Mulver Tongue:

Vulgar Tongues Max Décharné, 2017-06-06 This rollercoaster ride through the colorful history of slang from highwaymen to hip hop is a fresh and exciting take on the subject entertaining and authoritative without being patronizing out of touch or voyeuristic Slang is the language of pop culture low culture street culture underground movements and secret societies depending on your point of view it is a badge of honor a sign of identity or a dangerous assault on the values of polite society Of all the vocabularies available to us slang is the most alive constantly evolving and as it leaks into the mainstream and is taken up by all of us infusing the language with a healthy dose of vitality Witty energetic and informative Vulgar Tongues traces the many routes of slang beginning with the thieves and prostitutes of Elizabethan London and ending with the present day where the centuries old terms rap and hip hop still survive though their meanings have changed On the way we will meet Dr Johnson World War II flying aces pickpockets schoolchildren hardboiled private eyes carnival geeks and the many eccentric characters who have tried to record slang throughout its checkered past If you re curious about flapdragons and ale passion the changing meanings of punk and geek or how fly originated on the streets of eighteenth century London and square in Masonic lodges this is the book for you *Speaking in Tongues and Dancing Diaspora* Mae G. Henderson, 2014-05-07 The oral tradition has always played an important role in African American literature ranging from works such as Zora Neale Hurston s *Their Eyes Were Watching God* to Toni Morrison s *Beloved* These and countless other novels affirm the power of sonance and sound in the African American literary canon Considering the wide swath of work in this powerful lineage in addition to its shared heritage with performance Mae G Henderson deploys her trope of speaking in tongues to theorize the preeminence of voice and narration in black women s literary performance through her reconstruction of a fundamentally spiritual practice as a critical concept for reading black women s writing dialogically and intertextually The first half of the book is devoted to influential works of fiction as Henderson offers a series of spirited attentive readings of works by Zora Neale Hurston Alice Walker Sherley Anne Williams Toni Morrison Gayl Jones and Nella Larsen The second half shifts gears to consider the world of female African American performance most notably in the figures of Josephine Baker and the video dancer Drawing on the trope of dancing diaspora Henderson proposes a model of theorizing based on performing testimony and critical witnessing Throughout the book Henderson draws on a history of black women not only in the Pentecostal Holiness Church but also within the traditions of classical Christian African and black diasporic spirituality and performance Ultimately *Speaking in Tongues and Dancing Diaspora* provides a deeply felt reflection on race and gender and their effects within the discourses of speaker listener and audience performer *The Death Watch* Michael Cape-Meadows, 1927 *A Language Spoken in Tongues: Essays in the Transcultural Gothic* Gord Barentsen, 2020-10-12 **(M)Other Tongues** Juliane Prade, 2020-05-15 *M Other Tongues Literary Reflexions on a Difficult Distinction* examines a key problem of literary criticism the differentiation between languages is at the same time necessary

and impossible It is indispensable in order to read a text yet literary texts are precisely those that question this distinction articulating the link between languages and cultures as well as the inherent strangeness of even one's own mother tongue *M Other Tongues* explores texts from the 16th century to the 21st century focusing on different aspects of one main feature of literary texts formally as well as semantically they transcend the rules and conventions of the language they speak Crossing cultural borders is commonly discussed in historical social linguistic and psychoanalytical terms whether it be as post colonialism exilic or diasporic identities creoles or the displaced other within the own *M Other Tongues* argues that rather than being mere evidence in the theoretical analysis of cultural transitions literary texts are a unique medium to reflect such processes as they challenge and modify the notion of language itself The book discusses texts written mainly in English French and German but also in Spanish and the complex formerly known as Yugoslavian *M Other Tongues* shows that such distinctions between languages are precise since they can be exemplified with an indefinite number of words and rules and still remain uncertain because they cannot be abstracted from these examples What separates the mother tongue from other tongues is indeed precise uncertainty

Contested Tongues Laada Bilaniuk, 2005 During the controversial 2004 elections that led to the Orange Revolution in Ukraine cultural and linguistic differences threatened to break apart the country *Contested Tongues* explains the complex linguistic and cultural politics in a bilingual country where the two main languages are closely related but their statuses are hotly contested Laada Bilaniuk finds that the social divisions in Ukraine are historically rooted ideologically constructed and inseparable from linguistic practice She does not take the labeled

categories as givens but questions what Ukrainian and Russian mean to different people and how the boundaries between these categories may be blurred in unstable times Bilaniuk's analysis of the contemporary situation is based on ethnographic research in Ukraine and grounded in historical research essential to understanding developments since the fall of the Soviet Union Mixed language practices surzhyk in Ukraine have generally been either ignored or reviled but Bilaniuk traces their history their social implications and their accompanying ideologies Through a focus on mixed language and purism the author examines the power dynamics of linguistic and cultural correction through which people seek either to confer or to deny others social legitimacy The author's examination of the rapid transformation of symbolic values in Ukraine challenges theories of language and social power that have as a rule been based on the experience of relatively stable societies

Graphic Details Sarah Lightman, 2016-04-22 The comics within capture in intimate often awkward but always relatable detail the tribulations and triumphs of life In particular the lives of 18 Jewish women artists who bare all in their work which appeared in the internationally acclaimed exhibition *Graphic Details: Confessional Comics by Jewish Women* The comics are enhanced by original essays and interviews with the artists that provide further insight into the creation of autobiographical comics that resonate beyond self beyond gender and beyond ethnicity *The Tongues We Speak* Patricia Goedicke, 1989

A Woman at War Molly Moore, 2010-06-15 A journalist who accompanied a senior commanding general as he led his troops into battle during Desert Storm gives an insider's view of the heroism and tragedy that she witnessed on the front line Molly Moore senior correspondent for The Washington Post didn't think she'd be the only US journalist with a close up view of the Gulf War but when Lt Gen Walter Boomer commander of the US Marine forces invited her to shadow him while his troops planned and executed the invasion of Kuwait that's exactly the situation she found herself in The result of this brave journalistic effort is a vivid and dramatic account of the Gulf War one that does justice to the diligent gutsy marines that successfully drove Saddam Hussein's military from the country without romanticizing the horrors of battle Tense chaotic and thrumming with emotional resonance Moore's examination of the invasion offers indispensable insight into the 100 hour invasion that formed the overture to America's War on Terror
