On Aristotles On Interpretation 1 8 Ancient Commentators On Aristotle

Richard Sorabji

On Aristotles On Interpretation 1 8 Ancient Commentators On Aristotle:

On Aristotle's "On Interpretation 1-8" Hermiae Ammonius, 1996-01 Aristotle's *On Interpretation* the centrepiece of his logic examines the relationship between conflicting pairs of statements The first eight chapters analysed in this volume explain what statements are starting from their basic components the words and working up to the character of opposed affirmations and negations Ammonius who in his capacity as Professor at Alexandria from around A D 470 taught almost all the great sixth century commentators left just this one commentary in his own name although his lectures on other works of Aristotle have been written up by his pupils who included Philoponus and Asclepius His ideas on Aristotle's *On Interpretation* were derived partly from his own teacher Proclus and partly from the great lost commentary of Porphyry The two most important extant commentaries on *On Interpretation* of which this is one the other being by Boethius both draw on Porphyry's work which can be to some extent reconstructed from them BOOK JACKET Title Summary field provided by Blackwell

North America Inc All Rights Reserved *Ammonius* Ammonius Saccas (of Alexandria.), 2013 Aristotle's *On Interpretation* the centrepiece of his logic examines the relationship between conflicting pairs of statements The first eight chapters analysed in this volume explain what statements are starting from their basic components the words and working up to the character of opposed affirmations and negations Ammonius who in his capacity as Professor at Alexandria from around AD 470 taught almost all the great sixth century commentators left just this one commentary in his own name although his lectures on other works of Aristotle have been written up by his pupils who **On Aristotle "On Interpretation 1-8"**

Ammonius (Hermiae.), 1996 Enth *On Aristotle On interpretation 1 8* [The Ancient Commentators on Plato and Aristotle](#) Miira Tuominen, 2016-09-17 In late antiquity the works of Plato and Aristotle were subject to intense study which eventually led to the development of a new literary form the philosophical commentary Until recently these commentaries were understood chiefly as sources of information for the masters Plato and Aristotle they commented upon However in recent years it has become increasingly acknowledged that the commentators themselves Aspasius Alexander Themistius Porphyry Proclus Philoponus Simplicius and others even though they worked in the Platonist Aristotelian framework contributed to this tradition in original innovative and significant ways such that their commentaries are philosophically important sources in their own right This book provides the first systematic introduction to the philosophy of the commentators their way of doing philosophy and the kind of philosophical problems they found interesting Although there was no philosophy of the commentators in the sense of a definite set of doctrines Tuominen shows how the commentary format was nevertheless a vehicle for original philosophical theorizing and argues convincingly that the commentators should take their place alongside other philosophers of antiquity in the history of western philosophy **On Aristotle On Interpretation 1-8**, 1996

Ammonius: On Aristotle On Interpretation 9 with Boethius: On Aristotle On Interpretation 9 David L. Blank, Norman Kretzmann, 2014-04-10 This book is about determinism It contains the two most important commentaries on

the determinists sea battle argument and on other deterministic arguments besides It includes the earliest full exposition of the Reaper argument for determinism and a discussion of whether there can be changeless knowledge of the passage of time It also contains the two fullest expositions of the idea that it is not truth but only definite truth that would imply determinism Ammonius and Boethius both wrote commentaries on Aristotle's *On Interpretation* and on its ninth chapter where Aristotle discusses the sea battle Their comments are crucial for Ammonius commentary influenced the Islamic Middle Ages while that of Boethius was of equal importance to medieval Latin speaking philosophers It was once argued that Boethius was influenced by Ammonius but these translations are published together in this volume to enable the reader to see clearly that this was not the case Ammonius draws on the fourth and fifth century Neoplatonists Iamblichus Syrianus and Proclus He arranges his argument around three major deterministic arguments and is our main source for one of them the Reaper argument which has hitherto received insufficient attention Boethius on the other hand draws on controversies from 300 years earlier between Stoics and Aristotelians as recorded by Alexander of Aphrodisias and Porphyry This volume is essential reading for all those with an interest in the history of determinism Ammonius commentary on the first eight chapters of Aristotle's *On Interpretation* has appeared in a previously published volume in this series translated by David Blank

Aristotle on the Nature of Truth Christopher P. Long, 2010-11-22 This book reconsiders the traditional correspondence theory of truth which takes truth to be a matter of correctly representing objects Drawing Heideggerian phenomenology into dialogue with American pragmatic naturalism Christopher P Long undertakes a rigorous reading of Aristotle that articulates the meaning of truth as a co operative activity between human beings and the natural world that is rooted in our endeavours to do justice to the nature of things By following a path of Aristotle's thinking that leads from our rudimentary encounters with things in perceiving through human communication to thinking this book traces an itinerary that uncovers the nature of truth as ecological justice and it finds the nature of justice in our attempts to articulate the truth of things

Explaining the Cosmos Michael W. Champion, 2014 Explaining the Cosmos analyses the philosophical and theological writings relating to the creation and eternity of the world of three Gazan thinkers Aeneas Zacharias and Procopius It sheds light on Neoplatonic and Christian debates and maps distinctive cultural characteristics of Gaza including its schools and monasteries in Late Antiquity

On Aristotle's On Interpretation 9 Ammonius (Hermiae.), 1998 This volume is essential reading for anyone interested in the history of determinism It contains the two most important commentaries on the determinists sea battle argument as well as on other deterministic arguments The book includes the earliest full exposition of the Reaper argument for determinism a discussion of whether changeless knowledge of the passage of time is possible and the two fullest expositions of the idea that determinism is implied not by truth but only by definite truth Ammonius and Boethius both wrote commentaries on Aristotle's *On Interpretation* and on its ninth chapter where Aristotle discusses the sea battle Their comments are crucial for Ammonius commentary influenced the Islamic Middle Ages while that

of Boethius was of equal importance to medieval Latin speaking philosophers **Ancient Greek Scholarship: A Guide to Finding, Reading, and Understanding Scholia, Commentaries, Lexica, and Grammatical Treatises** Eleanor Dickey, 2007-04-05 Publisher description The Philosophy of the Commentators, 200-600 AD: Physics Richard Sorabji, 2005 Physics in Neoplatonist thought the subject which occupies the second volume of this sourcebook was innovative the world of space and time was causally ordered by a nonspatial nontemporal world and this view required original thinking *On Aristotle On Interpretation* 9 Ammonio, David L. Blank, 1998 Enth On Aristotle On interpretation 1 8 **Ancient and Medieval Greek Etymology** Arnaud Zucker, Claire Le Feuvre, 2021-01-18 This volume on Greek synchronic etymology offers a set of papers evidencing the cultural significance of etymological commitment in ancient and medieval literature The four sections illustrate the variety of approaches of the same object which for Greek writers was much more than a technical way of studying language Contributions focus on the functions of etymology as they were intended by the authors according to their own aims 1 Philosophical issues addresses the theory of etymology and its explanatory power especially in Plato and in Neoplatonism 2 Linguistic issues discusses various etymologizing techniques and the status of etymology which was criticized and openly rejected by some authors 3 Poetical practices of etymology investigates the ubiquitous presence of etymological reflections in learned poetry whatever the genre didactic aetiological or epic 4 Etymology and word plays addresses the vexed question of the limit between a mere pun and a real etymological explanation which is more than once difficult to establish The wide range of genres and authors and the interplay between theoretical reflection and applied practice shows clearly the importance of etymology in Greek thought **The Oxford encyclopedia of ancient Greece and Rome. - Vol. 1 - 7** Michael Gagarin, 2010 **New Essays on Aristotle's Organon** António Pedro Mesquita, Ricardo Santos, 2023-12-22 This collection of new essays by an international group of scholars closely examines the works of Aristotle s Organon The Organon is the general title given to the collection of Aristotle s logical works Categories De Interpretatione Prior Analytics Posterior Analytics Topics and Sophistical Refutations This extremely influential collection gave Aristotle the reputation of being the founder of logic and has helped shaped the development of logic for over two millennia The chapters in this volume cover topics pertaining to each of the six works traditionally included in the Organon as well as its manuscript tradition In addition a comprehensive introduction by the editors discusses Aristotle and logic the composition and order of the Organon and the authenticity title and chronology of the treatises that make up these works As an appendix the volume includes a new critical edition of the Greek text of Book 8 of the Topics New Essays on Aristotle s Organon offers a valuable insight into this collection for students and scholars working on Aristotle the works of the Organon or the philosophy of logic more broadly The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial CC BY NC 4 0 International license **Around and Beyond the Square of Opposition** Jean-Yves Béziau, Dale Jacquette, 2012-05-10 The theory of oppositions based on Aristotelian foundations of logic

has been pictured in a striking square diagram which can be understood and applied in many different ways having repercussions in various fields epistemology linguistics mathematics sociology physics The square can also be generalized in other two dimensional or multi dimensional objects extending in breadth and depth the original Aristotelian theory The square of opposition from its origin in antiquity to the present day continues to exert a profound impact on the development of deductive logic Since 10 years there is a new growing interest for the square due to recent discoveries and challenging interpretations This book presents a collection of previously unpublished papers by high level specialists on the square from all over the world *The Cambridge Companion to Ancient Logic* Luca Castagnoli, Paolo Fait, 2023-03-02 A state of the art overview of ancient logic for students and scholars with in depth analyses of its central themes *Aristotle and His Commentators* Pantelis Golitsis, Katerina Ierodiakonou, 2019-01-29 This volume includes twelve studies by international specialists on Aristotle and his commentators Among the topics treated are Aristotle s political philosophy and metaphysics the ancient and Byzantine commentators scholia on Aristotle s logic philosophy of language and psychology as well as studies of broader scope on developmentalism in ancient philosophy and the importance of studying Late Antiquity **Ammonius and the Seabattle** Gerhard Seel, 2013-05-08 No detailed description available for Ammonius and the Seabattle **The Philosophy of the Commentators, 200-600 AD: Logic and metaphysics** Richard Sorabji, 2005 The third volume of this invaluable sourcebook covers three main subject areas the metaphysics of Aristotle s logical works logic and the higher metaphysics of Neoplatonism
