

On China

Mabel Ping-hua Lee

On China:

On China Henry Kissinger, 2012-04-24 Fascinating shrewd The book deftly traces the rhythms and patterns of Chinese history Michiko Kakutani The New York Times No one can lay claim to so much influence on the shaping of foreign policy over the past 50 years as Henry Kissinger The Financial Times In this sweeping and insightful history Henry Kissinger turns for the first time at book length to a country he has known intimately for decades and whose modern relations with the West he helped shape On China illuminates the inner workings of Chinese diplomacy during such pivotal events as the initial encounters between China and tight line modern European powers the formation and breakdown of the Sino Soviet alliance the Korean War and Richard Nixon's historic trip to Beijing With a new final chapter on the emerging superpower's twenty first century role in global politics and economics On China provides historical perspective on Chinese foreign affairs from one of the premier statesmen of our time

Asian Thought on China's Changing International Relations Emilian Kavalski, 2014-08-05 At the end of the Cold War commentators were pondering how far Western ideas would spread today the debate seems to be how far Chinese ideas will reach This volume examines Chinese international relations thought and practices identifying the extent to which China's rise has provoked fresh geo strategic and intellectual shifts within Asia

Studies on China's Special Economic Zones 2 Yiming Yuan, 2019-09-20 The book provides an authoritative study on Special Economic Zones The scope of the articles will include new theories methods and discoveries in SEZ study and specifically provide recent achievements in Special Economic Zones The journal is aimed at economics undergraduates postgraduates economics researchers in social science institutions and the government Special Economic Zone mode provides an easy approach to complete modernization in developing countries like China the reader can get some important data source and major results in this area

Critical Reflections on China's Belt & Road Initiative Alan Chong, Quang Minh Pham, 2020-01-24 This book provides insights into China's Belt and Road Initiative BRI from Asia Pacific and the Middle East It offers critical perspectives from various directions not excluding historical investigations human geography approaches and neo Marxist inclinations China's Belt and Road Initiative BRI represents one of the biggest geopolitical visions since the Cold War and offers the possibilities of an intercontinental vision of Aid politics along with prospects for pan Asianism By and large any geopolitical vision that purports to foster inter regional dialogue and materialist development of peoples and economies is bound to have its flaws The Belt and Road Initiative bears hallmarks of the socio political tradition of Chinese authoritarian infrastructure politics while also offering a possible alternative to the so called Washington Consensus of free markets deregulation and a shift towards liberal democracy Additionally the Belt and Road Initiative opens up wide open intellectual spaces for dialogues between Asians Arabs and Westerners on the meaning of inclusive inter continental relationships in philosophy geography and economics The significance of this is often underplayed in Chinese official statements whereas this book introduces these possibilities within its assorted sections The book is about much more

than the material aspects of China's Belt and Road Initiative. In fact, various chapter authors use the Belt and Road to look at perhaps the most fundamental issue of our times: how does one build a global world order and societies that are inclusive, cohesive and capable of managing interests of all stakeholders as well as political, cultural, ethnic and religious differences in ways that all are recognized without prejudice and or discrimination. Prof James Dorsey S Rajaratnam, School of International Studies, Nanyang Technological University, Singapore. *World Trade Organization U.S. companies' views on China's implementation of its commitments.*, 2004. [An Essay on China's Development After the Demographic Golden Age](#) Xueyuan Tian, 2023-03-17. This book mainly addresses China's current demographic situation and social people related policies. It aims to solve the issues of demographic transition, population aging, population flow, urbanization, population quality etc. China is the first large population country with the vast territory and the huge economic system. It has many issues such as productivity and production relations, superstructure and economic base and domestic and international relations in various fields and at all levels. Hence China needs to come up with a set of overall strategies. The author sorts out all of his works in recent years and performs his new academic achievements on demographic issues and social governing strategies. This timely book offers new methods that impact advanced social development with real data. [Study on China's Industrial Competitiveness](#) Yanyun Zhao, 2023-03-06. This book builds an information platform on China's industrial competitiveness, providing scientific design and application case studies for integrated analysis and decision making facilities and mechanisms for enterprises, industries, financial institutions and governments which can make up for the lack of adequate information in China's market operations, especially the problems of duplicate construction and vicious competition aggravated by the lack of systematically processed industrial information. This book not only pursues innovation in technical methods and application theories but also pursues the collection, processing and collation of relevant domestic and international data and development and application so as to provide primary results for an industrial competitiveness database adapted to government management needs. The research is closely related to the actual problems in China and extensively uses statistical data to make various model analyses which has a relatively sizeable academic value. **Essays on China's Legal Tradition** Jerome Alan Cohen, Fu-mei Chang, Chen, R. Randle Edwards, 2017-03-14. In this volume of essays, a group of scholars from Europe, Japan, the Republic of China and the United States examines China's legal tradition to determine its importance for the study of both pre-modern China and of contemporary affairs. Originally published in 1981, The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Research on China's Public Finance Construction Index System Peiyong Gao, Bin Zhang, Ning Wang, 2017-10-09

This book employs a qualitative analysis of China's publicly financed construction sector taking the system design as its point of departure and applying comprehensive evaluation techniques to create an index system for this type of construction which in turn serves as a basis for quantitatively evaluating China's publicly financed construction sector. Given the fact that China's publicly financed construction sector is a very complex field of systems engineering involving multiple subsystems as an important indicator of China's fiscal innovations since its reform and opening, publicly financed construction is now shifting from theory to practice, demonstrating that China has entered an era of fully publicly financed construction.

The empirical analysis revealed that even though there was a fierce competition in the labour intensive manufacturing industry with most of the case study countries' exports. However, further disaggregation revealed otherwise. It also indicated that the establishment of the Special Preferential Tariffs Treatment (SPTT) by China since 2005 has contributed to the increasing number of exported commodities to the Chinese market. The effect is reflected in the increased export revenue of most of the least developed countries (LDCs) and a secured market for such countries' export products.
