On Love And Barley Haiku Of Basho:

On Love and Barley Lucien Stryk,1986-01-01 In a thoughtful and perceptive introduction Stryk sets the stage for an appreciation of what Basho's poetry has to offer sketching his life his times his spirit For most of his life Basho was a recluse He lived on the outskirts of Edo Tokyo in a hut shaded by an exotic banana tree the Basho When he traveled he relied entirely on the hospitality of temples and fellow poets His poems were strongly influenced by the Zen sect of Buddhism and its ideals of lightness detachment and appreciation of the commonplace Basho aspired to and achieved unity of life and art his poems become inseparable from nature

On Love and Barley Matsuo Basho,1985-08-29 Basho one of the greatest of Japanese poets and the master of haiku was also a Buddhist monk and a life long traveller His poems combine karumi or lightness of touch with the Zen ideal of oneness with creation Each poem evokes the natural world the cherry blossom the leaping frog the summer moon or the winter snow suggesting the smallness of human life in comparison to the vastness and drama of nature Basho himself enjoyed solitude and a life free from possessions and his haiku are the work of an observant eye and a meditative mind uncluttered by materialism and alive to the beauty of the world around him

understanding of cultural values and human relationships can enhance the student's mastery of language skills. A new approach to language learning is used throughout the revised edition. The new sociolinguistic approach which encourages the generation of discourse is integrated with the original pattern approach which encourages the generation of sentences. Many components of the first edition such as Sentence Patterns, Grammar Notes and Reviews have been revised and or rearranged. The result is a clearer, more natural and more functional presentation of the Japanese language. The four volumes of Learn Japanese New College Text were prepared by the Asian Division of the University of Maryland University College and are published by the University of Hawaii Press.

Since Beckett Peter Boxall, 2011-11-03 Samuel Beckett is widely regarded as the last modernist, the writer in whose work the aesthetic principles which drove the modernist project dwindled and were finally exhausted. And yet despite this it is striking that many of the most important contemporary writers across the world see their work as emerging from a Beckettian legacy. So whilst Beckett belongs in one sense to the end of the modernist period, in another sense he is the well spring from which the contemporary in a wide array of guises can be seen to emerge. Since Beckett looks at a number of writers in different national and political contexts, tracing the way in which Beckett's writing inhabits the contemporary while at the same time reading back through Beckett to the modernist and proto-modernist forms he inherited. In reading Beckett against the contemporary in this way, Peter Boxall offers both a compelling re-reading of Beckett and a powerful new analysis of contemporary culture.

Behavioural Oncology Marisa Cordella, Aldo Poiani, 2014-07-08 Medical, educational and public health efforts have reduced the spread of many major diseases, yet cancer perseveres in spite of continuing research and improvements in practice. Especially promising among therapeutic strategies are ones that recognise patients as individuals with thoughts, feelings and speech. Rooted in deep understanding of the mutual relationship between behavior and cancer, Behavioural Oncology combines extensive clinical wisdom and empirical data to illuminate the psychological, social and existential aspects of cancer and to offer a framework for empathic, patient-centered care. Chapters delve into the psychobiology of long-term illness, examining stress, pain, fatigue, sensory and sleep disturbances and other quality of life issues, as well as considerations of age, gender, culture and comorbidity. The book's emphasis on linguistic and communicative aspects of cancer and practical skills, from respecting patient narratives to delivering bad news, adds necessary depth to concepts of the therapeutic relationship. In this way, the authors warn about overmedicalizing cases to the point of losing patient identity. Major areas of the coverage include Biology and behavior in cancer prevention and suppression; The psychology of cancer patients' emotions, cognition and personality; Social dimensions including stigma, coping and social support; Language communication and cross-cultural issues; Existential, spiritual and end-of-life concerns; Doctor-patient relationships; The psychological benefits of complementary therapies; Bringing new scope and substance to familiar mind-body constructs. Behavioural Oncology is a definitive reference for a spectrum of healthcare professionals, among them health and clinical psychologists, oncologists and family physicians, oncology nurses and clinical

social workers Its discussion questions and summaries make it a suitable text for undergraduate and graduate courses in related topics
