On Mead:

Becoming Mead Daniel R. Huebner, 2014-10-10 George Herbert Mead is a foundational figure in sociology best known for his book *Mind Self and Society* which was put together after his death from course notes taken by stenographers and students and from unpublished manuscripts Mead however never taught a course primarily housed in a sociology department and he wrote about a wide variety of topics far outside of the concerns for which he is predominantly remembered including experimental and comparative psychology the history of science and relativity theory In short he is known in a discipline in which he did not teach for a book he did not write In *Becoming Mead* Daniel R Huebner traces the ways in which knowledge has been produced by and about the famed American philosopher Instead of treating Mead's problematic reputation as a separate topic of study from his intellectual biography Huebner considers both biography and reputation as social processes of knowledge production He uses Mead as a case study and provides fresh new answers to critical questions in the social sciences such as how authors come to be considered canonical in particular disciplines how academics understand and use others works in their research and how claims to authority and knowledge are made in scholarship *Becoming Mead* provides a novel take on the history of sociology placing it in critical dialogue with cultural sociology and the sociology of knowledge and intellectuals

The Politics of the Book Filipe Carreira da Silva,Mónica Brito Vieira,2019-05-16 It is impossible to separate the content of a book from its form In this study Filipe Carreira da Silva and Mónica Brito Vieira expand our understanding of the history of social and political scholarship by examining how the entirety of a book mediates and constitutes meaning in ways that affect its substance appropriation and reception over time Examining the evolving form of classic works of social and political thought including W E B Du Bois s *The Souls of Black Folk* G H Mead s *Mind Self and Society* and Karl Marx s 1844 *Economic and Philosophic Manuscripts* Carreira da Silva and Brito Vieira show that making these books involved many hands They explore what publishers editors translators and commentators accomplish by offering the reading public new versions of the works under consideration examine debates about the intended meaning of the works and discussions over their present relevance and elucidate the various ways in which content and material form are interwoven In doing so Carreira da Silva and Brito Vieira characterize the editorial process as a meaning producing action involving both collaboration and an ongoing battle for the importance of the book form to a work s disciplinary belonging ideological positioning and political significance Theoretically sophisticated and thoroughly researched *The Politics of the Book* radically changes our understanding of what doing social and political theory and its history implies It will be welcomed by scholars of book history the history of social and political thought and social and political theory

Transforming Faith Joshua Leonard Daniel,2015-09-09 In the face of apparently rampant individualism there has been a steady call for a return to community and tradition particularly in religious communities and in recent Christian theology and ethics The form of contemporary life upheld by modern ideals like freedom and universalism the story goes turns out to divide people from each other and from the communal sources of our traditionally moral values But the call to community too often confuses individualism with individuality assuming that any appeal to individuality as a value or ideal is a rejection of communal goods rather than a mode of promoting those goods What s necessary now is a recovery of the individual that understands individuality to serve community even in resistance to it In *Transforming Faith* Joshua Daniel offers a fresh reading of H Richard Niebuhr s theological ethics that provides an account of individuality and individual creativity as both the fruits and reformers of community What is theologically at stake in Daniel s reconstructive interpretation is the human s existentially resonant relation with God and the christological revitalization of our symbolic and virtuous activity
