next three essays approach each from a different angle the problem of Holmes's relationship to formalism or classical orthodoxy in legal thought Morton Horwitz provides a sweeping reassessment of the development of Holmes's legal thinking between the early period of the 1870s and 1880s and *The Path of the Law* in 1897 Mathias Reimann presents the first thorough exploration of Holmes's use misuse more often of German philosophy notably his discrediting in *The Common Law* of the legacy of Kant and Hegel Stephen Diamond approaches Holmes's jurisprudence and his broader social and personal views by another original pathway his legal opinions in taxation cases and his private views on taxation The final three essays consider Holmes as a man of letters and representative man of the American scene both as he created himself and as he was created by others Robert Ferguson shows how Holmes deliberately went about the work of fashioning the public persona of a judge Peter Gibian shows how Holmes's construction of his public style was formed as a deliberate reaction against that of his famous father Dr Oliver Wendell Holmes Sr The final essay by David Hollinger has a dual purpose to ask what Holmes meant by the scientific way of looking at the world and to discover how Holmes came to be such a hero to liberal Jewish intellectuals like Felix Frankfurter and Harold J Laski
