Pascal's Wager Paul Bartha, Lawrence Pasternack, 2018-10-18 Presents a comprehensive examination of Pascal's Wager its underlying theology philosophical influence and role in contemporary decision theory Pascal's Wager Jeff Jordan, 2006-10-26 What if there is no strong evidence that God exists Is belief in God when faced with a lack of evidence illegitimate and improper Evidentialism answers yes According to Evidentialism it is impermissible to believe any proposition lacking adequate evidence And if any thesis enjoys the status of a dogma among philosophers it is Evidentialism Presenting a direct challenge to Evidentialism are pragmatic arguments for theism which are designed to support belief in the absence of adequate evidence Pascal's Wager is the most prominent theistic pragmatic argument and issues in epistemology the ethics of belief and decision theory as well as philosophical theology all intersect at the Wager Other prominent theistic pragmatic arguments include William James's celebrated essay The Will to Believe a posthumously published and largely ignored pragmatic argument authored by J S Mill supporting the propriety of hoping that quasi theism is true the eighteenth century Scottish essayist James Beattie's argument that the consoling benefit of theistic belief is so great that theistic belief is permissible even when one thinks that the existence of God is less likely than not and an argument championed by the nineteenth century French philosopher Jules Lachelier which based its case for theistic belief on the empirical benefits of believing as a theist even if theism was very probably false In Pascal's Wager Pragmatic Arguments and Belief in God Jeff Jordan explores various theistic pragmatic arguments and the objections employed against them Jordan presents a new version of the Wager what he calls the Jamesian Wager and argues that the Jamesian Wager survives the objections hurled against theistic pragmatic arguments and provides strong support for theistic belief In addition to arguing for a sound version of the Wager Jordan also argues that there is aversion of Evidentialism compatible with a principled use of pragmatic arguments and that the Argument from Divine Silence fails Objections found in Voltaire Hume and Nietzsche against the Wager are scrutinized as are objections issued by Richard Swinburne Richard Gale and other contemporary philosophers The ethics of belief the many gods objection the problem of infinite utilities and the propriety of a hope based acceptance are also examined

Phillips, 2006-11-24 Two time Academy Award winner Sir David Lean 1908 1991 was one of the most prominent directors of the twentieth century responsible for the classics *The Bridge on the River Kwai* 1957 *Lawrence of Arabia* 1962 and *Doctor Zhivago* 1965 British born Lean asserted himself in Hollywood as a major filmmaker with his epic storytelling and panoramic visions of history but he started out as a talented film editor and director in Great Britain As a result he brought an art house mentality to blockbuster films Combining elements of biography and film criticism *Beyond the Epic The Life and Films of David Lean* uses screenplays and production histories to assess Lean s body of work Author Gene D Phillips interviews actors who worked with Lean and directors who knew him and their comments reveal new details about the director s life and career Phillips also explores Lean s lesser studied films such as *The Passionate Friends* 1949 *Hobson s Choice* 1954 and *Summertime* 1955 The result is an in depth examination of the director in cultural historical and cinematic

contexts Lean's approach to filmmaking was far different than that of many of his contemporaries. He chose his films carefully and as a result directed only sixteen films in a period of more than forty years. Those films however have become some of the landmarks of motion picture history. Lean is best known for his epics but Phillips also focuses on Lean's successful adaptations of famous works of literature including retellings of plays such as *Brief Encounter* 1945 and novels such as *Great Expectations* 1946 *Oliver Twist* 1948 and *A Passage to India* 1984. From expansive studies of war and strife to some of literature's greatest high comedies and domestic dramas Lean imbued all of his films with his unique creative vision. Few directors can match Lean's ability to combine narrative sweep and psychological detail and Phillips goes beyond Lean's epics to reveal this unifying characteristic in the director's body of work. *Beyond the Epic* is a vital assessment of a great director's artistic process and his place in the film industry.

**The 17th and 18th Centuries** Frank N. Magill, 2013-09-13 Each volume of the *Dictionary of World Biography* contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history. This is not a who's who. Instead each entry provides an in-depth essay on the life and career of the individual concerned. Essays commence with a quick reference section that provides basic facts on the individual's life and achievements. The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual's place in history. All entries conclude with a fully annotated bibliography.

Studies in Pascal's Ethics A.W. Baird, 2012-12-06 The aim of these studies is to show how Pascal's moral outlook reflects the influence on his thought of the basic doctrine of the three orders. This does not mean that an attempt is made to classify all Pascal's moral judgements in order to relate them to that doctrine. The intention is rather to distinguish the different moral stances Pascal takes and to ascertain how far the apparent inconsistencies between them can be explained if not reconciled in the light of the orders. It is made clear at the outset how the three orders form the framework of Pascal's scale of values with the different orders representing at once categories of moral value and orders of being. The peculiar nature of this scale in which moral and ontological values coalesce calls for a double criterion or variable to allow for differences both of degree and of kind. Since the criterion of rank in the scale is reality the assigning of value becomes largely a question of perspective: a quality from a given order taken by itself is real and has moral value but when compared with a quality from a higher order it loses both its reality and its worth.

Pascal's God and the Fragments of the World Martin Nemoianu, 2024-04-30 In *Pascal's God and the Fragments of the World* Martin Nemoianu offers a new interpretation of the thought of Blaise Pascal drawn from the *Pensées* and beyond. The book takes Pascal's central theme to be the distinction *Infini rien* between the transcendent God and the created world which without God would be nothing. Nemoianu identifies the distinction in Pascal, articulates it and works through the difficulties attending the distinction's disclosure. He then considers the implications of the distinction for the nature of nature and the nature of the human being, culminating in the ideal of martyrdom. The book closes with treatment of a closely related theme: the relation between human

freedom and divine grace in the context of the vexed question of Pascal's Jansenism      *The Biography Book* Daniel S.
