Oman Politics And Development:

Oman Carol Riphenburg, 1998-02-18 The Sultanate of Oman overlooks one of the most strategic waterways in the Middle East the Strait of Hormuz Sharing the guardianship of the Strait with Iran Oman's position is of key importance to the security of the entire Gulf which holds a large portion of the world's oil resources In a 1970 palace coup Sultan Qaboos ibn Sa'id overthrew the repressive and reclusive rule of his father and embarked on a program of modernization Oman became one of the success stories of the developing world instituting a modern educational system creating a modern infrastructure becoming an oil exporter and constructing an elaborate social welfare system Today the country faces a host of challenges Oman cannot defend itself from hostile neighbors without assistance Restructuring Omani society and the economy present even greater difficulties Moreover change must occur at a time when Islamic movements pose a significant political threat and oil income is not sufficient to meet the country's social and economic needs Professor Riphenburg has provided a survey that will be invaluable to all students and researchers of the modern Middle East **Oman: Politics and Development** I.

Skeet, 1992-06-02 In 1970 Sultan Qaboos took over a country that had no social or economic infrastructure This book describes the process of political social and economic transformation that has turned it into a modern oil producing state which has gained both regional influence and international respect It also looks to the problems that Oman will face in the next decade as it aims to build on the successes of its first 20 years **Oman Under Qaboos** Calvin H. Allen, W. Lynn

Rigsbee II, 2014-01-14 This is an examination of the political economic and social development of Oman from the accession of Sultan Qaboos in a palace coup in 1970 to the promulgation of the basic law of 1996 The book argues that the sultanate does not follow the rentier model but the patriarchal tradition **Deconstructing 'Energy Security' in Oman** Lamya

Harub, 2022-10-25 This book makes a substantial and timely contribution to discussions on energy security in Oman providing a systematic analysis of energy security in Oman from 1920 to 2020 It is particularly relevant in light of the recent global geopolitics of the Gulf particularly and the Middle Eastern region broadly as well as connecting to current climate change research and debates Combining a political sociological account with postcolonial concepts within a theoretical and empirical exploration of energy politics the book weaves a study of energy security into the historical and contemporary development of political economic security and social structures in Oman Including interviews with Omani and Oman based practitioners as well as grounded in historical documents which include Arabic language sources this book evaluates the energy question beyond the typical economic perspective considering socio political opportunities and challenges It also makes economic related recommendations in tandem with rentier state theory Unlike the dominant accounts of energy security in Oman this book sets itself apart by moving away from utilising liberal and realist approaches for its analysis and engages systematically with critical security studies to introduce a non Eurocentric perspective to the arena Of interest to scholars in Middle Eastern history energy security and security studies this book assumes an important place in the critical literature on the Gulf

particularly within environmental studies and energy policy literature

Changing Rural

Systems In Oman Roderic W Dutton, 2013-01-11 First Published in 1999 Oman in the decades prior to the 1960s was largely isolated from the rest of the world and its changing economies and societies With a limited education little international links small health systems and government under the then Sultan Said bin Taimur Rural communities in northern Oman had very little contact with the Sultan s government which was based in the southern province of Dhofar In a world in which people in most countries including the Gulf States gained at least some benefit from modern education and health services Omani villagers and pastoralists had recourse only to Koranic schools and traditional healers On the other hand however they retained full responsibility for the management of their rural resources on which they depended for their livelihoods and for life itself and had evolved effective communal systems for their development and conservation These were exemplified by regulations governing the protection of trees and by the work of the committees which controlled the traditional falaj water supply network People worked interdependently responding to the contributions made by other members of the rural communities in a system of mutual self reliance They also lived in harmony with their environment in a manner which time had proven to be truly sustainable This volume looks at the changes that occurred after Sultan Qaboos came to power in 1970

political social and cultural history of that remarkable process Relying upon a wide range of untapped Arab and British archival and oral sources it revises the modern history of Oman by revealing the centrality of popular movements in shaping events and outcomes The ties that bound transnational anti colonial networks are explored and Dhufar is revealed to be an ideal vantage point from which to demonstrate the centrality of South South connections in modern Arab history

Women, Education and Development in the Arab Gulf Countries Ghada Hashem Talhami, 2004-04-28 Women s education only became an element of modernization when the Gulf countries experienced the oil revolution However these rulers launched a revolution of their own by developing modern social infrastructure mostly before independence Rulers in the region accepted the notion of women s education as a pre requisite for development and male elites wanted compatible educated partners However women s integration in the labor market was another matter The state had to contend with a common traditional culture which was opposed to the mixing of the sexes or the diversion of women s energies away from domestic and maternal duties Higher education which was normally offered on a co educational basis and sometimes meant study abroad provoked opposition With the exception of Saudi Arabia there are no legal barriers to integrating women in the economy on a large scale However there are cultural issues that work against women s employment like the lack of incentive to work in a welfare system The drive to end the dependence on foreign labor is often countered by the pro birth policies of countries Perhaps the greatest obstacle to advancing women s participation in the labor market has been their absence from advisory councils and parliaments Thus the world of political decision making still seems closed to women who must rely on the commitment and reformist zeal of some enlightened rulers The A to Z of the Gulf Arab States Malcolm C.

Peck, 2010-04-12 The A to Z of the Gulf Arab States comes at a time when the world s attention is riveted on the Middle East The small states covered in this volume Bahrain Kuwait Oman Qatar and the United Arab Emirates UAE possess about 20 percent of the world s total oil reserves Beyond the strategic and economic importance conferred upon them by their vast oil reserves the Gulf Arab states are worthy of attention for the inherent interest of their history and culture No area of the world has yielded more revealing and exciting archaeological finds in the past few decades than these states Investigations have brought to light extensive evidence of an important culture as old as Egypt of the Pharaohs or ancient Babylon which was virtually unknown previously except through rare references in the records of other civilizations The A to Z of the Gulf Arab States is a paperback reprint of the Historical Dictionary of the Gulf Arab States This edition covers the history of the five countries through a chronology broken down by country a list of acronyms and abbreviations an introductory essay a bibliography and several hundred cross referenced dictionary entries on important persons places and events of each country Everything from the Abbasids to Zubarah is covered in this essential reference on this increasingly important region of the world
