On Doing Less Harm Western European Alternatives To Incarceration:

On Doing Less Harm David Fogel, 1988 *On Doing Less Harm* David Fogel, 1988 Harm in American Penology Todd R. Clear, 1994-11-22 This book analyzes the sources and results of the fourfold increase in the U S correctional population since 1970 It considers the following themes the value of punitiveness defined as penal harm research on crime and criminals concerns about victims of crime and concerns about community safety It also analyzes the relationship between social problems and penal harm such as poverty and crime during the twenty year period of correctional expansion The author argues that a careful review of proposals for expanded penal harm cannot be justified The growth in corrections was not caused by crime nor has it reduced crime Clear describes a new strategy for corrections based on his examination of the politics of social control and the growth in penal harm **World Criminal Justice Systems** Richard J. Terrill, 2015-10-30 *World Criminal Justice Systems* Ninth Edition provides an understanding of major world criminal justice systems by discussing and comparing the systems of six of the world s countries each representative of a different type of legal system An additional chapter on Islamic law uses three examples to illustrate the range of practice within Sharia Political historical organizational procedural and critical issues confronting the justice systems are explained and analyzed Each chapter contains material on government police judiciary law corrections juvenile justice and other critical issues The ninth edition features an introduction directing students to the resources they need to understand comparative criminal justice theory and methodology The chapter on Russia includes consideration of the turmoil in post Soviet successor states and the final chapter on Islamic law examines the current status of criminal justice systems in the Middle East *The American Prison* Francis T. Cullen, Mary K. Stohr, 2014 For the first time in four decades prison populations are declining and politicians have reached the consensus that mass imprisonment is no longer sustainable At this unique moment in the history of corrections the opportunity has emerged to discuss in meaningful ways how best to shape efforts to control crime and to intervene effectively with offenders *The American Prison Imagining a Different Future* by Francis T Cullen Cheryl Lero Johnson and Mary K Stohr pulls together established correctional scholars to imagine what this prison future might entail Each scholar uses his or her expertise to craft in an accessible way for students to read a blueprint for how to create a new penology along a particular theme For example one contributor writes about how to use existing research expertise to create a prison that is therapeutic and another provides insight on how to create a feminist prison In the final chapter the editors pull together the lessons learned in a cohesive comprehensive essay The Politics Of Pain Ronald D Crelinsten, Alex Schmid, 2019-07-11 Although a wave of democratization appears to be sweeping the globe torture persists in more than seventy five nations Despite widespread condemnation of torture and the efforts of international and nongovernmental organizations to end it the politics of pain continues in a broad range of social and political systems This book is one of the first to systematically examine the psychological cultural and social origins of torture It provides profiles of torturers and of those who direct them

in their brutal activities The contributors provide case studies from the past and present including Somoza's National Guard in Nicaragua and regimes in the Southern Cone of Latin America and in Greece **Correctional Ethics** John

Kleinig, 2017-07-05 Correctional Ethics gathers the most prominent contributions to this burgeoning field ranging from the philosophy of punishment through to ethical appraisals of incarceration the professional responsibilities of prison personnel and formative work in restorative justice In addition it provides an annotated research agenda to help shape the development of a comprehensive correctional ethic For those working in correctional ethics this collection provides an essential resource
