On Blue Ice Jane Stoneman-McNichol, 1983 General description of Inuvik

On Thin Ice Barry Scott Zellen, 2009-11-12

On Thin Ice explores the relationship between the Inuit and the modern state in the vast but lightly populated North American Arctic. It chronicles the aspiration of the Inuit to participate in the formation and implementation of diplomatic and national security policies across the Arctic region and to contribute to the reconceptualization of Arctic Security including the redefinition of the core values inherent in northern defense policy. With the warming of the Earth's climate, the Arctic rim states have paid increasing attention to the commercial opportunities, strategic challenges, and environmental risks of climate change. As the long isolation of the Arctic comes to an end, the Inuit, who are indigenous to the region, are showing tremendous diplomatic and political skills as they continue to work with the more populous states that assert sovereign control over the Arctic in an effort to mutually assert joint sovereignty across the region. Published on the 50th anniversary of Ken Waltz's classic *Man, the State, and War*, Zellen's *On Thin Ice* is at once a tribute to Waltz's elucidation of the three levels of analysis as well as an enhancement of his famous Three Images with the addition of a new Fourth Image to describe a tribal level of analysis. This model remains salient in not only the Arctic where modern state sovereignty remains limited but in many other conflict zones where tribal peoples retain many attributes of their indigenous sovereignty.

Breaking the Ice Barry Scott Zellen, 2008-01-01 *Breaking the Ice* is a comparative study of the movement for native land claims and indigenous rights in Alaska and the Western Arctic and the resulting transformation in domestic politics as the indigenous peoples of the North gained an increasingly prominent role in the governance of their homeland. This work is based on field research conducted by the author during his nine-year residency in the Western Arctic. Zellen discusses the major conflicts facing Alaskan Natives from the struggle to regain control over their land claims to the Native alienation from the corporate structure and culture and the resulting resurgence in tribalism. He shows that while the forces of modernism and traditionalism continued to clash, these conflicts were mediated by the structures of co-management, corporate development, and self-government created by the region's comprehensive land claims settlements. *Breaking the Ice* gives testimony to the achievements of Alaskan Natives through peaceful negotiation and argues that the age of land claims has transmuted this same tribal force into something else altogether in the North: a peaceful force to spawn the emergence of new structures of Aboriginal self-governance.
