## On Historians Reappraisals Of Some Of Th:

**On Historians** Jack H. Hexter, 1979      In Defence of History Richard J. Evans, 2012-11-01 A lucid muscular and often sly reflection on the worth and purpose of historical scholarship by the award winning author of *The Third Reich Trilogy* Kirkus In this volume the renowned historian Richard J Evans offers a fervent and deeply insightful defense of his craft and its importance to civilization At a time when fact and historical truth are under unprecedented assault Evans shows us why history is necessary Taking us into the historians workshop he offers a firsthand look at how good history gets written In staunch opposition to the wilder claims of postmodern historians Evans thoroughly dismantles the notion that a realistic grasp of history is impossible to attain He then goes on to explain the deadly political dangers of losing a historical perspective on the way we live our lives In the tradition of E H Carr's *What Is History* and G R Elton's *The Practice of History* Evans *In Defense of History* delivers a model of lucid and intelligent historiographical analysis *The Guardian* UK      *From Words to Numbers* Roberto Franzosi, 2004-05-24 This book offers a way to analyze narrative data in socio historical research      The House of Prisoners Andrea Seri, 2013-07-31 This book deals with the house of prisoners bit asiri at the city of Uruk during the revolt against king Samsu iluna of Babylon Hammurabi's son The political history of this brief period ca 1741 1739 BC is not widely known and until now there has been no comprehensive treatment of the bit asiri This book includes autograph copies transliterations and translations of 42 unpublished cuneiform tablets from various collections collations and detailed tables and catalogues The analysis comprises some 410 documents dated or attributable to king Rim Anum one of the insurgents who attained relative independence as the ruler of Uruk The study of this corpus reveals details about diplomatic dealings between the central power and rebel rulers about the functioning of the house of prisoners of war and about the individuals who participated in different echelons of the local administration This monograph investigates what kind of organization the house of prisoners was how it worked how it interacted with other institutions the composition of its labor force and state management of captive and enslaved individuals      Historiography: An Introductory Guide Eileen Ka-May Cheng, 2012-03-29 The essential primer on the complexities of history writing and writing history      *Sapientia Astrologica: Astrology, Magic and Natural Knowledge, ca. 1250-1800* H Darrel Rutkin, 2019-04-24 This book explores the changing perspective of astrology from the Middle Ages to the Early Modern Era It introduces a framework for understanding both its former centrality and its later removal from legitimate knowledge and practice The discussion reconstructs the changing roles of astrology in Western science theology and culture from 1250 to 1500 The author considers both the how and the why He analyzes and integrates a broad range of sources This analysis shows that the history of astrology in particular the story of the protracted criticism and ultimate removal of astrology from the realm of legitimate knowledge and practice is crucial for fully understanding the transition from premodern Aristotelian Ptolemaic natural philosophy to modern Newtonian science This removal the author argues was neither obvious nor unproblematic Astrology

was not some sort of magical nebulous hodge podge of beliefs Rather astrology emerged in the 13th century as a richly mathematical system that served to integrate astronomy and natural philosophy precisely the aim of the New Science of the 17th century As such it becomes a fundamentally important historical question to determine why this promising astrological synthesis was rejected in favor of a rather different mathematical natural philosophy and one with a very different causal structure than Aristotle's

**Trust, Politics and Revolution** Francesca Granelli, 2019-12-04 Tracing the relationships and networks of trust in Western European revolutionary situations from the Ancient Greeks to the French Revolution and beyond Francesca Granelli here shows the essential role of trust in both revolution and government arguing that without trust both governments and revolutionary movements are liable to fail The first study to combine the importance of trust and the significance of revolution this book offers a new lens through which to interpret revolution in an essential work book for all scholars of political science and historians of revolution

*Beaufort* Molly McClain, 2001-01-01 They also sought to tame political and religious passions and to bring order and stability to Restoration society a goal which was shared by many members of the landed classes This book uses their story to illuminate the profound cultural changes which took place after 1660 It also brings to life Henry Somerset 1629 1700 and Mary Capel Somerset 1630 1715 two complex and unique individuals

*Political Dissent in Democratic Athens* Josiah Ober, 2011-11-28 How and why did the Western tradition of

political theorizing arise in Athens during the late fifth and fourth centuries B C By interweaving intellectual history with political philosophy and literary analysis Josiah Ober argues that the tradition originated in a high stakes debate about democracy Since elite Greek intellectuals tended to assume that ordinary men were incapable of ruling themselves the longevity and resilience of Athenian popular rule presented a problem how to explain the apparent success of a regime irrationally based on the inherent wisdom and practical efficacy of decisions made by non elite citizens The problem became acute after two oligarchic coups d tat in the late fifth century B C The generosity and statesmanship that democrats showed after regaining political power contrasted starkly with the oligarchs violence and corruption Since it was no longer self evident that better men meant better government critics of democracy sought new arguments to explain the relationship among politics ethics and morality Ober offers fresh readings of the political works of Thucydides Plato and Aristotle among others by placing them in the context of a competitive community of dissident writers These thinkers struggled against both democratic ideology and intellectual rivals to articulate the best and most influential criticism of popular rule The competitive Athenian environment stimulated a century of brilliant literary and conceptual innovation Through Ober s re creation of an ancient intellectual milieu early Western political thought emerges not just as a footnote to Plato but as a dissident commentary on the first Western democracy

result of racism and anti-Semitism In this collection of twenty essays leading scholars in a broad range of disciplines confront the claims made by Martin Bernal in *Black Athena The Afroasiatic Roots of Classical Civilization* In that work Bernal proposed a radical reinterpretation of the roots of classical civilization contending that ancient Greek culture derived from Egypt and Phoenicia and that European scholars have been biased against the notion of Egyptian and Phoenician influence on Western civilization The contributors to this volume argue that Bernal's claims are exaggerated and in many cases unjustified Topics covered include race and physical anthropology the question of an Egyptian invasion of Greece the origins of Greek language philosophy and science and racism and anti-Semitism in classical scholarship In the conclusion to the volume the editors propose an entirely new scholarly framework for understanding the relationship between the cultures of the ancient Near East and Greece and the origins of Western civilization The contributors are John Baines professor of Egyptology University of Oxford Kathryn A Bard assistant professor of archaeology Boston University C Loring Brace professor of anthropology and curator of biological anthropology in the Museum of Anthropology University of Michigan John E Coleman professor of classics Cornell University Edith Hall lecturer in classics University of Reading England Jay H Jasanoff Jacob Gould Schurman Professor of Linguistics Cornell University Richard Jenkyns fellow and tutor Lady Margaret Hall Oxford and university lecturer in classics University of Oxford Mary R Lefkowitz Andrew W Mellon Professor in the Humanities Wellesley College Mario Liverani professor of ancient near eastern history Universit di Roma La Sapienza Sarah P Morris professor of classics University of California at Los Angeles Robert E Norton associate professor of German Vassar College Alan Nussbaum associate professor of classics Cornell University David O Connor professor of Egyptology and curator in charge of the Egyptian section of the University Museum University of Pennsylvania Robert Palter Dana Professor Emeritus of the History of Science Trinity College Connecticut Guy MacLean Rogers associate professor of Greek and Latin and history Wellesley College Frank M Snowden Jr professor of classics emeritus Howard University Lawrence A Tritle associate professor of history Loyola Marymount University Emily T Vermeule Samuel E Zemurray Jr and Doris Zemurray Stone Radcliffe Professor Emerita Harvard University Frank J Yurco Egyptologist Field Museum of Natural History and the University of Chicago
