On Doing Good:

KEEP ON DOING GOOD GODSWORD GODSWILL ONU,2015-03-27 It is one thing to do good and it is another thing to keep on doing good God does good and He keeps on doing good even to sinners and unbelievers For instance He sends His rain and sun to all both to the righteous and the unrighteous The Bible tells us to be imitators of God Eph 5 1 We are to imitate God in love and in doing good Sometimes due to people s reactions and attitudes to the good which we have done to them we are tempted to stop doing good to them But if God stops doing good to us because of ingratitude unbelief sin and unfaithfulness where would we be We are to do good and keep on doing good not because of people s gratitude but because we love them and are commanded by God to keep on doing good Let us not grow weary while doing good for in due season we shall reap if we do not lose heart Therefore as we have opportunity let us do good to all especially to those who are of the Household of Faith Gal 6 9 10 Doing Good Parenthood Anna Sparrman,Allan Westerling,Judith Lind,Karen Ida

Doing Good with Technologies: Katinka Waelbers,2011-06-27 20th century technologies like cars the Internet and the contraceptive pill have altered our actions changed our perceptions and influenced our moral ideas for better and worse Upcoming technologies are bound to fulfill their own unique social roles How can we advance this social role so that it will support the good live and limit undesired changes This book explores whether we can take a forward looking responsibility to optimize the social roles of technologies In doing so the book discusses three issues first it aims to understand the social role of technologies second it explores what it means to accept responsibility for this social role and third it searches for some forward looking tools that help us to see how new technologies may influence human behavior In a rather unique approach this book combines the influential sociological research of Bruno Latour on the social impacts of technologies with the contemporary Aristotelianism of Alasdair MacIntyre *Doing Good and Doing Well* Stephen A. Garrett,1999-09-30 Garret deals with the issue of humanitarian intervention of which the recent Kosovo conflict provides a prime example Even though the writing of this book was completed before NATO began its intervention on behalf of the Kosovars the book provides a valuable background for assessing the Kosovo issue it lays out the history of previous humanitarian interventions and analyzes the controversies surrounding them Garret provides a sophisticated framework by which such interventions can be evaluated both morally and pragmatically His book offers some particularly relevant material on the American role in humanitarian interventions This book is valuable for those who wish to make sense of the pros and cons of humanitarian efforts in international hot spots like Kosovo After an analysis of the legal and philosophical issues bearing on the idea of humanitarian intervention defined as the use of force by one or more states to remedy severe human rights abuses in a particular country this study focuses upon the moral duties that individual members of the international community have toward the welfare of others Recent events have indicated that humanitarian intervention will likely play a larger role in international relations in the future Examples in the contemporary period include Kosovo Somalia Liberia Haiti the Kurds in Iraq Uganda and East Pakistan This book emphasizes the role of the United States in humanitarian intervention and argues that increased American involvement is essential Garrett suggests that the American people as a whole may be more

prepared to see the United States take an active role in humanitarian intervention than are certain media and government elites Strong national leadership that stresses the moral duty of the United States will be necessary to tap this latent altruism in order to contribute to higher standards of international human rights Individual topics include assessment criteria for the moral legitimacy of intervention unilateral versus multilateral efforts and factors that appear to persuade or dissuade states from participating in such intervention This volume focuses on certain themes and patterns in humanitarian intervention which are then illustrated by using historical data taken from a variety of different examples *Doing Good Work Matters* William H Murphy, PhD, 2010-06 Most people spend at least eight hours a day at their job While some derive a strong sense of achievement and self worth many workers toil in frustration feeling underused and underappreciated In *Doing Good Work Matters* Dr William H Murphy examines common sense solutions to overcome the brick walls that prevent workers from taking pleasure in their jobs and provides workers with implementable bull s eye strategies to improve their working lives
