Karl Marx on Society and Social Change Karl Marx, Friedrich Engels, 1973 This volume presents those writings of Marx that best reveal his contribution to sociology particularly to the theory of society and social change The editor Neil J Smelser has divided these selections into three topical sections and has also included works by Friedrich Engels The first section The Structure of Society contains Marx s writings on the material basis of classes the basis of the state and the basis of the family Among the writings included in this section are Marx s well known summary from the Preface of A Contribution to a Critique of Political Economy and his equally famous observations on the functional significance of religion in relation to politics The second section is titled The Sweep of Historical Change The first selection here contains Marx s first statement of the main precapitalist forms of production The second selection focuses on capitalism its contradictions and its impending destruction Two brief final selections treat the nature of communism particularly its freedom from the kinds of contradictions that have plagued all earlier forms of societies The last section The Mechanisms of Change reproduces several parts of Marx s analysis of the mechanisms by which contradictions develop in capitalism and generate group conflicts Included is an analysis of competition and its effects on the various classes a discussion of economic crises and their effects on workers and Marx s presentation of the historical specifics of the class struggle In his comprehensive Introduction to the selections Professor Smelser provides a biography of Marx identifies the various intellectual traditions which formed the background for Marx s writings and discusses the selections which follow The editor describes Marx s conception of society as a social system the differences between functionalism and Marx s theories and the dynamics of economic and political change as analyzed by Marx

explanations Function and pattern Originally published in 1951 **Quality of Life** David Phillips,2006-02-16 This book looks at subjective and objective individual well being and family community and social life relating quality of life to other contemporary concepts such as social capital social inclusion and health inequality and sets them in an international and global perspective *Social Policy in Capitalist History* Ayşe Buğra,2024-02-12 This invigorating book approaches social policy as a response to socioeconomic tensions and conflicts brought about by capitalist development exploring how such policy reflects and shapes the world of work and socioeconomic life Ay e Bu ra presents a historical overview of the ideas and politics of social policy in a discussion framed around the interrelated questions of poverty work and inequality TRUTH FOR HUMAN EXISTENCE AND HAPPINESS PAUL SITES; DANNY SITES,2010-07-23 This book is a response to postmodernists who take the position that there is no foundation for truth there are only stories We posit two types of truth truth about existence created by scientists which serves as a foundation of truth for existence Truth about existence describes human nature a major component being the human sense of self Following George Herbert Mead the self is not an entity it is process It is not substantiative it is functional There are two phases to the self the I phase and the Me phase The I phase has its roots in biology so when the needs of the self are not being gratified individuals suffer When individuals suffer life is without meaning individuals despair It is human needs and their inherent tie to suffering that points the way to truth for human existence and happiness Because other people value what they need needs and their corresponding values serve as the foundation for truth about existence upon which truth for human existence is constructed **Psychology Society & Subject** Charles W Tolman,2021-09-02 One result of the European student movements of the late 1960s was a critique of the mainstream bourgeois social sciences They were seen as irrelevant to the real needs of ordinary people and as practically and ideologically supporting oppression The discussions around psychology in Berlin at the time became increasingly focused on whether the discipline could in fact be reformed Among the latter was a group under the leadership of Klaus Holzkamp at the Free University who undertook an intensive critique of psychology with a view to identifying and correcting its theoretical and methodological problems and thus laying the groundwork for a genuine critical psychology Psychology Society and Subjectivity relates the history of this development the nature of the group s critique its reconstruction of psychology and its implications for psychological thought and practice It will be of interest to anyone keen on making psychology more relevant to our lives **Gramsci's Critique of Civil Society** Marco Fonseca,2016-03-31 Antonio Gramsci was an Italian Marxist thinker whose radical ideas on how to build an alternative world from below remain vigorously relevant today Gramsci s philosophy of praxis critically dissects the institutions of modern liberal democracy to reveal what is perhaps its deepest secret it is the most successful political system in modernity at preserving an objective condition of domination while transforming it into a subjective conviction of freedom Based on a careful reading of Gramsci s The Prison Notebooks Marco Fonseca shows hegemony as more than leadership of elites over subaltern majorities based on consent

Following Gramsci's critique of citizenship civil society and democracy including the current project of neoliberal democracy promotion particularly in the Global South he discloses a hidden process of hegemony that generates the preconditions for consent and thus successful domination As the struggles from Zapatismo to Chavismo and from the Arab Springs to Spain's Podemos show liberation is not possible without counter hegemony This book will be of interest to activist scholars engaged in the study of Marxism Gramsci political philosophy and contemporary debates about the renewal of Marxist thought and the relevance of revolution and Communism for the twenty first century
