On Being Human The Life Of Truth And Its Realization:

On Being human Fritz Medicus,1973 **On Being Human** Fritz Medicus,1973 Finding and Confirming Truth John Pletz,2010-05-10 Is truth a word we use only to affirm a statement or is it also something more In Finding and Confirming Truth John S Pletz explains that truth is more than mere affirmation It also is the conclusion reached when we have effectively confirmed that an assertion accurately depicts the facts that it describes Following a delineation of the major types of inferences used in confirming the truth of statements and the justifications for each of them Pletz discusses the process used in identifying and verifying factual truth That process includes the critical step of assessing the degree of certainty we have in a confirmed assertion which the author contends must be ascertained before we should conclude that any statement is true Finally Pletz employs this confirmation framework and process in seeking the truth of the concept of truth itself **Catalog of Copyright Entries. Mitias, 2025-09-05 How should I live How should I love How should I die These three questions stream into human
consciousness from the womb of a more urgent question What makes my life worth living or justifiable What if one stands at
the last frontier of their life and casts a look at the way they lived it Can they leave the world with a feeling of inner peace
and pride in the way they lived it The author of this book argues that a life worth living should originate from the depth of the
human essence from the power that makes us human How This question demands an urgent answer because first human life
is a thrust into the future which we cannot predict and second it is short Should we not care about the way we live since it is
the most valuable possession we have in this world How many people regret the way they lived when they reach the end of
their lives Should we not wonder why we exist and how we should live our lives An inquiry into his question is an inquiry into
the foundation of a life worth living What are the building blocks of this foundation The author further argues that living this
kind of life is an art He draws a parallel between artistic creation and self creation An authentic or fulfilled life is an art of
human living In what sense is the human being a self created being Under what conditions can one learn this art

Aristotle on Truth, Dialogue, Justice and Decision Liesbeth

Huppes-Cluysenaer, Nuno M.M.S. Coelho, 2023-12-27 In this thought provoking book you'll find timeless questions explored through a fresh lens First delving into the profound significance of Socrates dialogical method and the inescapable nature of conflict it ponders the rational capacities of humanity in terms of establishing harmonious communities But this isn't merely a philosophical debate it's a pragmatic exploration of real world challenges No longer limiting itself to abstract theories the book then seeks to navigate the practical terrain of science and politics Drawing inspiration from Aristotle renowned for his investigations into the intricate connections between theory technology ethics and politics it tackles the essential question

How can we reconcile divergent views At the book s core lies Aristotle s revolutionary concept of dialogue which portrays truth as a delicate equilibrium between opposing forces transcending the rigid boundaries of true and false Join this captivating journey as the author reveals the hidden paths to meaningful coexistence in a world filled with conflicting perspectives

Truth for Human Existence and Happiness Paul Sites,Danny Sites,2010-07-23 This book is a response to postmodernists who take the position that there is no foundation for truth there are only stories We posit two types of truth truth about existence created by scientists which serves as a foundation of truth for existence Truth about existence describes human nature a major component being the human sense of self Following George Herbert Mead the self is not an entity it is process It is not substantiative it is functional There are two phases to the self the I phase and the Me phase The I phase has its roots in biology so when the needs of the self are not being gratified individuals suffer When individuals suffer life is without meaning individuals despair It is human needs and their inherent tie to suffering that points the way to truth for human existence and happiness Because other people value what they need needs and their corresponding values serve as the foundation for truth about existence upon which truth for human existence is constructed
