Augustine, 2004-07-01 No description available **Augustine's Conversion from Traditional Free Choice to "Non-free Free Will"** Kenneth M. Wilson, 2018-05-25 The consensus view asserts Augustine developed his later doctrines ca 396 CE while writing *Ad Simplicianum* as a result of studying scripture. His early *De libero arbitrio* argued for traditional free choice refuting Manichaean determinism but his anti-Pelagian writings rejected any human ability to believe without God giving faith. Kenneth M. Wilson's study is the first work applying the comprehensive methodology of reading systematically and chronologically through Augustine's entire extant corpus: works, sermons, and letters 386-430 CE and examining his doctrinal development. The author explores Augustine's later theology within the prior philosophical religious context of free choice versus deterministic arguments. This analysis demonstrates Augustine persisted in traditional views until 412 CE and his theological transition was primarily due to his prior Stoic, Neoplatonic, and Manichaean influences. **On the Free Choice of the Will, On Grace and Free Choice, and Other Writings** Saint Augustine (of Hippo), 2010 The works translated here deal with two major themes in the thinking of St. Augustine: 354-430 free will and divine grace. On the one hand, free will enables human beings to make their own choices; on the other hand, God's grace is required for these choices to be efficacious. *On the Free Choice of the Will; On Grace and Free Choice; On Reprimand; and Grace and On the Gift of Perseverance* set out Augustine's theory of human responsibility and sketch a subtle reconciliation of will and grace. This volume is the first to bring together Augustine's early and later writings on these two themes in a new translation by Peter King enabling the reader to see what Augustine regarded as the crowning achievement of his work. Augustine on the Will Han-lyen Kantzer Komline, 2020 While Augustine's understanding of will is constantly invoked in secondary literature, it rarely receives analysis in its own right. In this book, Han-lyen Kantzer Komline provides such an analysis demonstrating that Augustine's view is theologically differentiated, comprising four distinct types of human will which correspond to four different theological scenarios. **The Image and Likeness of God in Bernard of Clairvaux's Free Choice and Grace** O. Cist. Luke Anderson, 2005-06 Frances Myllar is a beautiful, intelligent, and rich prisoner of her family. She and her three siblings are guarded around the clock. In 2040, Frances is crippled by a terrible accident and uses her convalescence to write her life's story. Frances's story includes romance, honors for her work, a loveless marriage, and two children. It also includes her close relationships with her happy-go-lucky brother and her brilliant mother. The events of 2040

turn Frances's life around. From her hospital bed she makes decisions and sets in motion events that will free her from her family and her cold husband. Frances cannot know these decisions will also give her the opportunity for worldwide fame and executive responsibility.

Free Will's Value John Lemos, 2023-04-21 This book defends an event causal theory of libertarian free will and argues that the belief in such free will plays an important if not essential role in supporting certain important values. In the first part of the book the author argues that possession of libertarian free will is necessary for deserved praise and blame and reward and punishment. He contends that his version of libertarian free will, the indeterministic weightings view, is coherent and can fit with a scientific naturalistic understanding of human nature. However, the author also notes that we don't have sufficient evidentiary grounds to believe that human beings have this kind of free will. Despite this, he argues there are sufficiently strong value-based axiological reasons to believe we have such free will and to live and act as if we have it. In the second part of the book the author makes the case that the belief in such libertarian desert-grounding free will is very important to defending human dignity in the context of criminal justice, making sense of justified pride and its value, and adding value to our relationships. *Free Will's Value* will be of interest to scholars and advanced students working in metaphysics, philosophy of mind, action theory, ethics, and the philosophy of law.

The Predestination of Humans Cornelius Jansen, 2022-02-18 No other theological text polarized the early modern Catholic world as much as Cornelius Jansen's *Augustinus*. In it, the erudite bishop not only reconstructed St. Augustine's teaching on grace and free will but also boldly claimed that his views were in line with the Council of Trent and the Society of Jesus. For Jansen, the latter had marginalized the Church Father's doctrine on divine predestination by overemphasizing human free will. Published after his death in 1640, Jansen's work drew a large crowd of followers and inspired an Augustinian reform movement. Its papal condemnation unintentionally spread this theology but stifled an impassionate academic engagement with the *Augustinus*. This first-ever translation of some of its central chapters enables historians, philosophers, and theologians to finally engage with the founding text of Jansenism.

Anselm: Basic Writings Anselm, 1997-09-15 Ranging from his early treatises, the *Monologion* (a work written to show his monks how to meditate on the divine essence) and the *Proslogion* (best known for its advancement of the so-called ontological argument for the existence of God), to his three philosophical dialogues on metaphysical topics such as the relationship between freedom and sin, and late treatises on the Incarnation and salvation, this collection of Anselm's essential writings will be a boon to students of the history of philosophy and theology as well as to anyone interested in examining what Anselm calls the reason of faith.
