**On Final Approach** Byrd H. Granger, 1991 **Air & Space Power Journal** sum 03 , *Nancy Love and the WASP Ferry Pilots of World War II* Sarah Byrn Rickman, 2008 When the United States entered World War II the Army needed pilots to transport or ferry its combat bound aircraft across the United States for overseas deployment and its trainer airplanes to flight training bases Male pilots were in short supply so into this vacuum stepped Nancy Love and her Women s Auxiliary Ferrying Squadron WAFS Initially the Army implemented both the WAFS program and Jacqueline Cochran s more ambitious plan to train women to do many of the military s flight related jobs stateside By 1943 General Hap Arnold decided to combine the women s programs and formed the Women Airforce Service Pilots WASP with Cochran as the Director of Women Pilots Love was named the Executive for WASP Women Military Pilots of World War II Lois K. Merry, 2014-01-10 More than 2000 women in the United States Great Britain and the Soviet Union flew military airplanes in organized units during World War II yet their stories are largely unknown These pilots ferried aircraft flew targets for ground artillery practice tested airplanes and equipment and many of them flew in combat The women pilots proved that they could manage bombers and fighters as well as their male counterparts and several later remarked that the airplanes didn t care who flew them Topics covered include the training of female pilots how female flight units were developed and structured the hazards of conflict and how these women reintegrated into civilian life following the war **United States Air Force and Its Antecedents** James T. Controvich, Martin Gordon, 2004-06-24 This bibliography lists published and printed unit histories for the United States Air Force and Its Antecedents including Air Divisions Wings Groups Squadrons Aviation Engineers and the Women s Army Corps *Women in the United States Military* Judith Bellafaire, 2011-01-26 Women s participation in the U S Armed Forces has grown over time in response to the national need for their services Throughout each era of American history patriotic women volunteered to serve their country in a wide variety of official and unofficially sanctioned capacities When there was a call to duty the United States Armed Forces always relied upon women to be a part of the effort This book provides information to enable students and scholars to understand the effect women have had on wars that have shaped the United States **Clipped Wings** Molly Merryman, 2020-09-15 This excellent study shines a light on America s pioneering women aviators and their forgotten contributions during WWII American Historical Review During the Second World War the Women Airforce Service Pilots WASP program was unique among women s auxiliaries It was made up entirely of women who undertook dangerous missions more commonly associated with men WASPs challenged the myth of male supremacy by flying the fastest fighter planes and heaviest bombers They even test piloted experimental models and developed weapons systems In *Clipped Wings* Molly Merryman draws upon declassified military documents congressional records and interviews with WASP veterans to tell the story of these extraordinary women She examines the social pressures that culminated in their disbandment in 1944 even though their services were still needed And she documents their struggles to gain military status

and receive veterans benefits which they finally did in 1977 In the preface to this reissued edition Merryman reflects on more recent changes in women s aviation as NASA s new Artemis program promises to land the first female astronaut on the moon Updating the story of the WASPs Merryman reveals that their fight for recognition continues even today Gender and the Second World War Corinna Peniston-Bird, Emma Vickers, 2017-09-16 Showing how gender history contributes to existing understandings of the Second World War this book offers detail and context on the national and transnational experiences of men and women during the war Following a general introduction the essays shed new light on the field and illustrate methods of working with a wide range of primary sources The Women with Silver Wings Katherine Sharp Landdeck, 2021-03-30 With the fate of the free world hanging in the balance women pilots went aloft to serve their nation A soaring tale in which at long last these daring World War II pilots gain the credit they deserve Liza Mundy New York Times bestselling author of Code Girls A powerful story of reinvention community and ingenuity born out of global upheaval Newsday When the Japanese attacked Pearl Harbor in December 1941 Cornelia Fort was already in the air At twenty two Fort had escaped Nashville s debutante scene for a fresh start as a flight instructor in Hawaii She and her student were in the middle of their lesson when the bombs began to fall and they barely made it back to ground that morning Still when the U S Army Air Forces put out a call for women pilots to aid the war effort Fort was one of the first to respond She became one of just over 1 100 women from across the nation to make it through the Army s rigorous selection process and earn her silver wings The brainchild of trailblazing pilots Nancy Love and Jacqueline Cochran the Women Airforce Service Pilots WASP gave women like Fort a chance to serve their country and to prove that women aviators were just as skilled as men While not authorized to serve in combat the WASP helped train male pilots for service abroad and ferried bombers and pursuits across the country Thirty eight WASP would not survive the war But even taking into account these tragic losses Love and Cochran s social experiment seemed to be a resounding success until with the tides of war turning Congress clipped the women s wings The program was disbanded the women sent home But the bonds they d forged never failed and over the next few decades they came together to fight for recognition as the military veterans they were and for their place in history

*Flying for Her Country* Amy Goodpaster Strebe, 2007-08-30 During the Second World War women pilots were given the opportunity to fly military aircraft for the first time In the United States famed aviatrix Jacqueline Cochran formed the Women Airforce Service Pilots program where over one thousand women flyers ferried aircraft from factories to airbases throughout the United States and Canada from 1942 to 1944 The WASP operated from 110 facilities and flew more than 60 million miles in 78 different types of aircraft from the smallest trainers to the fastest fighters and the largest bombers The WASP performed every duty inside the cockpit as their male counterparts except combat and 38 women pilots gave their lives in the service of their country Notwithstanding their outward appearance as official members of the U S Army Air Forces the WASP were considered civil servants during the war Despite a highly publicized attempt to militarize in 1944 the women pilots would not be granted veteran status until 1977 In the Soviet Union Marina Raskova Russia's Amelia Earhart famous for her historic Far East flight in 1938 formed the USSR's first all female aviation regiments that flew combat missions along the Eastern Front A little over one thousand women flew a combined total of more than 30 thousand combat sorties producing at least 30 Heroes of the Soviet Union Included in their ranks were at least two fighter aces More than 50 women pilots were killed in action Sharing both patriotism and a mutual love of aviation these pioneering women flyers faced similar obstacles while challenging assumptions of male supremacy in wartime culture Despite experiencing discrimination from male aircrews during the war these intrepid airwomen ultimately earned their respect The pilots exploits and their courageous story told so convincingly here continue to inspire future generations of women in aviation **WLA** ,2003

**Jacqueline Cochran** Rhonda Smith-Daugherty, 2015-03-10 Although Amelia Earhart remains the best known female pilot of the 1930s Jacqueline Cochran stood as the more important aviation pioneer and America's top woman pilot Among her many accomplishments Cochran was the first female aviator to win the Bendix Air Race to fly a bomber to break the speed of sound and to participate in astronaut training This revealing biography explores Cochran's childhood in an impoverished

Florida mill town her early career as a pilot and her role in creating and leading the WASPs during World War II It also chronicles her postwar exploits including her participation in the NASA space program her unsuccessful 1956 bid for Congress and her surprising reluctance to crusade for the advancement of women This detailed profile removing Cochran from Earhart's shadow firmly establishes the aviatrix as a pivotal figure in the history of women in aviation and in war

Sisters in Arms Helena Page Schrader, 2006-05-30 During World War II a few carefully selected women in the US and the UK were briefly given the unprecedented opportunity to fly military aircraft Yet the story of these pioneer women pilots is made even more intriguing by the fact that despite many notable similarities in the utilisation and organisation of the women in their respective countries they experienced radically different fates Throughout the war the contribution of the women of the British ATA to the war effort was recognized and praised both from official quarters and in the press By contrast the American WASPs were first glamorized and made into Hollywood stars and then subjected to a slander campaign What accounts for this dramatic difference in the treatment of women pilots doing essentially the same job This book seeks to answer these questions The women who participated in the ATA and WASP have been allowed to speak for themselves The story these women have to tell is exciting and intriguing
