Old Masters, New World Cynthia Saltzman, 2008-08-14 A spellbinding account of the rapacious pursuit of the most exquisite paintings in the world In the Gilded Age newly wealthy and culturally ambitious Americans began to compete for Europe s extraordinary Old Master pictures causing a major migration of art across the Atlantic Old Masters New World is a backstage look at the cutthroat competition financial maneuvering intrigue and double dealing often involved in these purchases not to mention the seductive power of the ravishing paintings that drove these collectors including financier J Pierpont Morgan sugar king H O Havemeyer Boston aesthete Isabella Stewart Gardner and industrialist Henry Clay Frick Packed with stunning reproductions this is an ideal gift book for art lovers and history buffs alike *One True Theory & the Quest for an American Aesthetic* Martha Banta, 2007-01-01 Martha Banta reaches across several disciplines to investigate America s early quest to shape an aesthetic equal to the nation s belief in its cultural worth Marked by an unusually wide ranging sweep the book focuses on three major testing grounds where nineteenth century Americans responded to Ralph Waldo Emerson s call to embrace everything in order to uncover the theoretical principles underlying the idea of creation The interactions of those who rose to this urgent challenge artists architects writers politicians and the technocrats of scientific inquiry brought about an engrossing tangle of achievements and failures The first section of the book traces efforts to advance the status of the arts in the face of the aspersion that America lacked an Art Soul as deep as Europe s Following that is a hard look at heated political debates over how to embellish the architecture of Washington D C with the icons of cherished republican ideals The concluding section probes novels in which artists lives are portrayed and aesthetic principles tested **Catalog of Copyright Entries. bank of Shakespeare knowledge As well as revealing the potential for a new understanding of Shakespeare s plays Martin Orkin adopts a fresh approach to issues of power where proximations emerge from a process of dialogue and challenge traditional notions of authority Divided into two parts this book encourages us to recognise the way in which local or non metropolitan knowledges and experiences might extend understanding of Shakespeare s texts and their locations demonstrates the use of local as well as metropolitan knowledges in exploring the presentation of masculinity in Shakespeare s late plays These plays themselves dramatise encounters with different cultures and crucially challenges to established authority
