Kumarasingham, 2016-03-31 Britain s main imperial possessions in Asia were granted independence in the 1940s and 1950s and needed to craft constitutions for their new states Invariably the indigenous elites drew upon British constitutional ideas and institutions regardless of the political conditions that prevailed in their very different lands Many Asian nations called upon the services of Englishman and Law Professor Sir Ivor Jennings to advise or assist their own constitution making Although he was one of the twentieth century s most prominent constitutional scholars his opinion and influence were often controversial and remain so due to his advocating British norms in Asian form This book examines the process of

constitutional formation in the era of decolonisation and state building in Asia It sheds light upon the influence and participation of Jennings in particular and British ideas in general on democracy and institutions across the Asian continent Critical cases studies on India Pakistan Sri Lanka Malaysia and Nepal all linked by Britain and Jennings assess the distinctive methods and outcomes of constitution making and how British ideas fared in these major states The book offers chapters on the Westminster model in Asia Human Rights Nationalism Ethnic politics Federalism Foreign influence Decolonisation Authoritarianism the Rule of Law Parliamentary democracy and the power and influence of key political actors Taking an original stance on constitution making in Asia after British rule it also puts forward ideas of contemporary significance for Asian states and other emerging democracies engaged in constitution making regime change and seeking to understand their colonial past The first political historical or constitutional analysis comparing Asia s experience with its indelible British constitutional legacy this book is a critical resource on state building and constitution making in Asia following independence It will appeal to students and scholars of world history public law and politics *Aftermath* Richard Crowder,2015-05-29 In a decade between 1940 and 1950 the old world order collapsed and a new one was created Old European empires France Germany and the United Kingdom receded replaced by two new superpowers the Soviet Union and the United States Beyond Europe a swath of new countries was created India Communist China Israel and the modern Arab states Indonesia the Koreas But there were darker shadows too cast by the onset of the Cold War the failure to establish international controls on atomic energy or the growth of the national security state and modern intelligence apparatus This era also produced some of the most remarkable statesmen of modern times including leaders such as Roosevelt Churchill Stalin Truman de Gaulle Nehru and Mao Tsetung diplomats like George Marshall Dean Acheson Anthony Eden Ernest Bevin and Robert Schuman and international fixers such as Averell Harriman John Maynard Keynes or Jean Monnet Their stories form the core fabric of this book Richard Crowder examines their shared ambition to rebuild the world and launch a second age of globalization

**Japan's Postwar Economic Recovery and Anglo-Japanese Relations, 1948-1962** Noriko Yokoi, 2004-03-01 Ever since Japan's economy recovered in the 1960s scholars have been searching for the reasons for its meteoric postwar success Until now much research has been based on the study of Japan's society its political and economic infrastructure and its particular model of capitalism But now that American and British government documents from the 1950s have been released it emerges that the United States as part of its Cold War economic and military strategy in East Asia played a large part in assisting Japan out of its economic difficulties whereas Britain's role seems to have been more ambivalent and circumspect This book

sets out to rectify the lack of full research into Anglo Japanese trade relations from the late 1940s up to the early 1960s and to examine the impact of cultural differences and perceptions on diplomacy as well as the influence of prevailing political considerations like the Cold War This book highlights the ebbs and flows in bilateral relations as Japan increased its economic and financial presence in Southeast Asia and Britain retreated politically and economically from its Empire in the East

**D-Day, 1944** Theodore A. Wilson, 1994 Readers may be astonished at how much scholarly digging and the release of once secret information have transformed the history of this campaign At times it seems like a whole new war New York Times Book Review

NATO 1948 Lawrence S. Kaplan, 2007-06-21 This compelling history brings to life the watershed year of 1948 when the United States reversed its long standing position of political and military isolation from Europe and agreed to an entangling alliance with ten European nations Not since 1800 when the United States ended its alliance with France had the nation made such a commitment The historic North Atlantic Treaty was signed on April 4 1949 but the often contentious negotiations stretched throughout the preceding year Lawrence S Kaplan the leading historian of NATO traces the tortuous and dramatic process which struggled to reconcile the conflicting concerns on the part of the future partners Although the allies could agree on the need to cope with the threat of Soviet led Communism and on the vital importance of an American association with a unified Europe they differed over the means of achieving these ends The United States had to contend with domestic isolationist suspicions of Old World intentions the military's worries about over extension of the nation's resources and the apparent incompatibility of the projected treaty with the UN charter For their part Europeans had to be convinced that American demands to abandon their traditions would provide the sense of security that economic and political recovery from World War II required Kaplan brings to life the colorful diplomats and politicians arrayed on both sides of the debate The end result was a remarkably durable treaty and alliance that has linked the fortunes of America and Europe for over fifty years Despite differences that have persisted and occasionally flared over the past fifty years NATO continues to bind America and Europe in the twenty first century Kaplan's detailed and lively account draws on a wealth of primary sources newspapers memoirs and diplomatic documents to illuminate how the United States came to assume international obligations it had scrupulously avoided for the previous 150 years

**America, Hitler and the UN** Dan Plesch, 2010-12-14 On 1 January 1942 Churchill and Roosevelt issued a Declaration by United Nations with 24 other states forging a military alliance based on human rights principles that included China India and the Soviet Union This marked the beginning of the UN in a real and tangible form Yet today many people have forgotten that the UN was born in the confusion and complexity of wartime How did the armies of the United Nations co operate during World War II to contain and ultimately crush Nazi expansionism And when and for what purpose did the UN undertake to tackle the international economic and social challenges of the post war world The role of the UN in motivating the Allied powers to co operate during the war and forge a meaningful peace in the aftermath is often overlooked America Hitler and the UN is the first book to address these issues

fully and to explore how the profound restructuring of the international world order was organised while the war still raged Drawing on previously unknown archival material Dan Plesch analyses the engagement with the UN by all levels of society from political elites to grass roots level Illustrating that the Allied defeat of Nazism should properly be called a United Nations victory Dan Plesch has pieced together the full story of how the UN intervened in surprising ways at a pivotal time in world history America Hitler and the UN is an important addition to the literature of World War II and essential reading for anyone with an interest in military or diplomatic history or contemporary international relations Plesch argues that the UN's success is as vital today as it was then Its revitalisation can draw on these lost lessons in peace and economic stability to improve policy making in the twenty first century *Whitehall and the Suez Crisis* Anthony Gorst,Saul Kelly,2013-01-11 This review of the Suez Crisis gives a chapter each to such key players as the Chief of the Imperial General Staff and the Secretary to the Cabinet It incorporates 1956 releases from the Public Record Office to reassess the role of officials and the process of policymaking **International Perspectives on the Yugoslav Conflict** Alex Danchev,Thomas Halverson,2016-07-27 International Perspectives on the Yugoslav Conflict is a collection of important new work by the leading authorities in the field Unusually this is an international investigation of an international conflict The result is both profound and provocative the most stimulating and the most far reaching exploration of the subject yet to appear European Recovery and the Search for Western Security, 1946-1948 Gill Bennett,Patrick Salmon,2016-12-01 This volume documents the British Government's response from mid 1946 to early 1948 to the twin challenges of economic recovery and the search for a meaningful Western security framework in the face of the increasing polarisation of Europe into Eastern and Western spheres of influence Although relations between the wartime Big Three allies the UK US and USSR had begun to fracture even before the end of hostilities in 1945 it was during 1947 that the postwar division of Europe became sufficiently alarming to prompt decisive action under American and British leadership to promote European economic reconstruction and thereby increase Western security American leadership took the form of two initiatives enabled by US economic and military strength the Truman Doctrine for aid to Greece and Turkey announced in March 1947 and the Economic Recovery Programme or Marshall Plan first proposed in June 1947 British leadership under the personal direction of Foreign Secretary Ernest Bevin was shown in two ways in articulating Western Europe's need for US help in a way that enabled it to be recognised and then accepted and in helping to coordinate the European response to the US initiatives to maximise their effectiveness Documentation on the Truman Doctrine and Marshall Plan forms the core of the volume but a wide range of material including intelligence related documents has been chosen to illustrate the multiple challenges faced by the Attlee Government during this period This book will be of much interest to students of British politics Cold War History European History and International Relations **Democratic Socialism and Economic Policy** Jim Tomlinson,2002-06-20 This major study analyses the economic policies of the Attlee government
