## **On My Honour Guides Scouts In Interwar:**

*On My Honour* Tammy M. Proctor, 2002 Arising in the first decades of the twentieth century the Boy Scout and Girl Guide movements came into existence in Britain in an era of social and political unrest and were initially the center of intense controversy Through the years Guiding and Scouting broke down class race and gender distinctions and helped youth cope with an emerging mass culture and allowed boys and girls to stretch gender and generational boundaries Using official documents logbooks diaries and oral histories Tammy Proctor explores the formation of the Scouts and Guides and their transformation during and after World War I The interwar period marked a departure for the two organizations as they emerged as large multinational organizations that targeted not only adolescents but also smaller children and young adults

across the humanities and social sciences and is also relevant to those teaching and studying in the fields of child development education and youth and community studies

**Guiding Modern Girls** Kristine Alexander, 2017-11-15 Across the British Empire and the world the 1920s and 1930s were a time of unprecedented social and cultural change Girls and young women were at the heart of many of these shifts which included the aftermath of the First World War the enfranchisement of women and the rise of the flapper or Modern Girl Out of this milieu the Girl Guide movement emerged as a response to popular concerns about age gender race class and social instability The British based Guide movement attracted more than a million members in over forty countries during the interwar years Its success however was neither simple nor straightforward Using an innovative multi sited approach Kristine Alexander digs deeper to analyze the ways in which Guiding sought to mold young people in England Canada and India She weaves together a fascinating account that connects the histories of girlhood internationalism and empire while asking how girls and young women understood and responded to Guiding s attempts to lead them toward a service oriented useful feminine future

**Muslim Spaces of Hope** Richard Phillips, 2013-07-04 Debates about contemporary Islam and Muslims in the West have taken some negative turns in the depressing atmosphere of the war on terror and its aftermath This book argues that we have been too preoccupied with problems not enough with solutions The increased mobilisation and scrutiny of Muslim identities has taken place in the context of a more general recasting of racial ideas and racism a shift from overtly racial to ostensibly ethnic and cultural including religious categories within discourses of social difference The targeting of Muslims has been associated with new forms of an older phenomenon imperialism New divisions between Muslims and others echo colonial binaries of black and white colonised and coloniser within practices of divide and rule This book speaks to others who have been marginalised and colonised and to wider debates about social difference oppression and liberation

Growing Girls Susan A Miller, 2007-07-20 In the early years of the twentieth century Americans began to recognize adolescence as a developmental phase distinct from both childhood and adulthood This awareness however came fraught with anxiety about the debilitating effects of modern life on adolescents of both sexes For boys competitive sports as well as primitive outdoor activities offered by fledgling organizations such as the Boy Scouts would enable them to combat the effeminacy of an overly civilized society But for girls the remedy wasn t quite so clear Surprisingly the girl problem a crisis caused by the transition from a sheltered family centered Victorian childhood to modern adolescence where self control and a strong democratic spirit were required of reliable citizens was also solved by way of traditionally masculine adventurous outdoor activities as practiced by the Girl Scouts the Camp Fire Girls and many other similar organizations Susan A Miller explores these girls organizations that sprung up in the first half of the twentieth century from a socio historical perspective showing how the notions of uniform identity civic duty primitive domesticity and fitness shaped the formation of the modern girl

**Scouting and Guiding in Britain** Catherine Bannister, 2022-11-19 This book explores the prevailing role of rites of passage ritual and ceremony in

contemporary children's lives through the lens of modern day incarnations of uniformed youth movements. It focuses on the socialising ritual and customary practices of present day grass roots Scout and Guide groups asking how Britain's largest and best known uniformed youth organisations employ ritualised activities to express their values to their young members through language and gesture, story and song, dress and physical artifacts. The author shows that these practices exist against a backdrop of culturally constructed beliefs about what constitutes the good child and good childhood in twenty first century Britain with in movement practices intended to help children develop positively and prepare for social life. The book draws on case study accounts of group performances incorporating the voices of children and adults reflecting on their practices and experiences.

**Juliette Gordon Low** Stacy A. Cordery, 2012-02-16 Experience the captivating journey of a trailblazing woman who defied conventions and created a lasting legacy. Born at the start of the Civil War, Juliette Daisy Gordon Low struggled to reconcile being a good Southern belle with being true to her adventurous spirit. Accidentally deafened, she married a dashing British patrician and moved to England where she quickly became dissatisfied with the aimlessness of privileged life. Her search for greater purpose ended when she met Robert Baden Powell, founder of the Boy Scouts, and was inspired to recreate his program for girls. The Girl Scouts of the USA, which can now count more than fifty nine million American girls and women among its past members, aims to instill useful skills and moral values in its young members with an emphasis on fun. In this lively and accessible biography of its intrepid founder, Stacy A. Cordery paints a dynamic portrait of an intriguing woman and a true pioneer whose work touched the lives of millions of girls and women around the world.

**Empire's daughters** Elizabeth Dillenburg, 2024-09-24 Empire's daughters traces the interconnected histories of girlhood, whiteness and British colonialism in the late nineteenth and early twentieth centuries through the study of the Girls Friendly Society. The society functioned as both a youth organisation and emigration society, making it especially valuable in examining girls' multifaceted participation with the empire. The book charts the emergence of the organisation during the late Victorian era through its height in the first decade of the twentieth century to its decline in the interwar years. Employing a multi-sited approach and using a range of sources including correspondences, newsletters and scrapbooks, the book uncovers the ways in which girls participated in the empire as migrants, settlers, laborers and creators of colonial knowledge and also how they resisted these prescribed roles and challenged systems of colonial power.

**Jewish Immigrants in London, 1880-1939** Susan L. Tananbaum, 2015-10-06 Between 1880 and 1939 a quarter of a million European Jews settled in England. Tananbaum explores the differing ways in which the existing Anglo-Jewish communities, local government and education and welfare organizations sought to socialize these new arrivals, focusing on the experiences of working class women and children.

**The Children's War** R. Kennedy, 2014-02-13 British children were mobilised for total war in 1914-18. It dominated their school experience and they enjoyed it as a source of entertainment. Their support was believed to be vital for Britain's present and future but their participation was motivated by a desire to remain connected to their absent fathers and brothers.

Inventing the cave man Andrew Horrall, 2017-05-26 Fred Flintstone lived in a sunny Stone Age American suburb but his ancestors were respectable middle class Victorians. They were very amused to think that prehistory was an archaic version of their own world because it suggested that British ideals were eternal. In the 1850s our prehistoric ancestors were portrayed in satirical cartoons, songs, sketches and plays as ape-like, reflecting the threat posed by evolutionary ideas. By the end of the century recognisably human cave men inhabited a Stone Age version of late imperial Britain, sending up its ideals and institutions. Cave men appeared constantly in parades, civic pageants and costume parties. In the early 1900s American cartoonists and early Hollywood stars like Charlie Chaplin and Buster Keaton adopted and reimagined this very British character, cementing it in global popular culture. Cave men are an appealing way to explore and understand Victorian and Edwardian Britain.

**People, Nations and Traditions in a Comparative Frame** D. Maris Coffman, Harold James, Nicholas Di Liberto, 2021-03-10 If the turn of the twenty-first century was characterised by the history wars in which bitter internecine battles raged between different historical schools, Jonathan Steinberg was noteworthy for his methodological pluralism. His own historical work spanned diplomatic history, military history, the social history of war, biography, social history, banking history, political culture and genocide studies. He often employed a comparative historical approach which teased out deep historical explanations by examining personalities, nations and traditions simultaneously. This book offers a critical appreciation of his contribution to modern historical practice, with contributions by former students and colleagues whose own interests are as diverse as those of Steinberg himself.

*The British Home Front and the First World War* Hew Strachan, 2023-03-02 The First World War required the mobilisation of entire societies regardless of age or gender. The phrase home front was itself a product of the war, with parts of Britain literally a war front, coming under enemy attack from the sea and increasingly the air. However, the home front also conveyed the war's impact on almost every aspect of British life, economic, social and domestic. In the fullest account to date, leading historians show how the war blurred the division between what was military and not, and how it made many conscious of their national identities for the first time. They reveal how its impact changed Britain forever, transforming the monarchy, promoting systematic cabinet government and prompting state intervention in a country which prided itself on its liberalism and its support for free trade. In many respects we still live with the consequences.

*Making Youth: A History of Youth in Modern Britain* Melanie Tebbutt, 2017-09-16 This new study explores how British youth was made and how it made itself over the nineteenth and twentieth centuries. Urbanisation and industrialisation brought challenges that altered how young people were both perceived and understood. As adults found it difficult to comprehend the rapidity of societal change, focus on the young intensified and they became a symbol of uncertainty about the future. Highlighting both change and striking continuity, Melanie Tebbutt traces the origins and development of key themes and debates in the history of modern British youth. Current issues such as the ageing of western societies, high levels of youth unemployment and the potential for social and political unrest make this a timely study.

Scouting Frontiers Nelson R. Block, Tammy M. Proctor, 2009-01-23 Despite the fact that Scouting has touched the lives of a quarter of a billion boys and girls and their leaders around the world in the past century its history has been largely ignored Scouting Frontiers Youth and the Scout Movement's First Century is the first book to discuss the history and principal themes of the Boy Scout and Girl Guide movements on an international scale Inspired by presentations at the ground breaking 2008 Johns Hopkins University symposium Scouting A Centennial History the authors examine the world's greatest youth movement through the diverse experiences of its members and their organizations From Muslim Scouts in Wales to French Scouts in Syria to Girl Guides in colonial Kenya Scouting has responded to the challenges of international expansion and transformed itself to address cultural political and social diversity Scouting Frontiers focuses particularly on the intersections between Scouting's origins and its transformations over the last century as it faced frontiers of nation empire religion race class and gender

Gender and Empire Angela Woollacott, 2006-01-23 One of the first single authored books to survey the role of sex and gender in the new imperial history Gender and Empire covers the whole British Empire demonstrating connections and comparisons between the white settler colonies and the colonies of exploitation and rule Through key topics and episodes across a broad range of British Empire history Angela Woollacott examines how gender ideologies and practices affected women and men and structured imperial politics and culture Woollacott integrates twenty years of scholarship providing fresh insights and interpretation using feminist and postcolonial approaches Fiction and other vivid primary sources present the voices of historical subjects enlivening discussions of central topics and debates in imperial and colonial history The circulation of imperial culture and colonial subjects along with conceptions of gender and race reveals the integrated nature of British colonialism from the eighteenth to the twentieth centuries Authoritative and approachable this is essential reading for students of world history imperial history and gender relations

**Transnational Histories of Youth in the Twentieth Century** R. Jobs, D.
