**On Kissing, Tickling, and Being Bored** Adam Phillips, 1998-07-15 Psychotherapist Adam Phillips focuses on a variety of subjects rarely investigated by psychoanalysis such things as kissing worrying risk and solitude Phillips rejects the common notion that only the examined life is worth living asserting that one's psychic health depends on establishing a realm of life that successfully resists interpretation

**On Boredom** Rye Dag Holmboe, Susan Morris, 2021-04-22 What do we mean when we say that we are bored Or when we find a subject boring Contributors to On Boredom Essays in art and writing which include artists art historians psychoanalysts and a novelist examine boredom in its manifold and uncertain reality Each part of the book takes up a crucial moment in the history of boredom and presents it in a new light taking the reader from the trials of the consulting room to the experience of hysteria in the nineteenth century The book pays particular attention to boredom's relationship with the sudden and rapid advances in technology that have occurred in recent decades specifically technologies of communication surveillance and automation On Boredom is idiosyncratic for its combination of image and text and the artworks included in its pages by Mathew Hale Martin Creed and Susan Morris help turn this volume into a material expression of boredom itself With other contributions from Josh Cohen Briony Fer Anouchka Grose Rye Dag Holmboe Margaret Iversen Tom McCarthy and Michael Newman the book will appeal to readers in the fields of art history literature cultural studies and visual culture from undergraduate students to professional artists working in new media

**Applied Logotherapy** Stephen J. Costello, 2019-03-29 This book is a seminal contribution to applied and clinical logotherapy and existential analysis from a philosopher who is also a practitioner It covers twelve essential topics and themes drawing on Dr Viktor Frankl's Viennese School of philosophical psychology from therapeutic techniques such as dereflection paradoxical intention and Socratic dialogue to the mass neurotic triad of aggression addiction and depression It also discusses the cultural malaise of anger anxiety and boredom and the theory and therapy of mental disorders such as neuroses and psychoses criminality and suicidality This unique publication which is both theoretical and practical is intended primarily for psychotherapists philosophers psychologists and psychiatrists but will also appeal to parents teachers students and indeed anyone who wishes to live a life of meaning and mental health

**Reading Boyishly** Carol Mavor, 2007 Study of nostalgic representations of the maternal the home and childhood in the literature and photographs of early 20th century artists

**Imperial Boredom** Jeffrey A. Auerbach, 2018-10-03 Imperial Boredom offers a radical reconsideration of the British Empire during its heyday in the nineteenth century Challenging the long established view that the empire was about adventure and excitement with heroic men and intrepid women eagerly spreading commerce and civilization around the globe this thoroughly researched engagingly written and lavishly illustrated account suggests instead that boredom was central to the experience of empire Combining individual stories of pain and perseverance with broader analysis Professor Auerbach considers what it was actually like to sail to Australia to serve as a soldier in South Africa or to accompany a

colonial official to the hill stations of India He reveals that for numerous men and women from explorers to governors tourists to settlers the Victorian Empire was dull and disappointing Drawing on diaries letters memoirs and travelogues Imperial Boredom demonstrates that all across the empire men and women found the landscapes monotonous the physical and psychological distance from home debilitating the routines of everyday life wearisome and their work tedious and unfulfilling The empire's early years may have been about wonder and marvel but the Victorian Empire was a far less exciting project Many books about the British Empire focus on what happened this book concentrates on how people felt The Anatomy of Boredom Andreas Elpidorou, 2025-06-25 Boredom is a common human experience It may strike us as straightforward a mere absence or lack an emotional emptiness of sorts yet it is anything but simple It is complicated personal and social biological and cultural both ever changing and constant It can spur action both productive and harmful It affects us differently based on our social identity and standing Boredom is both a mirror of the complexities of human existence and a cause of them In The Anatomy of Boredom Andreas Elpidorou offers a groundbreaking examination of this ubiquitous yet enigmatic dimension of human existence illuminating its profound influence on our personal and social lives Through interdisciplinary analysis careful argumentation and captivating insights Elpidorou presents a functional theory of boredom which understands and individuates boredom in terms of its role in our mental behavioral and social existence This theory provides a compelling synthesis of existing research connects the present of boredom to its history and allows us to apply our knowledge of boredom to relatively unexplored domains such as its relationship to the good life self regulation and self control poverty and capitalism advancements in AI animal emotions and even aesthetics and art appreciation Ultimately the study of boredom is revealed to be more than just an analysis of an intricate and important affective experience it is also shown to be an insightful investigation into the complexities of human and even non human existence Towards a General Theory of Boredom Elina Tochilnikova, 2020-10-07 Through comparative historical research this book offers a novel theory explaining the emergence of boredom in modernity Presenting a Durkheimian topology of cross cultural boredom it grounds the sociological cause of boredom in anomie and the perception of time compares its development through case studies in Anglo and Russian society and explains its minimal presence outside of the West By way of illustrative examples it includes archetypes of boredom in literature art film and music with a focus on the death of traditional art and boredom in politics including strategies enacted by Queer intellectuals The author argues that boredom often results from the absence of a strong commitment to engaging with society and extends Durkheim's theory of suicide to boredom in order to consider whether an imbalance between social regulation and integration results in boredom The first book to scientifically explain the historical emergence and epidemic of boredom while engaging with cutting edge political debates Towards a General Theory of Boredom will appeal to scholars across the social sciences with interests in social theory social psychology and sociology

**Social Media and Your Brain** C.G. Prado, 2016-11-21 While society has widely condemned the effects on preteens and

teens natural social maturation of digitally enabled communication such as texting and messaging and of social media apps such as Facebook Instagram and SnapChat these forms of communication are adversely affecting everyone including adults This book examines how social media and modern communication methods are isolating users socially jeopardizing their intellectual habits and as a result decreasing their chances of achieving social and professional success The ubiquitous use of the Internet and social media is changing our society in some ways for the worse Use of social media the Internet and other purely digital and less personal communication methods are distorting the intellectual and social maturation of teens and preteens in particular those among us who were born into and raised with Internet technology People s ability to read facial expressions interpret subtle differences in spoken intonation and perceive body language is in significant decline due to the use of social media and the Internet largely replacing direct face to face contact with other human beings This book documents how changes in our daily behavior caused by the proliferation of social media are reshaping individuals personalities and causing an evolution of the character of our society as a whole Readers will understand how these important changes came about and how more connectivity all too often leads to more ignorance and less comprehension and will consider solutions that could counter the negative effects of being too connected too often

**The Gift of Beauty and the Passion of Being** William Desmond, 2018-07-06 This book gathers a set of reflections on the gift of beauty and the passion of being There is something surprising about beauty that we receive and that moves the passion of being in us The book takes issue with an ambiguous attitude to beauty among some who proclaim their advanced aesthetic authenticity Beauty seems bland and lacks the more visceral thrill of the ugly indeed the excremental We crave what disrupts and provokes us not what gives delight or even consoles By contrast attention is given to how beauty arouses enigmatic joy in us and we enjoy an elemental rapport with it as other Surprised by beauty our breath is taken away but we are more truly there with the beautiful when we are taken outside of ourselves We are first receivers of the gift of surprise and only then perceivers and conceivers My attention to the passion of being stresses a patience a receptivity to what is other What happens is not first our construction There is something given something awakening something delighting something energizing something of invitation to transcendence The theme is amplified in diverse reflections on life and its transient beauty on soul music and its relation to self on the shine on things given in creation on beauty and Schopenhauer s dark origin on creativity and the dynamis in Paul Weiss s creative ventures on redemption in Romanticism in the thought of Stanley Cavell on theater as a between or metaxu on redeeming laughter and its connection with the passion of being

Essays on Boredom and Modernity Barbara Dalle Pezze, Carlo Salzani, 2009 The past thirty years saw a growing academic interest in the phenomenon of boredom If initially the analyses were mostly a historical now the historicity of boredom is widely recognised though often it is taken as evidence of its permanence as a constant quality of the human condition expression of a metaphysical malady inherent to the fact of being human New trends in the literature focus on the peculiar

relationship between boredom and modernity and attempt to embrace the new social cultural and political factors which provoked the epochal change of modernity and relate them to a change in the parameters of human experience and the crisis of subjectivity The very changes that characterise modernity are the same that led to the democratisation of boredom modernity and boredom are shown to be inextricably connected and inseparable This volume aims at contributing to the growing body of literature on boredom with a number of essays which reflect on the connection of boredom and modernity and focus on particular texts authors or aspects of the phenomenon The approach is multidisciplinary in keeping with the pervasiveness of the phenomenon in our culture and societies with essays reflecting on philosophy literature film media and psychology

Modernism, Feminism and the Culture of Boredom Allison Pease, 2012-08-27 Bored women populate many of the most celebrated works of British modernist literature Whether in popular offerings such as Robert Hitchens's *The Garden of Allah* the esteemed middlebrow novels of May Sinclair or H G Wells or now canonized works such as Virginia Woolf's *The Voyage Out* women's boredom frequently serves as narrative impetus antagonist and climax In this book Allison Pease explains how the changing meaning of boredom reshapes our understanding of modernist narrative techniques feminism's struggle to define women as individuals and male modernists' preoccupation with female sexuality To this end Pease characterizes boredom as an important category of critique against the constraints of women's lives arguing that such critique surfaces in modernist fiction in an undeniably gendered way Engaging with a wide variety of well and lesser known modernist writers Pease's study will appeal especially to researchers and graduates in modernist studies and British literature

Disease and Death in Eighteenth-Century Literature and Culture Allan Ingram, Leigh Wetherall Dickson, 2017-02-23 This collection examines different aspects of attitudes towards disease and death in writing of the long eighteenth century Taking three conditions as examples ennui sexual diseases and infectious diseases as well as death itself contributors explore the ways in which writing of the period placed them within a borderland between fashionability and unfashionability relating them to current social fashions and trends These essays also look at ways in which diseases were fashioned into bearing cultural moral religious and even political meaning Works of literature are used as evidence but also medical writings personal correspondence and diaries Diseases or conditions subject to scrutiny include syphilis male impotence plague smallpox and consumption Death finally is looked at both in terms of writers constructing meanings within death and of the fashioning of posthumous reputation

*What Time Is It?* Emre Baykal, Eda Berkmen, Süreyya Evren, 2019-09-01 Arter initiates a new publication series Arter Background to accompany group exhibitions drawn from its collection which holds more than 1 300 works of art as of 2019 This first book of the series accompanies one of the opening exhibitions of Arter's new building a collection based group exhibition entitled *What Time Is It* Curated by Emre Baykal and Eda Berkmen the exhibition is conceived around the concepts of memory space and time In the book excerpts of texts selected around the ideas active in the curatorial process are complemented by new essays written specifically for this

context in line with Arter's mission of encouraging artistic and cultural production. It thus features texts on themes associated with houses, everyday objects, personal and collective histories, inside and outside urban rhythms, architecture, archaeology, borders and migration, and includes commissioned essays by Erdem Ceylan, Deniz G. I. G. Khan, Kodalak and Nil Sakman. While close-up visual excerpts taken from the art works are cited side by side with the texts, the installation views from the exhibition assume their places as the first entries into the memory of Arter's new space. With contributions by Etel Adnan, Guillaume Apollinaire, Marc Augé, Ingeborg Bachmann, Matsuo Bashō, Joe Brainard, Sevim Burak, Erdem Ceylan, Boubacar Boris Diop, Harun Farocki, Hans Ulrich Gumbrecht, Deniz G. I. Nurdan, G. Rbilek, Christopher F. Hasty, Eric Hattin, Stephen Hawking, Zbigniew Herbert, Cem İleri, G. Khan, Kodalak, Milan Kundera, Henri Lefebvre, Édouard Levé, Agustín Fernández Mallo, Jonas Mekas, Georges Perec, Fernando Pessoa, Marcel Proust, Rodrigo Quirán, Quiroga, Rainer Maria Rilke, Yannis Ritsos, Nil Sakman, Bruno Schulz, W. G. Sebald, Susan Sontag, Wallace Stevens, Stefan Zweig.

**The Accidental Apostrophe** Caroline Taggart, 2017-10-19 Sunday Times bestselling author Caroline Taggart brings her usual gently humorous approach to punctuation, pointing out what really matters and what doesn't.

**Making Words Sing** Jonathan Dunsby, 2004-06-10 What makes a classical song a song? In a wide-ranging 2004 discussion covering such contrasting composers as Brahms and Berberian, Schubert and Kurt Gödel, Jonathan Dunsby considers the nature of vocalicity in songs of the nineteenth and twentieth centuries. The essence and scope of poetic and literary meaning in the Lied tradition is subjected to close scrutiny against the backdrop of new musicological thinking and music theoretical orthodoxies. The reader is thus offered the best insights available within an evidence-based approach to musical discourse. Schoenberg figures conspicuously as both songsmith and theorist, and some easily comprehensible Schenkerian approaches are used to convey ideas of musical time and expressive focus. In this work of scholarship and theoretical depth, Professor Dunsby's highly original approach and engaging style will ensure its appeal to all practising musicians and students of Romantic and modern music.

Wish I Were Here Mark Kingwell, 2019-04-08 Are you bored of the endless scroll of your social media feed? Do you swipe left before considering the human being whose face you just summarily rejected? Do you skim articles on your screen in search of intellectual stimulation that never arrives? If so, this book is the philosophical lifeline you have been waiting for. Offering a timely meditation on the profound effects of constant immersion in technology, also known as the Interface, *Wish I Were Here* draws on philosophical analysis of boredom and happiness to examine the pressing issues of screen addiction and the lure of online outrage. Without moralizing, Mark Kingwell takes seriously the possibility that current conditions of life and connection are creating hollowed-out human selves divorced from their own external world. While scrolling, swiping and clicking suggest purposeful action, such as choosing and connecting with others, Kingwell argues that repeated flicks of the finger provide merely the shadow of meaning by reducing us to scattered data fragments: Twitter feeds, Instagram posts, shopping preferences and text trends captured by algorithms. Written in accessible language that references both classical philosophers and contemporary critics,

Wish I Were Here turns to philosophy for a cure to the widespread unease that something is amiss in modern waking life
