Archive of Place William Turkel,2011-11-01 The Archive of Place weaves together a series of narratives about environmental history in a particular location British Columbia s Chilcotin Plateau In the mid 1990s the Chilcotin was at the centre of three territorial conflicts Opposing groups in their struggle to control the fate of the region and its resources invoked different understandings of its past and different types of evidence to justify their actions These controversies serve as case studies as William Turkel examines how people interpret material traces to reconstruct past events the conditions under which such interpretation takes place and the role that this interpretation plays in historical consciousness and social memory It is a wide ranging and original study that extends the span of conventional historical research **Slavery in the**

Land of Big Rivers M. J. Morgan,2010-07-06 Drawing on research from a variety of academic fields such as archaeology history botany ecology and physical science M J Morgan explores the intersection of people and the environment in early eighteenth century Illinois Country a stretch of fecund alluvial river plain along the Mississippi river Arguing against the traditional narrative that describes Illinois as an untouched

wilderness until the influx of American settlers Morgan illustrates how the story began much earlier She focuses her study on early French and Indian communities and later on the British nestled within the tripartite environment of floodplain riverine cliffs and bluffs and open upland till plain prairie and examines the impact of these diverse groups of people on the ecological landscape By placing human lives within the natural setting of the period the abundant streams and creeks the prairies plants and wildlife she traces the environmental change that unfolded across almost a century She describes how it was a land in motion how the occupying peoples used extracted and extirpated its resources while simultaneously introducing new species and how the flux and flow of life mirrored the movement of the rivers Morgan emphasizes the importance of population sequences the relationship between the aboriginals and the Europeans the shared use of resources and the effects of each on the habitat Land of Big Rivers is a unique many themed account of the big picture ecological change that occurred during the early history of the Illinois Country It is the first book to consider the environmental aspects of the Illinois Indian experience and to reconsider the role of the French and British in environmental change in the mid Mississippi Valley It engagingly recreates presettlement Illinois with a remarkable interdisciplinary approach and provides new details that will encourage understanding of the interaction between physical geography and the plants animals and people in the Illinois Country Furthermore it exhibits the importance of looking at the past in the context of environmental transformation which is especially relevant in light of today s global climate change

The Ordeal of the Longhouse Daniel K. Richter, 2011-05-01 Richter examines a wide range of primary documents to survey the responses of the peoples of the Iroquois League the Mohawks Oneidas Onondagas Cayugas Senecas and Tuscaroras to the challenges of the European colonialization of North America He demonstrates that by the early eighteenth century a series of creative adaptations in politics and diplomacy allowed the peoples of the Longhouse to preserve their cultural autonomy in a land now dominated by foreign powers

The New Peoples Jacqueline Peterson, Jennifer S.H. Brown, 1985-11-01 Leading Canadian and American scholars explore the dimension and meaning of the intermingling of European and Native American peoples

The History and Culture of Iroquois Diplomacy Francis Jennings, 1995-06-01 The History and Culture of Iroquois Diplomacy is a comprehensive exploration of the treaty making traditions of the Six Nations offering a deep dive into their diplomatic strategies alliances and political rhetoric Edited by Francis Jennings this interdisciplinary guide brings together historical cultural and linguistic perspectives to analyze the treaties negotiated by the Iroquois with Dutch English French and American representatives The book provides a systematic study of Iroquois treaty procedures featuring essays from scholars on topics such as the structure of negotiations the role of wampum in councils and the significance of place names in treaty making It also includes a descriptive treaty calendar spanning 1613 to 1913 maps and a glossary of figures of speech used in Iroquois diplomacy By making these documents accessible to both scholars and general readers this work stands as a landmark in the study of Iroquois history and governance

The Silver Chief Lucille H. Campey, 2003-05-20 Belfast Prince Edward Island founded

in August 1803 owes its existence to Lord Selkirk Its bicentennial is a timely reminder of Selkirk s work in Canada which extended beyond Belfast to Baldoon later Wallaceburg in Ontario as well as to Red River the precursor to Winnipeg Aptly named The Silver Chief by the five Indian chiefs with whom he negotiated a land treaty at Red River the fifth Earl of Selkirk spent an immense fortune in helping Scottish Highlanders relocate themselves in Canada Selkirk has been well observed through the eyes of the rich and powerful but his settlers have been neglected Why did they leave Scotland Which districts did they come from Why did they settle in Canada Why did Selkirk help them How successful were their settlements What impact did they have on Canada s early development Did Selkirk realize his ambitions for Canada In answering these questions Lucille H Campey presents a new and powerful case for re assessing the achievements of Selkirk and his settlers Using a wealth of documentary sources she reconstructs the sequence of emigration from Scotland to the three areas of Canada where settlements were founded She shows that emigration took place in a carefully planned and controlled way She reveals the self reliance adaptability and steely determination of the Selkirk settlers in overcoming their many problems and obstacles They brought their rich traditions of Scottish culture to Canada and in doing so helped to secure its distinctively Canadian future Together Selkirk and his settlers succeeded against overwhelming odds and altered the course of history

The Economy of British America, 1607-1789 John J. McCusker, Russell R. Menard, 2014-01-01 By the American Revolution the farmers and city dwellers of British America had achieved individually and collectively considerable prosperity The nature and extent of that success are still unfolding In this first comprehensive assessment of where research on prerevolutionary economy stands what it seeks to achieve and how it might best proceed the authors discuss those areas in which traditional work remains to be done and address new possibilities for a new economic history *Canada in the European Age, 1453-1919* R.T. Naylor, 2006-07-10 When *Canada in the European Age 1453 1919* was first published it reversed traditional methodology by placing Canada s evolution in the context of the rise and fall of empires around the world not just in the Americas R T Naylor contends that the struggle for property and political rights in early nineteenth century Newfoundland is incomprehensible without an understanding of events as distinct as the Afro American slave trade or the Napoleonic Wars the opening of the natural resource frontier of British Columbia makes sense only if seen as another manifestation of the same historical forces that fired the opening shots in the Opium wars in China and the fate of Canada s native peoples may have been different in form but not in essence from that of the aboriginal inhabitants on almost every continent *Metis Pioneers* Doris Jeanne MacKinnon, 2018-03-15 In *Metis Pioneers* Doris Jeanne MacKinnon compares the survival strategies of two Metis women born during the fur trade one from the French speaking free trade tradition and one from the English speaking Hudson s Bay Company tradition who settled in southern Alberta as the Canadian West transitioned to a sedentary agricultural and industrial economy MacKinnon provides rare insight into their lives demonstrating the contributions Metis women made to the building of the Prairie West This is a compelling tale of two

women's acts of quiet resistance in the final days of the British Empire **Will to Power** David Mulhall, 2011-11-01 This study of British Columbia's most famous missionary Father A G Morice OMI casts new lights on his motives and actions. Extraordinarily vain and egotistical Morice was obsessed with gaining power and recognition as a missionary explorer and Indian expert. With his native intelligence and boundless energy and determination he built a veritable kingdom for himself in northern B C. However his rebellious and erratic behaviour finally led to a conflict with his superiors as David Mulhall points out in this fascinating account of a very atypical Oblate missionary.

Puritans Among the Indians Alden T. Vaughan, Edward W Clark, 2009-06-01 These eight reports by white settlers held captive by Indians gripped the imagination not only of early settlers but also of American writers through our history. Puritans among the Indians presents in modern spelling the best of the New England narratives. These both delineate the social and ideological struggle between the captors and the settlers and constitute a dramatic rendition of the Puritans' spiritual struggle for redemption.
