Is the Holocaust Unique? Alan S. Rosenbaum, 2019-03-06 Evaluating the Jewish Holocaust is by no means a simple matter and one of the most controversial questions for academics is whether there have been any historical parallels for it Have Armenians Gypsies American Indians or others undergone a comparable genocide In this fiercely controversial volume distinguished scholars offer new discussions of this question Presenting a wide range of strongly held views they provide no easy consensus Some critics contend that if the Holocaust is seen as fundamentally different in kind from other genocides or mass deaths the suffering of other persecuted groups will be diminished Others argue that denying the uniqueness of the Holocaust will trivialize it Alan S Rosenbaum's introductions provide a much needed context for readers to come to terms with this multi dimensional dispute to help them understand why it has recently intensified and to enable them to appreciate what universal lessons might be gleaned from studying the Holocaust This volume makes an important contribution to our comprehension of one of the defining events of modern history It should be essential reading for scholars students and general readers interested in the Holocaust and its relationship to other instances of politically inspired mass murder

coordinated by the first author **A Global View on Intercultural Management** Jürgen Rothlauf, 2014-12-11 Whatever their industry of origin all companies are facing the same challenge to a greater or lesser degree globalization It is becoming more and more evident that companies need to plan ahead and anticipate coming developments if they are to be successful in the future Today it is crucial to establish a solid competitive position in the global arena There is no doubt that a corporate culture that is open to innovation and shaped by global thinking plays a key role in this context A culture in which

representatives of different countries and cultures can come together anticipating and understanding the cultural challenges creates the foundation of any international business. A global view on intercultural management will be the key to successfully doing business in diverse cultural environments. **Global Perspectives on Home Education in the 21st Century** English, Rebecca, 2020-11-13. Home education is the fastest growing educational movement in the world yet the research remains limited on why and how it has become so popular. As more and more families seek to homeschool it is imperative that further studies are undertaken to understand how students' lives are impacted as well as the challenges and opportunities that arise from this method of schooling. *Global Perspectives on Home Education in the 21st Century* is an edited collection that focuses on the major factors behind the global rise of the home education movement and explores many of the current issues faced in relation to homeschooling. The book examines key themes that include parents and children's experiences of home education, how and why families choose to home educate, and what happens to home educated children once they are finished. Including topics such as unschooling, self-directed learning, willed learning, and holistic education, this book is primarily intended for home educators, school administrators, policymakers, researchers, academicians, and students.

Global Perspectives on International Student Experiences in Higher Education Krishna Bista, 2018-10-03. *Global Perspectives on International Student Experiences in Higher Education* examines a wide range of international student experiences empirically from multiple perspectives that includes socio-cultural identities, contextual influences on their learning experiences, their wellbeing experiences, and their post-study experiences. This collection sheds light on the over five million students who cross geographical, cultural, and educational borders for higher education outside of their home countries. This book consists of nineteen chapters spread across four sections. Throughout the book, contributors question the existing assumptions and values of international student programs and services, reexamine and explore new perspectives to present the emerging challenges and critical evaluations of student experiences and their identities. Offering a rich understanding of these students and their global college experiences in Africa, Asia, Australia, Europe, and Americas, this book offers research-based strategies to effectively recruit, engage, support, and retain international students as they participate in higher educational settings around the world. This book provides resource material to benefit educators, policymakers, and staff who work closely with international students in higher education.
