**Justified Unforgiveness** Jennifer Mei Sze Ang, 2025-08-07 Justified Unforgiveness A Moral Case Against Silence Neglect and Forgetfulness corrects the overemphasis on the benefits of forgiveness and shows how unforgiveness is a morally appropriate and at times morally necessary response towards unremorseful and unrepentant wrongdoers grave wrongs brought about by absolute evil and situations where justice is not served In advancing an argument for unforgiveness Jennifer M S Ang deals with three dimensions of forgiveness forgiveness as the letting go of resentment forgiveness as reparation of damaged moral relations with the community and forgiveness as letting the past remain in the past Ang examines these arguments using cases of mass atrocities that are not often discussed in the forgiveness literature such as the Nanking massacre the Japanese military comfort women system and the Khmer Rouge genocide to reflect on the paradigm example of the Holocaust as absolute evil These discussions also clarify the relationship between time forgiveness and justice how time can affect the willingness to forgive how the carrying out of justice over time remains vulnerable to politicization and how memory of mass atrocities enables victims to let go without forgiving

**Empires of Remorse** Tom Bentley,2015-10-08 Until deep into the 20th century empire remained a source of pride for European states and their politicians The 21st century however has seen the unexpected emergence of certain European states apologising to their former colonies Analysing apologies from Germany Belgium Britain and Italy this book explores the shifting ways in which these countries represent their colonial pasts and investigates what this reveals about contemporary international politics particularly relations between former coloniser and colonised It is argued that far from renouncing colonialism in its entirety the apologies are replete with discourses that are reminiscent of the core legitimising tenets of empire Specifically the book traces how the apologies both illuminate and recycle many of the inequalities mind sets and ambivalences that circulated at the height of empire This book will be of key interest to scholars

and students of peace and post conflict resolution studies memory studies colonial studies and postcolonial theory More broadly it will be of interest to those studying political science International Relations sociology and development *East Asian Pragmatics* Xinren Chen,Doreen Dongying Wu,2022-08-26 Most of the innovative and exciting work done by East Asian pragmaticians on their languages past and present alike is written and published in local languages As a result research published in and about a particular East Asian language has been largely unavailable to those who do not speak the language The contributors seek to present a comprehensive survey of existing outputs of pragmatics research on three major East Asian languages Chinese Japanese and Korean The survey concentrates on a number of core pragmatic topics such as speech acts deixis discourse markers conversation analysis discourse analysis and face im politeness To complement and compare with the picture of research work published in the local languages the volume also includes a survey of internationally published English mediated articles and books studying the regional languages or contrasting them with other languages A rivetting discourse on pragmatics research it will be a valuable read for students and scholars alike Remorse Anthony Bash,2020-10-02 Though the Christian church has a well developed theology of Godward facing remorse about sin it has paid little attention to the interpersonal implications of the remorse that people feel when they wrong one another Since the nineteenth century important work has been done by psychologists anthropologists philosophers ethicists scientists and lawyers that has implications for the way theologians might think about remorse This book draws on the biblical record in its ancient settings as well as on insights from contemporary scholarship to offer a new and distinctively Christian contribution to an understanding of remorse **Issues in Quality in Healthcare and Quality of Life: 2013 Edition** ,2013-05-01 Issues in Quality in Healthcare and Quality of Life 2013 Edition is a ScholarlyEditions book that delivers timely authoritative and comprehensive information about Additional Research The editors have built Issues in Quality in Healthcare and Quality of Life 2013 Edition on the vast information databases of ScholarlyNews You can expect the information about Additional Research in this book to be deeper than what you can access anywhere else as well as consistently reliable authoritative informed and relevant The content of Issues in Quality in Healthcare and Quality of Life 2013 Edition has been produced by the world s leading scientists engineers analysts research institutions and companies All of the content is from peer reviewed sources and all of it is written assembled and edited by the editors at ScholarlyEditions and available exclusively from us You now have a source you can cite with authority confidence and credibility More information is available at <http://www.ScholarlyEditions.com> **Japanese Apologies for World War II** Jane Yamazaki,2006-05-17 Post war Japan offers a compelling case study of national apologies for past wrongdoings Actions of the Japanese Army and government during the Second World War caused enormous suffering and distress throughout Asia leaving a legacy of resentment and distrust Beginning in the mid 1980s apology for wartime actions became a recurring issue for Japan Repeated calls for apology from various quarters as well as repeated apologies by Japanese officials provide a rich source for the study of national apology

and how public apology discourse develops over time Unlike most rhetorical studies that focus on apologia in the broad sense this study concentrates on the strategy of the true apology The study combines rhetorical sociological and historical approaches to address multiple examples of Japanese apology during the period 1984 to 1995 The author suggests that motive is more complex than the image restoration theory that is prevalent in rhetorical theory More specifically this study emphasizes repair of relationships self reflection leading to a new improved identity and affirmation of moral principle as reasons for apology

Torts Claim Act of 1789 The Herero genocide conducted in German South West Africa present day Namibia between 1904 and 1908 is recognized by the UN as the first organized state genocide in world history Although the Herero were subjected to Germany s First Genocide they have unlike the victims of the Holocaust received no reparations from Germany By machine gun massacres starvation poisoning and forced labor in Germany s first concentration camps the German Schutztruppe systematically exterminated as many as 105 000 Herero women and children composing most of the Herero population Sarkin considers whether these historical events constitute legally defined genocide crimes against humanity and other international crimes He evaluates the legal status of indigenous polities in Africa at the time and he explores the enduring impact in Namibia of the Germany s colonial campaign of genocide He extrapolates the Herero case to global issues of reparations apologies and historical human rights violations especially in Africa
