On Praxis Performance Research 3:

Performance Arts: Research in the Age of Digital Revolution Kwok-kan Tam, 2023-08-11 This volume reshapes a contemporary understanding of research in theatre and performance arts Bringing together distinguished scholars from all over the world the book serves as an arena for international scholars to introduce innovative research methodologies and disseminate their research findings regarding VLT data archiving and digital history and discusses the impacts of digital culture in art production stage performance film and literature The Ibsen focus in the book is illustrative of the power of digital database research that is generating new relations in spatial historical dimensions that have otherwise gone unnoticed It demonstrates how a new methodology can bring practical benefits to handling big data with the support of digital technologies In line with the post pandemic landscape this book engages a reflection on how the digital revolution has brought about changes and challenges and constraints and breakthroughs within the field of theatre and performance arts It is of appeal to theatre artists and practitioners scholars critics librarians digital archive engineers and postgraduate students interested in theatre performance studies digital media information technology library science communication education sociology as well as political science The book investigates the latest methodological development in digital cultures and performance arts which significantly contributes to the ever changing and increasingly advanced technological culture in this field Jessica Tsui yan Li York University Canada In line with the post pandemic landscape this book engages the reader in reflecting on how the digital revolution has brought about chances and challenges constraints and breakthroughs to the field of theatre and performance arts An original eye opening and inspiring volume at multiple levels this book brings together distinguished scholars from all over the world Dr Anna Tso The Hang Seng University of Hong Kong On Refuge Richard Gough, 1997 A refuge provides a place of safety a place which constitutes the necessary conditions for making work But what are the conditions of making work for the displaced exiled or the migrant artist when the place and conditions for work have perhaps been erased On Refuge looks at how such altered conditions affect the work of performance and considers how performance constructs its own production and survival The contributors address issues of territory and asylum home and exile locality and migration as they affect both artists themselves and the forms evident in contemporary performance

Resources in Education , 2001 *Speaking Data and Telling Stories* Martin Glynn, 2019-04-03 Speaking Data and Telling Stories examines the interdependent relationship between method Data Verbalization and practice performance Data Verbalization is about communicating and disseminating research data using performance approaches and techniques such as spoken word jazz hip hop and reggae theatrics Martin Glynn calls for the development of performance driven research dissemination that seeks to bring urgent attention to minority excluded and marginalized perspectives within research dissemination as a whole Employing the data verbalization method creates an exciting new proposition that can give progressive researchers a unique and distinct voice alongside generating significant reach and impact beyond the academy

conference and peer reviewed journal The book will be an invaluable resource for researchers scholars and related practitioners who want to strengthen their ability to communicate and disseminate research data using live performance spoken word approaches and techniques It will also provide guidance for students and researchers wanting to generate wider environmental social and cultural impact using research data creatively

The SAGE Encyclopedia of Educational Research, Measurement, and Evaluation Bruce B. Frey, 2018-01-29 This encyclopedia is the first major reference guide for students new to the field covering traditional areas while pointing the way to future developments

The SAGE Handbook of Performance Studies D. Soyini Madison, Judith Hamera, 2006 Publisher description

Second Handbook of Research on Mathematics Teaching and Learning Frank K. Lester, 2007-02-01 The audience remains much the same as for the 1992 Handbook namely mathematics education researchers and other scholars conducting work in mathematics education This group includes college and university faculty graduate students investigators in research and development centers and staff members at federal state and local agencies that conduct and use research within the discipline of mathematics The intent of the authors of this volume is to provide useful perspectives as well as pertinent information for conducting investigations that are informed by previous work The Handbook should also be a useful textbook for graduate research seminars In addition to the audience mentioned above the present Handbook contains chapters that should be relevant to four other groups teacher educators curriculum developers state and national policy makers and test developers and others involved with assessment Taken as a whole the chapters reflects the mathematics education research community s willingness to accept the challenge of helping the public understand what mathematics education research is all about and what the relevance of their research findings might be for those outside their immediate community

The SAGE Handbook of Qualitative Research Norman K. Denzin (ed), Yvonna S. Lincoln, 2005 A thoroughly revised updated edition this volume includes new chapters on auto ethnography critical race theory queer theory testimonies

Praxeological Political Analysis Michael Jonas, Beate Littig, 2016-11-03 With the interest in practice theory and praxeology on the rise praxeology can be considered an emerging new methodological as well as theoretical paradigm which successfully overcomes epistemological dichotomies of conventional approaches The articles in this volume serve as starting points for rendering contemporary practice theory approaches useful for the analysis of political events and processes without reducing the political aspect a priori to the formal policy sphere In this context Praxeological Political Analysis demonstrates that praxeological research is now increasingly addressing issues which are considered virulent in for instance the consumer sustainability or political spheres Following on from this key focus on political analysis this title also seeks to expand the current status of primarily political science adaptations of practice theory approaches to the analysis of predominantly narrowly defined political practices Written with an explicit focus on diverse political aspects and dimensions in the performative enactment of social practices this title will appeal to post graduate students and scholars interested in sociology

of politics social and public policy development in social theory and political research methods

Neuropsychological Studies of Apraxia and Related Disorders E.A. Roy, 1985-02-01 Apraxia is a term used to denote a disorder in the performance of limb verbal and oral non verbal gestures with often preserved ability to perform these same gestures outside the clinical setting in the appropriate situation or environment Over the past century and particularly in the past four decades a great deal of research has focused on understanding the nature of this complex disorder This book is a review of current approaches to the study of apraxia and related action sequencing disorders as well as an examination of the mechanisms thought to underly these disorders Neuropathological processes associated with apraxia are evaluated and principles of motor control handedness and bimanual coordination are considered as they relate to the study of apractic disorders

Scientific and Technical Aerospace Reports , 1983 Lists citations with abstracts for aerospace related reports obtained from world wide sources and announces documents that have recently been entered into the NASA Scientific and Technical Information Database

Handbook of Research on Teachers of Color and Indigenous Teachers Conra D. Gist, Travis J. Bristol, 2022-10-15 Teachers of Color and Indigenous Teachers are underrepresented in public schools across the United States of America with Black Indigenous and People of Color making up roughly 37% of the adult population and 50% of children but just 19% of the teaching force Yet research over decades has indicated their positive impact on student learning and social and emotional development particularly for Students of Color

and Indigenous Students A first of its kind the Handbook of Research on Teachers of Color and Indigenous Teachers addresses key issues and obstacles to ethnoracial diversity across the life course of teachers careers such as recruitment and retention professional development and the role of minority serving institutions Including chapters from leading researchers and policy makers the Handbook is designed to be an important resource to help bridge the gap between scholars practitioners and policy makers In doing so this research will serve as a launching pad for discussion and change at this critical moment in our country s history The volume s goal is to drive conversations around the issue of ethnoracial teacher diversity and to provide concrete practices for policy makers and practitioners to enable them to make evidence based decisions for supporting an ethnoracially diverse educator workforce now and in the future

Critical Pedagogy Peter McLaren, Joe L. Kincheloe, 2007 Our educational system is in turmoil Many would argue that it has been assaulted and oversimplified by the right There is growing concern that we are becoming a liberal nation state with an increasingly anti liberal population and an electorate that is disinterested in politics In this globalized world the power of capital is so great that opposition to it is often discouraged and disheartened leaving many citizens few political precepts by which to consider their institutions This contemporary failure of vision has opened the way for the unimpeded return of the philosophy of the free market As a result social and educational policies are debated almost solely in terms of how they fit with the needs of the market Social and ethical understandings are replaced by a failed economic theory that requires a radical constraint of our political and economic choices Compassion for the poor the market lets us know is wrong headed because any interference with the labor market will always result in unfortunate economic and social consequences Moral issues are eclipsed by market needs In Critical Pedagogy Where Are We Now the contributors discuss how the field of critical pedagogy should respond to such dire conditions in a way that is theoretically savvy and visionary while concurrently contributing to the struggle to improve the lives of those most hurt by them Critical Pedagogy is essential reading for every classroom teacher and pre service teacher It is also a valuable tool for use in undergraduate and graduate level classrooms

Impact of Global University Ranking Systems on Developing Countries Onyancha, Omwoyo Bosire, Tella, Adeyinka, 2023-06-01 The emotive discourses on the subject of university rankings are directly linked to the effect of such rankings on the performance of universities throughout the world It has been observed that the top ranked universities attract major financial commitments from the industry the best students quality researchers and a wide range of other quality endowments such as equipment libraries and laboratories It is not surprising that the ranking of universities has gained popularity and become a significant factor shaping not only the reputation of universities but also the performance of said institutions around the world including the developing countries Impact of Global University Ranking Systems on Developing Countries presents a collection of perspectives from scholars and other stakeholders on the impact of the global ranking systems on developing countries The book is an additional resource for discussion and discourse as far as the global university ranking systems are concerned and

opens new frontiers for further research Covering key topics such as assessment ethics and academic freedom this premier reference source is ideal for administrators policymakers researchers scholars academicians practitioners instructors and students

Teacher Evaluation to Enhance Professional Practice Charlotte Danielson, Thomas L. McGreal, 2000 Identifies some of the problems with many teacher evaluation systems presents a rationale for teacher evaluation and describes a structural framework for designing an effective evaluation system for beginning and tenured teachers

The SAGE Handbook of Interview Research Jaber F. Gubrium, James A. Holstein, Amir B. Marvasti, Karyn D. McKinney, 2012-02-14 The new edition of this landmark volume emphasizes the dynamic interactional and reflexive dimensions of the research interview Contributors highlight the myriad dimensions of complexity that are emerging as researchers increasingly frame the interview as a communicative opportunity as much as a data gathering format The book begins with the history and conceptual transformations of the interview which is followed by chapters that discuss the main components of interview practice Taken together the contributions to *The SAGE Handbook of Interview Research The Complexity of the Craft* encourage readers simultaneously to learn the frameworks and technologies of interviewing and to reflect on the epistemological foundations of the interview craft

The Oxford Handbook of Preservice Music Teacher Education in the United States Colleen Marie Conway, Kristen Pellegrino, Ann Marie Stanley, Chad West, 2020 The Oxford Handbook of Preservice Music Teacher Education in the United States advocates for increased cultural engagement in Pre K 12 music education

Recent Advances in Automation, Robotics and Measuring Techniques Roman Szewczyk, Cezary Zieliński, Małgorzata Kaliczyńska, 2014-07-08 This book presents the recent advances and developments in control automation robotics and measuring techniques It presents contributions of top experts in the fields focused on both theory and industrial practice The particular chapters present a deep analysis of a specific technical problem which is in general followed by a numerical analysis and simulation and results of an implementation for the solution of a real world problem The book presents the results of the International Conference AUTOMATION 2014 held 26 28 March 2014 in Warsaw Poland on Automation Innovations and Future Perspectives The presented theoretical results practical solutions and guidelines will be useful for both researchers working in the area of engineering sciences and for practitioners solving industrial problems
