On Charisma And Institution Building:

On Charisma and Institution Building Max Weber, 1968-12-15 This selection from Max Weber's writings presents his variegated work from one central focus: the relationship between charisma on the one hand and the process of institution building in the major fields of the social order such as politics, law, economy, and culture, and religion on the other. That the concept of charisma is crucially important for understanding the processes of institution building is implicit in Weber's own writings, and the explication of this relationship is perhaps the most important challenge which Weber's work poses for modern sociology. *Max Weber on Charisma and Institution Building* is a volume in *The Heritage of Sociology*, a series edited by Morris Janowitz. Other volumes deal with the writings of George Herbert Mead, William F. Ogburn, Louis Wirth, W. I. Thomas, Robert E. Park, and the Scottish Moralists, Adam Smith, David Hume, Adam Ferguson, and others. **Max Weber on**

Eisenstadt* Max Weber, 1968 *Max Weber* Alan Sica, The most profound and enduring social theorist of sociology's classical period, Max Weber speaks as cogently to concerns of the new century as he did to those of the past. In *Max Weber and the New Century*, Alan Sica demonstrated Weber's preeminent position and lasting vitality within social theory by applying his ideas to a broad range of topics of contemporary concern. *Max Weber: A Comprehensive Bibliography* is a companion volume that offers some 4,600 bibliographic listings of work on Weber, making it the most complete guide to the literature in English and a testament to the continued vitality of Weber's thought. Sica's work supersedes all previous bibliographical efforts covering the Weber literature, both in the quantity and accuracy of its references and the clarity and convenience of its format. In order to demonstrate the enormous variety of Weberiana in English, Sica has adopted a liberal criterion for inclusion rather than a critical one, choosing to mix the best with what may be more routine work. Following a preface in which previous bibliographies and bibliographic problems are discussed, the volume opens with a series of five specialized bibliographies. The first lists Weber's works in English translation. The second lists reviews of Weber's major works, including those translated into English, while the third covers reviews of recent books and other work on Weber. The fourth section contains a selection of dissertations and theses relating to Weber or his ideas. The fifth includes primary and secondary sources treating Weber on rationality and rationalization processes. The last and largest section offers a comprehensive Weber bibliography of works in English. This large-scale endeavor attempts to identify

with accuracy and completeness the entire universe of Weber scholarship in English It will be an essential scholarly tool for sociologists historians economists and students of cultural and intellectual history Alan Sica is professor of sociology and director of the Social Thought Program at Pennsylvania State University *Center Or Margin* Leed J.
