**Building a National Literature** Peter Uwe Hohendahl, 1989 Building a National Literature boldly takes issue with traditional literary criticism for its failure to explain how literature as a body is created and shaped by institutional forces Peter Uwe Hohendahl approaches literary history by focusing on the material and ideological structures that determine the canonical status of writers and works He examines important elements in the making of a national literature including the political and literary public sphere the theory and practice of literary criticism and the emergence of academic criticism as literary history Hohendahl considers such key aspects of the process in Germany as the rise of liberalism and nationalism the delineation of the borders of German literature the idea of its history the understanding of its cultural function and the notion of a canon of major and minor authors

*The Theory of Criticism* Raman Selden, 2014-09-25 This book is divided into five parts and covers representation subjectivity form structure and system history and society morality class and ideology Each part contains several thematic sections in which extracts from different writers and periods are juxtaposed The study of literary theory has tended to concentrate on very recent developments This volume however establishes both a sense of the continuities from Plato to the present day as well as the discontinuities These are presented through comparisons and contrasts across the entire field of critical history

Interpretation in Political Theory Clement Fatovic, Sean Noah Walsh, 2016-09-13 Theorists interested in learning more about any given interpretive approach are often required to navigate a dizzying array of sources with no clear sense of where to begin The prose of many primary sources is often steeped in dense and technical argot that novices find intimidating or even impenetrable Interpretation in Political Theory provide students of political theory a single introductory reference guide to major approaches to interpretation available in the field today Comprehensive and clearly written the book includes A historical and theoretical overview that situates the practice of interpretation within the development of political theory in the twentieth century Chapters on Straussian esotericism historical approaches within the Cambridge School of interpretation materialist approaches associated with Marxism the

critical approaches associated with varieties of feminism Greimassian semiotics Foucaultian genealogy the negative dialectics of Theodor Adorno deconstruction as exemplified by Jacques Derrida and Paul de Man and Lacanian psychoanalysis An exposition of the theoretical and disciplinary background of each approach the tools and techniques of interpretation it uses its assumptions about what counts as a relevant text in political theory and what it considers to be the purpose or objective of reading in political theory A reading of Thomas Hobbes's Leviathan to illustrate how each approach can be applied in practice A list of suggestions for further reading that will guide those interested in pursuing more advanced study An invaluable textbook for advanced undergraduates graduate students and even seasoned scholars of political theory interested in learning more about different interpretive approaches
