On Schachts Origins Of Muhammadan Jurisprudence:

On "Schacht's Origins of Muhammadan Jurisprudence" Muhammad M. Al-Azami, 1995-10-01 **On Schacht's Origins of Muhammadan Jurisprudence** Muḥammad Muṣṭafá A'ẓamī, Joseph Schacht, 1985 This detailed book provides a scholarly critique of the classic Western work on the origins of Islamic law It refutes Schacht's thesis that Islamic law is not founded on the Koran and presents historical evidence to support the traditional Islamic view that Islamic legal tradition is rooted in the teachings of Muhammad

Method and Theory in the Study of Islamic Origins Herbert Berg, 2003-01-01 This collection of articles examines the various and often mutually exclusive methodological approaches and theoretical assumptions used by scholars of Islamic origins

The Development of Exegesis in Early Islam Herbert Berg, 2013-04-03 The most important debate in Islamic origins is that of the reliability of the lists of transmitters isnads that are said to guarantee the authenticity of the materials to which they are attached Many scholars have come to the conclusion that most traditions hadiths which claim to preserve the words and deeds of Muhammad and early Muslim scholars are spurious Other scholars defend hadiths and their isnads arguing for an early continuous written transmission of these materials The first purpose of this study is to summarize and critique the major positions on the issue of the authenticity of hadiths in general and exegetical hadiths in particular The second purpose is to devise a means of evaluating isnads that does not rely on circular arguments and to use it to determine if the hadiths in the Tafsir of al Tabari attributed to Ibn Abbas are genuine

The Origins of Muhammadan Jurisprudence Joseph Schacht, 1959 *The Quest of the Historical Muhammad and Other Studies on Formative Islam* Stephen J. Shoemaker, 2024-07-09 The lead essay in this book is the first effort to approach the historical figure of Muhammad in a manner comparable to the investigations that biblical scholars have made in the effort to recover the historical figure of Jesus Using comparable methods and approaches this study demonstrates that despite a widely held belief that Islam was born in the full light of history we in fact know considerably less about both Muhammad and the beginnings of Islam than we do about the historical Jesus and the beginnings of Christianity Also included are republications of four previously published essays dealing with such topics as the Qur'an's status as a late ancient biblical apocryphon the relation between the Jerusalem Temple and the Holy House revered by the Qur'an and the imminent eschatology of the Qur'an and the early Islamic tradition

Applying the Canon in Islam Brannon M. Wheeler, 1996-07-03 Argues how the notion of canon is used to authorize and maintain certain types of interpretive reasoning and the social institutions that employ them

Religious Pluralism and Islamic Law Anver M. Emon, 2012-07-26 The question of tolerance and Islam is not a new one Polemicists are certain that Islam is not a tolerant religion As evidence they point to the rules governing the treatment of non Muslim permanent residents in Muslim lands namely the dhimmi rules that are at the center of this study These rules when read in isolation are certainly discriminatory in nature They legitimate discriminatory treatment on grounds of what could be said to be religious faith and religious difference The dhimmi rules are often invoked

as proof positive of the inherent intolerance of the Islamic faith and thereby of any believing Muslim toward the non Muslim. This book addresses the problem of the concept of tolerance for understanding the significance of the dhimmi rules that governed and regulated non Muslim permanent residents in Islamic lands. In doing so it suggests that the Islamic legal treatment of non Muslims is symptomatic of the more general challenge of governing a diverse polity. Far from being constitutive of an Islamic ethos the dhimmi rules raise important thematic questions about Rule of Law governance and how the pursuit of pluralism through the institutions of law and governance is a messy business. As argued throughout this book an inescapable and all too often painful bottom line in the pursuit of pluralism is that it requires impositions and limitations on freedoms that are considered central and fundamental to an individual's well being but which must be limited for some people in some circumstances for reasons extending well beyond the claims of a given individual. A comparison to recent cases from the United States, United Kingdom and the European Court of Human Rights reveals that however different and distant premodern Islamic and modern democratic societies may be in terms of time space and values legal systems face similar challenges when governing a populace in which minority and majority groups diverge on the meaning and implication of values deemed fundamental to a particular polity.

The Rhetoric of Sobriety Kathryn Kueny, 2001-07-26 Explains the prohibition of alcohol in Islam using a wide range of materials from the early Islamic period.

Heavenly Journeys, Earthly Concerns Brooke Olson Vuckovic, 2004-03-01 This book examines how an elite group of traditionists, historians and theologians shaped Muslims' perceptions of their prophet, their community and their behavior by retelling and interpreting the story of Muhammad's ascent to heaven, the mi'raj.

The Teaching and Study of Islam in Western Universities Paul Morris, William Shepard, Paul Trebilco, Toni Tidswell, 2013-11-26 Public interest in the religion of Islam and in Muslim communities in recent years has generated an impetus for Western Universities to establish an array of Institutes and programs dedicated to the study of Islam. Despite the growth in number of programs

dedicated to this study very little attention has been paid to the appropriate shape of such programs and the assumptions that ought to underlie such a study The Teaching and Study of Islam in Western Universities attempts to address two central questions that arise through the teaching of Islam Firstly what relation is there between the study of the religion of Islam and the study of those cultures that have been shaped by that religion Secondly what is the appropriate public role of a scholar of Islam After extensive discussion of these questions the authors then continue to address the wider issues raised for the academic community having to negotiate between competing cultural and philosophical demands This edited collection provides new perspectives on the study of Islam in Western Institutions and will be an invaluable resource for students of Education and Religion in particular Islamic Studies Modern Hadith Studies Belal Abu-Alabbas,2020-07-31 This book examines the various methods and trends in Hadith Studies across the globe Bringing together contributions from 10 scholars of Hadith it addresses the subject from a variety of methodological vantage points and historical premises

Women and Leadership in Islamic Law David Solomon Jalajel,2016-11-10 Islamic law has traditionally prohibited women from being prayer leaders and heads of state A small number of Muslims today are beginning to challenge this stance but they face considerable opposition from the broader Muslim community Women and Leadership in Islamic Law examines the assumption within much existing feminist scholarship that the patriarchal nature of pre Islamic and early Muslim Near Eastern Society is the primary reason for the development of Islamic legal rulings prohibiting women from leadership positions It claims that the evolution of Islamic law was a complex process shaped by numerous cultural historical political and social factors as well as scriptural sources whose importance cannot be dismissed Therefore the book critically examines a broad survey of legal works from the four canonical Sunni schools of law to determine the factors that influenced the development of the legal rulings prohibiting women from assuming various leadership roles The passages that elaborate rulings about women s leadership are presented in translation as an appendix to the research and are then subjected to a variety of critical analyses to identify the reasons influences and assumptions underlying those rulings This is the first time works of all four schools of law have been subjected to this kind of analysis for the express purpose of determining the extent to which gender attitudes have influenced and determined the rulings This book will therefore be a vital resource for students and scholars of Islamic Studies Religious Studies and Gender Studies *Hadith* Jonathan A.C. Brown,2017-12-07 Contrary to popular opinion the bulk of Islamic law does not come from the Quran but from hadith first hand reports of the Prophet Muhammad s words and deeds passed from generation to generation However with varying accounts often only committed to paper a century after the death of Muhammad Islamic scholars past and present have been faced with complex questions of historical authenticity In this wide ranging introduction Jonathan A C Brown explores the collection and criticism of hadith and the controversy surrounding its role in modern Islam This edition revised and updated with additional case studies and attention to the very latest scholarship also features a new chapter on how hadiths have been used politically

both historically and in the Arab Spring and its aftermath Informative and accessible it is perfectly suited to students scholars and general readers interested in this critical element of Islam The Early Islamic Grammatical Tradition Ramzi Baalbaki,2017-05-15 The last decades have witnessed a major resurgence of interest in the Arabic grammatical tradition Many of the issues on which previous scholarship focused for example foreign influences on the beginnings of grammatical activity and the existence of grammatical schools have been revisited and new areas of research have been opened up particularly in relation to terminology the analytical methods of the grammarians and the interrelatedness between grammar and other fields such as the study of the Qur'an exegesis and logic As a result not only has the centrality of the Arabic grammatical tradition to Arab culture as a whole become an established fact but also the fields of general and historical linguistics have finally come to realize the importance of Arabic grammar as one of the major linguistic traditions of the world The sixteen studies included in this volume have been chosen to highlight the themes which occupy modern scholarship and the problems which face it while the introductory essay analyses these themes within the wider context of early Islamic activity in philology as well as related areas of religious studies and philosophy **Origin and Development of Islamic Law** Majid Khadduri,Herbert J. Liebesny,2008 The American profession should welcome this exhaustive and authentic work edited by two scholars who are authorities on the law of Islam and also students of the law of the United States These editors have enlisted leading authorities on special subjects and have presented the whole in a manner that should appeal to American interest and understanding Dr Khadduri and Dr Liebesny are entitled to our thanks and to our congratulations It is to be hoped that Law in the Middle East will be widely read and pondered by the American legal profession and all who believe understanding begets good will The Origins of Islamic Reformism in Southeast Asia A. Azra,2022-02-22 Internationally respected scholar Professor Azyumardi Azra examines the transmission of Islamic reformism from the Middle East to Indonesia during the seventeenth and eighteenth centuries *Formations of the Secular* Talal Asad,2003-02-03 A dark but brilliantly original work one of the most important books on religion and the modern in recent years H Net Reviews Opening with the provocative query what might an anthropology of the secular look like this book explores the concepts practices and political formations of secularism with emphasis on the major historical shifts that have shaped secular sensibilities and attitudes in the modern West and the Middle East Talal Asad proceeds to dismantle commonly held assumptions about the secular and the terrain it allegedly covers He argues that while anthropologists have oriented themselves to the study of the strangeness of the non European world and to what are seen as non rational dimensions of social life things like myth taboo and religion the modern and the secular have not been adequately examined The conclusion is that the secular cannot be viewed as a successor to religion or be seen as on the side of the rational It is a category with a multi layered history related to major premises of modernity democracy and the concept of human rights This book will appeal to anthropologists historians religious studies scholars as well as scholars working on modernity A
