Leona Godin,2022-08-30 From Homer to Helen Keller from Dune to Stevie Wonder from the invention of braille to the science of echolocation M Leona Godin explores the fascinating history of blindness interweaving it with her own story of gradually losing her sight A thought provoking mixture of criticism memoir and advocacy The New Yorker There Plant Eyes probes the ways in which blindness has shaped our ocularcentric culture challenging deeply ingrained ideas about what it means to be blind For millennia blindness has been used to signify such things as thoughtlessness blind faith irrationality blind rage and unconsciousness blind evolution But at the same time blind people have been othered as the recipients of special powers as compensation for lost sight from the poetic gifts of John Milton to the heightened senses of the comic book hero Daredevil Godin who began losing her vision at age ten illuminates the often surprising history of both the condition of blindness and

the myths and ideas that have grown up around it over the course of generations She combines an analysis of blindness in art and culture from King Lear to Star Wars with a study of the science of blindness and key developments in accessibility the white cane embossed printing digital technology to paint a vivid personal and cultural history A genre defying work There Plant Eyes reveals just how essential blindness and vision are to humanity s understanding of itself and the world **The Difference that Disability Makes** Rod Michalko,2002 Rod Michalko launches into this book asking why disabled people are still feared still regarded as useless or unfit to live not yet welcome in society Michalko challenges us to come to grips with the social meanings attached to disability and the body that is not normal Michalko s analysis draws from his own understanding of blindness and narratives by other disabled people Connecting lived experience with social theory he shows the consistent exclusion of disabled people from the common understandings of humanity and what constitutes the good life He offers new insight into what suffering a disability means to individuals as well as to the polity as a whole He shows how disability can teach society about itself about its determination of what is normal and who belongs Guiding us to a new understanding of how disability difference and suffering are related this book enables us to choose disability as a social identity and a collective political issue The difference that disability makes can be valuable and worthwhile but only if we choose to make it so Author note Rod Michalko is Associate Professor of Sociology at St Francis Xavier University He is the author of The Mystery of the Eye and the Shadow of Blindness 1998 and The Two in One Walking with Smokie Walking with Blindness Temple 1999 *A Cultural History of Disability in the Modern Age* David T.
