## **On Automorphisms Of Siegel Domains Lecture Notes In Mathematics Volume 286:**

**Collected Papers of Yozō Matsushima** Yozō Matsushima, 1992 In the past thirty years differential geometry has undergone an enormous change with infusion of topology Lie theory complex analysis algebraic geometry and partial differential equations Professor Matsushima played a leading role in this transformation by bringing new techniques of Lie groups and Lie algebras into the study of real and complex manifolds This volume is a collection of all the 46 papers written by him **Numerical Analysis** G.A. Watson, 2006-11-14 **Contemporary Geometry** Hung-Hsi Wu, 2013-06-29 Early one morning in April of 1987 the Chinese mathematician J Q Zhong died unexpectedly of a heart attack in New York He was then near the end of a one year visit in the United States When news of his death reached his Chinese American friends it was immediately decided by one and all that something should be done to preserve his memory The present volume is an outgrowth of this sentiment His friends in China have also established a Zhong Jia Qing Memorial Fund which has since twice awarded the Zhong Jia Qing prizes for Chinese mathematics graduate students It is hoped that at least part of the reasons for the esteem and affection in which he was held by all who knew him would come through in the succeeding pages of this volume The three survey chapters by Li and Treibergs Lu and Siu Chapters 1 3 all center around the areas of mathematics in which Zhong made noteworthy contributions In addition to putting Zhong's mathematical contributions in perspective these articles should be useful also to a large segment of the mathematical community together they give a coherent picture of a sizable portion of contemporary geometry The survey of Lu differs from the other two in that it gives a firsthand account of the work done in the People's Republic of China in several complex variables in the last four decades **Representations of Algebras** V. Dlab, P. Gabriel, 2006-11-14 **Proceedings of the American Mathematical Society** American Mathematical Society, 1979 Contains the material formerly published in even numbered issues of the Bulletin of the American Mathematical Society **Topics in K-Theory** L.H.
