Worker Collector Painter presents the first comprehensive account of Caillebotte's manifold activities. It presents a completely new critical interpretation of Caillebotte's broad career that highlights the singular salience of work and which intersects histories and theories of visual culture, ideology and psychoanalysis. Where the recent art historical rediscovery of Caillebotte offers multiple narratives of his identification with working men, this book goes beyond them towards excavating what his work was in its own terms. Born to an *haut bourgeois* milieu in which he was never completely comfortable and assailed by traumatic familial bereavements, Caillebotte adopted and adapted the ideologically normative category of work for his own purposes, deconstructing its ostensibly class-determinate parameters in order to bridge the chasm of his social alienation. **The Merchants' Magazine and Commercial Review** ,1851 **Fishery Leaflet** ,1947
