralyzing fear and na ve hope rooted in conflicting imperatives of security and justice

Moreover given the enormous differences in the characteristics of minorities eg their size territorial concentration cultural markers historic relationship to the state it is difficult to formulate standards that apply to all groups Yet attempts to formulate more targeted norms that apply only to specific categories of minorities eg indigenous peoples or national minorities have proven controversial and unstable Kymlicka examines these dilemmas as they have played out in both the theory and practice of international minority rights protection including recent developments regarding the rights of national minorities in Europe the rights of indigenous peoples in the Americas as well as emerging debates on multiculturalism in Asia and Africa
