Transnational Crime and Global Security Philip L. Reichel, Ryan Randa, 2018-01-12 This two volume work offers a comprehensive examination of the distressing topics of transnational crime and the implications for global security. National security is a key concern for individual nations, regions and the global community yet globalism has led to the perfusion of transnational crime such that it now poses a serious threat to the national security of governments around the world. Whether attention is concentrated on a particular type of transnational crime or on broader concerns of transnational crime generally, the security issues related to preventing and combatting transnational crime remain of top priority concern for many governments. *Transnational Crime and Global Security* has been carefully curated to provide students, scholars, professionals and consultants of criminal justice and security studies with comprehensive information about and in depth analysis of contemporary issues in transnational crime and global security. The first volume covers such core topics as cybercrime, human trafficking and money laundering and also contains infrequently covered but nevertheless important topics including environmental crime, the weaponization of infectious diseases and outlaw motorcycle gangs. The second volume is unique in its coverage of security issues related to such topics as the return of foreign terrorist fighters, using big data to reinforce security and how to focus efforts that encourage security cooperation.

The Nexus Between Organized Crime and Terrorism Paoli, Letizia, Fijnaut, Cyrille, Wouters, Jan, 2022-02-18 In the post 9/11 era the nexus between organized crime and terrorism has raised much concern and has been widely discussed in both academic and policy circles but is still largely misunderstood. This critical book contributes innovatively to the debate by distinguishing three types of nexus interaction: transformation, imitation and similarities, and identifying the promoting factors of each type.

Handbook of Transnational Crime and Justice Philip Reichel, Jay Albanese, 2013-04-29 Transnational crime and justice will characterize the 21st century in the same way that traditional street crimes dominated the 20th century. In the *Handbook of Transnational Crime and Justice*, Philip Reichel and Jay Albanese bring together top scholars from around the world to offer perspectives on the laws, crimes and criminal justice responses to transnational crime. This concise reader friendly handbook is organized logically around four major themes: the problem of transnational crime, analysis of specific transnational crimes, approaches to its control and regional geographical analyses. Each comprehensive chapter is designed to be explored as a stand alone topic, making this handbook an important textbook and reference tool for students and practitioners alike.

The Politics of Controlling Organized Crime in Greater China Sonny Shiu-Hing Lo, 2015-12-14 In China the central government has the political will to control organized crime which is seen as a national security threat. The crux of the problem is how to control local governments that have demonstrated lax enforcement without sufficient regulation from the provincial governments. The development of prostitution, underground gambling and narcotics production

has become so serious that the central government has to rely on anti crime campaigns to combat these three evils This book explores the specific role of government institutions and agencies notably the police in controlling organised and cross border crime in Greater China Drawing heavily on original empirical data it compares the both the states of the People s Republic of China and Taiwan as well as city states Hong Kong and Macao This region has become increasingly economically integrated and human interactions have been enhanced through improved trade relations tourism and increased individual freedom The book argues that the regime capacity of crime control across Greater China has been expanded through regional and international police cooperation as well as anti crime campaigns It suggests that a strong central state in China is necessary to rein in the local states and to prevent the risk of deteriorating into a political criminal nexus Focusing on regime capacity in crime control regime autonomy from crime groups and regime legitimacy in the fight against organized crime this thought provoking book will be of great interest to students and scholars of Chinese politics and criminology more broadly

Crime-terror Alliances and the State Lyubov Grigorova, Ted Robert Gurr, 2013 This new book by Lyubov Mincheva and Ted Gurr examines the political economy of transborder violence on the European Periphery that poses grave threats to domestic and international security in Europe and elsewhere The units of analysis are unholy alliances i e hybrid transborder militant and criminal networks which have been active in the 1990s and the first decade of the 2000s The concept of Unholy Alliances is extended to also include the trans state criminal syndicates that arise in failed and dysfunctional states or operate within the global illicit economy It also addresses the question of what reigns supreme in securing the militants long term success money or social endowment including strong identity networks
