## **Omai Pacific Envoy:**

**Omai** Eric H. McCormick, 2013-10-01 Omai was the first Polynesian to visit Britain Picked up by one of Cook's captains he was carried to England where he became a human curiosity and the lion of fashionable London He was presented at Court examined by scientists and painted by a series of artists He learned to skate and play chess and developed a liking for the theatre At the end of two years he was taken back to the Pacific by Cook who left him at the island of Huahine In this landmark book McCormick creates a portrait of Omai and a picture of his two worlds the Polynesian and the European

**Omai** Eric Hall McCormick, 1977      **The Pacific Islands** Brij V. Lal, Kate Fortune, 2000-01-01 An encyclopaedia of information on major aspects of Pacific life including the physical environment peoples history politics economy society and culture The CD ROM contains hyperlinks between section titles and sections a library of all the maps in the encyclopaedia and a photo library      **Decolonisation and the Pacific** Tracey Banivanua Mar, 2016-04-26 This book charts the previously untold story of the mobility of Indigenous peoples across vast distances vividly reshaping what is known about decolonisation

Dark Paradise Fuller Jennifer Fuller, 2016-05-31 Examines the way in which the British transformed the Pacific islands during the nineteenth century The discovery of the Pacific islands amplified the qualities of mystery and exoticism already associated with foreign islands Their savage peoples their isolation and their sheer beauty fascinated British visitors across the long nineteenth century Dark Paradise argues that while the British originally believed the islands to be commercial paradises or perfect sites for missionary endeavours as the century progressed their optimistic vision transformed to portray darker realities As a result these islands act as a breaking point for British theories of imperialism colonialism and identity The book traces the changing British attitudes towards imperial settlement as the early view of island as paradise gives way to a fear of the hostile islanders and examines how this revelation undermined a key tenant of British imperialism that they were the superior or civilized islanders Key Features The first monograph to trace the Pacific islands as represented through the lens of British fiction and non fiction across the long nineteenth century Examines texts written by Pacific islanders and published in the British press Significantly broadens our understanding of the British Pacific by analysing understudied Pacific texts and authors alongside more canonical works

**The Pacific Muse** Patty O'Brien, 2006 While examining colonial culture in its many manifestations from art literature and film to the journals of explorers and missionaries O'Brien rereads not only the canonical texts of Pacific imperialism but also lesser known remnants of this cultural heritage with an eye to what they reveal about gender sexuality race and femininity Over its long history from the famous and much romanticized settlement of Tahitian women and mutineers from the Bounty on Pitcairn Island in 1789 to the South Seas romantic tradition Gauguin and beach culture notions of female primitivism changed in response to the ideological watersheds of Christianity Enlightenment science and race theories as well as the development of democratic nation states modernity and colonialism      Captain Cook Frank McLynn, 2011-06-07 This thoroughly researched and sharply opinionated

biography presents a nuanced portrait of the renowned 18th century navigator The Wall Street Journal The age of discovery was at its peak in the eighteenth century with bold adventurers charting the furthest reaches of the globe Foremost among these explorers was Captain James Cook of the British Royal Navy Recent writers have viewed Cook through the lens of colonial exploitation regarding him as a villain While they raise important issues many of these critical accounts overlook his major contributions to science navigation and cartography In Captain Cook Frank McLynn re creates the voyages that took the famous navigator from his native England to the outer reaches of the Pacific Ocean Although Cook died in a senseless avoidable conflict with the people of Hawaii McLynn illustrates that to the men with whom he served Cook was master of the seas and nothing less than a titan McLynn reveals Cook s place in history as a brave and brilliant yet tragically flawed man

**Staging Governance** Daniel O'Quinn,2020-03-03 Between 1770 and 1800 transformations in the relationship between metropolitan British society and its colonial holdings and in the concept of the nation itself left Britons with a new sense of themselves Over the same period the consolidation of the middle classes was accompanied by growing social constraints on sexuality and family life Staging Governance locates the intersection of these two trends in the representation of British India on the London stage Theatrical productions especially those representing colonial life pushed the limits of public discourse on sexuality and colonialism even as the government made efforts to shape and narrow them At the same time official discourse on colonial practices such as the public trials of Clive and Hastings became theatrical events themselves Exploring this rapidly shifting world through a series of original readings of dramatic texts and important moments of oratory Staging Governance demonstrates how the perceived crises of imperial and domestic Britain joined these spheres in the popular imagination The economics of political and sexual exchange not only became entwined but functioned as mutual supports during a period of social cultural and political readjustment Visions of Empire David Philip Miller,Peter Hanns

Reill,2011-07-21 Richly illustrated 1996 collection on how Pacific plants and peoples were depicted by European explorers

Subverting Empire Will Jackson,Emily Manktelow,2015-07-15 Across their empire the British spoke ceaselessly of deviants of undesirables ne er do wells petit tyrants and rogues With obvious literary appeal these soon became stock figures This is the first study to take deviance seriously bringing together histories that reveal the complexity of a phenomenon that remains only dimly understood **Representing Humanity in the Age of Enlightenment** Alexander Cook,2015-10-06

The Enlightenment era saw European thinkers increasingly concerned with what it meant to be human This collection of essays traces the concept of humanity through revolutionary politics feminist biography portraiture explorer narratives libertine and Orientalist fiction the philosophy of conversation and musicology **Reframing Indigenous Biography** Shino Konishi,Malcolm Allbrook,Tom Griffiths,2024-11-11 This book explores the history practice and possibilities of writing about the lives of First Nations peoples in Australia as well as Aotearoa New Zealand North America and the Pacific This interdisciplinary collection recognises the limitations of Western biographical conventions for writing Indigenous long and

Johann Reinhold Forster and the Making of Natural History on Cook's Second Voyage, 1772-1775 Anne Mariss, 2019-09-09 James Cook's voyages of exploration are a turning point not only in the history of the British Empire but also in the history of science and exploration of the Pacific The last decades have seen a wide ranging scholarly interest in Cook's voyages focusing on their impact on European and Polynesian societies their scientific results and their protagonists such as Cook himself or the nobleman Joseph Banks who took part in Cook's first voyage of exploration This book examines the hitherto underestimated role of the German scholar Johann Reinhold Forster who together with his son Georg Forster accompanied Cook on his second voyage of exploration 1772-1775 as a principal naturalist For a long time the German traveler has remained a rather shadowy figure of Cook's voyages of exploration and has only attracted scholarly attention occasionally Focusing on the making of knowledge onboard the ship and the islands where it made landfall the study provides a historical reappraisal of Forster's scientific performance as a leading naturalist of his time By examining Forster's *Resolution Journal* Anne Mariss takes a microhistorical approach toward the making of natural history knowledge during the expedition to the Pacific Mariss unveils the difficulties the traveling naturalists encountered while collecting describing classifying and painting the natural world Her study brings to light the contribution of the various actors who were involved in this undertaking such as the scientific assistants sailors officers and the local actors of the Pacific world
