## On Education And Values:

*Values in Education* Graham Haydon, 2007-02-15 What are the fundamental aims and values underlying education What values should education try to promote in a world of value pluralism What is morality and should schools teach it In a secular society how should schools treat the links between morality and religion How should values enter into professional education and educational leadership This book an updated edition of *Teaching about Values* will help the reader to think about these questions and many others concerning values in education Drawing on philosophy without assuming knowledge of the subject it is for teachers students of education and anyone who recognises the importance of values in education **Global Perspectives on Value Education in Primary School** Demircioğlu, Aytakin, 2023-08-18 *Global Perspectives on Value Education in Primary School* is a comprehensive book edited by a renowned philosophy scholar from Kastamonu University Faculty of Humanities and Social Sciences In this book readers will find a comprehensive account of how value education can be effectively delivered in primary schools worldwide It presents an extensive collection of case studies and examples of values education from different countries and cultures and examines the criteria for selecting and differentiating values that are suitable for primary school level and the methods and approaches for effectively teaching those values By comparing different approaches and experiences the book provides valuable insights into the challenges and opportunities for value education in primary schools This book is highly recommended for anyone interested in values education including academic scholars researchers teachers university students and parents With its rich and diverse range of perspectives and examples it provides a compelling argument for the importance of values education in our time Its persuasive problem and solution approach makes *Global Perspectives on Value Education in Primary School* an essential addition to the literature on education and philosophy *Values Education and Quality Teaching* Terence Lovat, Ron Toomey, 2009-04-07 Some revision of public schooling history is necessary to challenge the dominant mythology that public schools were established on the grounds of values neutrality In fact those responsible for the foundations of public education in Australia were sufficiently pragmatic to know that its success relied on its charter being in accord with public sentiment Part of the pragmatism was in convincing those whose main experience of education had been through some form of church based education that state based education was capable of meeting the same ends Hence the documents of the 1870s and 1880s that contained the charters of the various state and territory systems witness to a breadth of vision about the scope of education Beyond the standard goals of literacy and numeracy education was said to be capable of assuring personal morality for each individual and a suitable citizenry for the soon to be new nation As an instance the NSW Public Instruction Act of 1880 cf NSW 1912 under the rubric of religious teaching stressed the need for students to be inculcated into the values of their society including understanding the role that religious values had played in forming that society's legal codes and social ethics The notion therefore that public education is part of a deep and ancient heritage around values neutrality is mistaken and in need of se

ous revision The evidence suggests that public education s initial conception was of being the complete educator not only of young people s minds but of their inner character as well      *Values Education in Schools* Mark Freakley,Gilbert Burgh,Lyne Tilt MacSporran,2008 *Values Education in Schools* is an important resource for teachers involved in values and ethics education It provides a range of practical philosophy resources for secondary school teachers that can be used in English religious education citizenship personal development and social science subjects The materials include narratives to engage students in philosophical inquiry encouraging doing ethics through the activity of philosophy not simply just learning about it

Travels she was approached by many eminent scholars to compile a book based on the teachings of all the religions of the world. It was a Herculean task but the efforts were worth the trouble. In the month of January 2001 she started approaching the eminent Scholars and religious heads to write chapters of the book. The most eminent scholars in Hinduism Jainism Arya Samaj Islam Christianity Zoroastrianism Sikhism Bhai's faith and so on were contacted. Almost hundred reminders to each were sent. At one stage it gave the feelings that it was an impossible task but the tenacity of Dr Promilla Kapur kept her on the track. By January of 2004 the chapters started arriving. All the religious leaders and eminent scholars gave the word of wisdom on all the religions of the world. It was heartening to read that not a single chapter writer differed from the positive image of each religion. The preaching was almost identical. Love affection caring and sharing Forgiveness tolerance and compassion for the entire human beings were the common theme revealed in all the papers. The book is the need of the hour and will earn its proper place in the human society all over the world. Report of the Departmental Committee on
