Munros Tables:

Peak Bagging Munros Volume 1 Nicola Hardy, 2025-06-19 Over 130 years ago mountaineer Sir Hugh Munro published the first list of Munros Scottish mountains with a height over 3 000 feet and inspired the hobby of Munro bagging a pastime which combines rugged adventure on a personal and literal journey around the Scottish Highlands with a nerdy compulsion to maintain a ticklist *Peak Bagging Munros Volume 1* by Nicola Hardy Munroist number 6 765 features 64 routes designed to link up the 141 most southerly Munros so you can enjoy the challenge of completing them at your own pace over years months or in rare cases even just a few weeks It presents not only the most efficient routes but does so in such a way that each route is a fantastic walk or run in its own right The featured routes include the iconic Ring of Steall and Ben Nevis via the Carn M r Dearg Ar te alongside classic entry level walks up the likes of Ben Chonzie Ben Lomond in Loch Lomond and the Trossachs and Mount Keen in the Cairngorms To assist you in building an itinerary the routes are split into ten Highland hubs which include Glencoe Fort William Braemar and Pitlochry These are chosen to be easy to access and with decent public transport links to help you make environmentally sustainable choices when you can Base yourself in a Highland hub for a long weekend or a lengthier stay springboard to Munro routes from each hub and return to access the recommended local facilities including shops pubs and cafes In addition the book is packed with useful information including 1 40 000 scale maps elevation profiles route directions public transport and parking details refreshments downloadable GPX files for each route and custom timings for walkers trekkers fastpackers and runners Along with stunning photography there are rest day suggestions accommodation ideas to suit multiple budgets and a series of supportive indices through which you can find suitable walks whatever your current level of hillwalking experience Whatever your timescale for completing Scotland's Munros *Peak Bagging Munros Volume 1* is the indispensable guide to this Scottish hill challenge *The Munros and Tops* Chris Townsend, 2013-05-24 When Chris Townsend reached the summit of Ben Hope in Sutherland he walked his way into the record books After 118 days in which he had covered more than 1 700 miles and climbed over 575 000 feet he had completed the first single continuous journey of all 277 Munros and 240 Tops in the Scottish Highlands This is the story of that remarkable walk from the start on Ben More on the Isle of Mull through to the finish the equivalent of climbing Mount Everest 18 times For the author the real enjoyment of the walk was not in counting up the summits or the miles but in spending week after week in the hills and living in the wilds In *THE MUNROS AND TOPS* Chris Townsend recalls the joys of observing the birds and animals the trees and flowers the changing shapes of the hills and the play of light on their slopes He writes about the complexities of route finding and the challenge of rugged terrain and of coping with often atrocious weather conditions Illustrated with photographs taken during the walk this is a stirring account of a unique achievement *The Munros* Andrew Dempster, 2021-09-30 The mountains provide the spiritual nourishment so essential to a truer understanding of the hills and ultimately ourselves Munro bagging is a headily addictive pursuit with the holy grail of completion the

ultimate aim currently achieved by around 7 000 Munroists It all began in 1891 when Sir Hugh Munro s Tables of 3 000 foot Scottish mountains appeared in The Scottish Mountaineering Club Journal Since then this innocent compilation of hills has become a hallowed hit list Andrew Dempster traces the meandering course of this cult activity which has gone from trickle to torrent in the space of a century From early map makers to current record breakers from the why and the wry to wildness and well being The Munros A History explores the compulsions and philosophies underpinning the Munro phenomenon

Munro's Tables Sir Hugh Thomas Munro,Derek Bearhop,1997-11-01 *Scotland* Chris Townsend,2011-03-30 This comprehensive book is an excellent planning resource for those who wish to venture into the Scottish mountains Whether you are planning a walk scramble climb or ski tour this larger format guide has all the information the independent mountain lover needs The guide covers all the mountainous areas of Scotland from south to north divided into seven regions Each regional chapter covers individual glens important for mountain goers groups of hills that form coherent massifs and individual hills of significance However this is not a route guide and detailed descriptions are not provided The aim of the book is to inspire and entertain as well as inform to show first time visitors just what the Scottish mountains have to offer and provide a new perspective for those who have been before In the descriptions author Chris Townsend has given his opinions as to the relative qualities of the walks glens lochs mountains and the landscape in general and highlighted those he thinks are the best the area has to offer Includes Descriptions of all the Scottish mountains area by area from south to north to help you identify the best locations for hill walking mountaineering climbing and ski touring Classic ascents and walks described from scrambles up Ben Nevis to ski tours in the Cairngorms A planning tool for long distance treks Baffies' Easy Munro Guide Ralph Storer,2020-04-24 Baffies the entertainments convenor of the Go Take a Hike Mountaineering Club is allergic to exertion prone to lassitude suffers from altitude sickness above 600m blisters easily and bleeds readily Think the Munros are too difficult Think again Baffies Easy Munro Guide is the first of a series of reliable rucksack guides to some of the more easily tackled Munros Twenty five routes each covering one main Munro all with detailed maps and full colour throughout this lightly humorous and opinionated book will tell you everything you need to reach the summit Thousands of people each year attempt to conquer the Munros This guide allows beginners and those looking for a less strenuous challenge to join in It is perfect for anyone exploring Scotland s beautiful mountains whatever his or her level of experience **Higher Ground** Martin Moran,2021-11-11 Martin Moran lived life in the mountains to the full He climbed and guided in the Alps Norway and the Himalayas sharing life changing adventures along the way **Another Shore** Roger Legg,2013-01-17 Ever since Boy Scout days Roger Legg has obtained great pleasure from long distance walking On the whole he does not like following footpath routes designated by Acts of Parliament nor following books of instructions on how to get from A to B proceed for one mile turn left at the farm gate be careful of the marsh at the bottom of hill It all sounds a bit like joining the army and often fails to get the walker off the beaten track Rather he prefers to plan his own route to use map and compass This book is

a record of six journeys which he made in the British Isles during the years 1980 to 1991 He hopes the reader will enjoy his adventures as that great walker George Borrow said many years ago these British Islands where more strange things are every day occurring whether in road or street house or dingle The Scottish Mountaineering Club Guide James Reid Young,1921 *Unjustifiable Risk?* Simon Thompson,2012-03-06 To the impartial observer Britain does not appear to have any mountains Yet the British invented the sport of mountain climbing and for two periods in history British climbers led the world in the pursuit of this beautiful and dangerous obsession *Unjustifiable Risk* is the story of the social economic and cultural conditions that gave rise to the sport and the achievements and motives of the scientists and poets parsons and anarchists villains and judges ascetics and drunks that have shaped its development over the past two hundred years The history of climbing inevitably reflects the wider changes that have occurred in British society including class gender nationalism and war but the sport has also contributed to changing social attitudes to nature and beauty heroism and death Over the years increasing wealth leisure and mobility have gradually transformed climbing from an activity undertaken by an eccentric and privileged minority into a sub division of the leisure and tourist industry while competition improved technology and information and increasing specialisation have helped to create climbs of unimaginable difficulty at the leading edge of the sport But while much has changed even more has remained the same Today s climbers would be instantly recognisable to their Victorian predecessors with their desire to escape from the crowded complexity of urban society and willingness to take unjustifiable risk in pursuit of beauty adventure and self fulfilment *Unjustifiable Risk* was shortlisted for the Boardman Tasker prize in 2011
