On Children And Death:

On Children and Death Elisabeth Kübler-Ross, 2011-07-26 On Children and Death is a major addition to the classic works of Elisabeth Kübler-Ross whose On Death and Dying and Living with Death and Dying have been continuing sources of strength and solace for tens of millions of devoted readers worldwide. Based on a decade of working with dying children, this compassionate book offers the families of dead and dying children the help and hope they need to survive. In warm, simple language, Dr. Kübler-Ross speaks directly to the fears, doubts, anger, confusion, and anguish of parents confronting the terminal illness or sudden death of a child.

What Do We Tell the Children? Joseph M. Primo, 2013-09-17 One out of seven children will lose a parent before they are 20. The statistics are sobering, but they are also a call for preparedness. However, pastors and counselors of all types are often at a loss when dealing with a grieving child. Talking to adults about death and grief is difficult; it's all the more challenging to talk to children and teens. The stakes are high: grieving children are at high risk for substance abuse, promiscuity, depression, isolation, and suicide. Yet despite this, most of these kids grow up to be normal or exceptional adults. But their chance to become healthy adults increases with the support of a loving community. Supporting grieving children requires intentionality, open communication, and patience. Rather than avoid all conversations on death or pretend like it never happened, normalizing grief and offering support requires us to be in tune with kids through dialogue as they grapple with questions of how and why. When listening to children in grief, we often have to embrace the mystery, offer love and compassion, and stick with the basics. The author says, "We don't have to answer the why and how for them, but we can assure our children that God is with us as we suffer. We can do so by doing good for others and pointing out all of those moments when someone has done something good for us." I believe that most of the time that's as far as we will get, and that is okay.

On Children and Death Elisabeth Kübler-Ross, 1993. After the Death of a Child Ann K. Finkbeiner, 2012-12-11 For a parent, losing a child is the most devastating event that can occur. Most books on the subject focus on grieving and recovery, but as most parents agree, there is no recovery from such a loss. This book examines the continued love parents feel for their child and the many poignant and ingenious ways they devise to preserve the bond. Through detailed profiles of parents, Ann Finkbeiner shows how new activities and changed relationships with their spouse, friends, and other children can all help parents preserve a bond with the lost child. Based on extensive interviews and grief research, Finkbeiner explains how parents have changed five to twenty-five years after the deaths of their children. The first half of the book discusses the short and long-term effects of the child's death on the parent's relationships with the outside world, that is, with their spouses, other children, friends, and relatives. The second half of the book details the effect on the parent's internal world: their continuing sense of guilt, their need to place the death in some larger context, and their inability, sometimes, to consistently do so. Their new set of priorities, the nature of their bond with the lost child, and the subtle and

creative ways they have of continuing that bond Finkbeiner's central point is not so much how parents grieve for their children but how they love them Refusing to fall back on pop jargon about recovery or to offer easy solutions or standardized timelines Finkbeiner's is a genuine and moving search to come to terms with loss Her complex profiles of parents resonate with the honesty and authenticity of uncomfortable emotions expressed and most importantly shared with others experiencing a similar loss Finally each profile exemplifies the many heroic ways parents learn to live with their pain and by so doing honor the lives their children should have lived
