Old Woman And The Wave:

Rylie's Gift Koby Todd, 2014-12-05 A child loves unconditionally and a child will believe in the existence of God without question Eventually experiences social conformity or a broken spirit could cause ones faith to falter diminish or even disappear Somewhere in the middle of birth and death there are questions about God no longer is there a blind faith Rylies Gift is a story of a child's pure faith in God It is a story of how one child can make a difference **The Old Woman and the Wave** Shelley Jackson, 1998 An old woman finally comes to understand and appreciate the huge wave that has hung in the air sheltering her house all her life The Second Wave Leska Beikircher, 2013-03-01 The colonization began with a first wave of settlers On day 183 all contact was lost Just as mankind has found a way to live together in peace and harmony Earth grows more hostile by the day So when scientists discover a way to travel to an alternate Earth a plan for colonization is quickly formed But the connection between the two planets breaks and when it reopens something has gone wrong The colony is gone the settlers have vanished and the scenery has changed drastically All that's left is a lost woman who seems to be connected to whatever happened A second wave of colonists set out for Alternearth Among them is John who is on the run from the Chinese mob and leading geologist Dr Peter Wagner John's long lost lover While John and the mysterious woman develop a unique bond and Peter opens up to the possibility of falling in love again the colonists must find a way to save both planets and are forced to face a long forgotten part of mankind's history **The death mystery, or, 'Free on the ocean wave'**. Death mystery, 1867 Conflict and Creativity at Work Albert Low, 2008 Contributes to the tide of activism that is calling for higher ethical standards and corporate social responsibility within the corporate world It offers a new way to look at a company work a product and company organization Nobel prizewinner Milton Friedman says that the only social responsibility a company has is to make a profit Albert Low questions this basic assumption and provides an alternative view a company is a complex field of interacting and conflicting forces out of which a product emerges The interests of the stockholder make up just one set of these forces The corporate system arises out of the natural creativity of human beings and is expressed in the work that we do Therefore to understand a company its organisation and its reason for being we must understand creativity and work what they involve and their importance to our mental health This new understanding of social responsibility is imperative for the very survival of our way of life Business Ethics quotes Thomas Donahue US Chamber of Commerce President as saying There is something fundamentally out of balance when short term considerations become so dominant The book offers a new way to look at the corporate system and long term corporate social responsibility Depression is widespread throughout western society A contributing factor is the way the corporate system operates People are now adjuncts to the system and the result is alienation and impotence China and India are looming as major industrial competitors and their employees are very well motivated To compete in the West we must revise the present antiquated corporate philosophy that asserts that the interests of the stockholder are the only interests that the corporation can legally
