Transformed Music Paul Kildea, 2018-08-14 An exceptionally fine book erudite digressive urbane and deeply moving Wall Street Journal Chopin's Piano traces the history of Frédéric Chopin's twenty four Preludes through the instruments on which they were played the pianists who interpreted them and the traditions they came to represent Yet it begins and ends with Chopin's Mallorca piano which the great keyboard player Wanda Landowska rescued from an abandoned monastery at Valldemossa in 1913 and which assumed an astonishing cultural potency during the Second World War as it became for the Nazis a symbol of the man and music they were determined to appropriate as their own In scintillating prose and with an eye for exquisite detail Paul Kildea beautifully interweaves these narratives which comprise a journey through musical Romanticism one that illuminates how art is transmitted interpreted and appropriated over the ages **Images of Savages**

Gustav Jahoda, 2018-10-03 In Images of Savages the distinguished psychologist Gustav Jahoda advances the provocative thesis that racism and the perpetual alienation of a racialized other are a central legacy of the Western tradition Finding the roots of these demonizations deep in the myth and traditions of classical antiquity he examines how the monstrous humanoid creatures of ancient myth and the fabulous wild men of the medieval European woods shaped early modern explorers interpretations of the New World they encountered Drawing on a global scale the schematic of the Western imagination of its others Jahoda locates the persistent identification of the racialized other with cannibalism sexual abandon and animal drives Turning to Europe's scientific tradition Jahoda traces this imagery through the work of 18th century scientists on the relationship between humans and apes the new racist biology of the 19th century studies of savagery as an arrested evolutionary state and the assignment especially of blacks to a status intermediate between humans and animals or that of children in need of paternal protection from Western masters Finding in these traditional tropes a central influence upon the most current psychological theory Jahoda presents a startling historical continuity of racial figuration that persists right up to the present day Far from suggesting a program for the eradication of racial stereotypes this remarkable effort nevertheless isolates the most significant barriers to equality buried deep within the Western tradition and proposes a potentially

redemptive self awareness that will contribute to the gradual dismantling of racial injustice and alienation Gustav Jahoda demonstrates how deeply rooted Western perceptions going back more than a thousand years are still feeding racial prejudice today This highly original socio historical contextualisation will be invaluable to scholars of psychology sociology and anthropology and to all those interested in the sources of racial prejudice
