Senior Moment Guidebook Bert Meem, Gilbert Meem, 2004-08 **Help, Lord! I'm Having A Senior Moment** Karen O'Connor, 2003-10-24 Like it or not senior moments happen We might as well laugh about them and thank God for the way they add interest to our lives After all what would life be without the cordless phone ringing faintly from where you left it in the fridge Some senior moments are more heartbreaking or embarrassing than funny But in every case we can take them to the Lord who cares for us This book brings encouragement to people in their golden years Each of the 90 short pieces contains a note to God about a topic of special interest to seniors a word from God in Scripture a prayer and a place for the reader to write his or her note to God *Senior Moments* Jacqueline D. Byrd, 2005-07-01 *Senior Moments* Richard L. Travis, 2019-12-09 I never really thought about living to be 73 years old but here I am Not only have I survived I am comparatively healthy and happy I do notice however several people around my age who have different levels of health issues and impairments This observation has led me to do some research into what would make an older person's life a little easier Of course we would all benefit from a full time maid or cook but for most of us that is not realistic So this book is dedicated to the middle class and the working class of people who are not millionaires or able to easily move to an expensive assisted living facility If you gain one thing from this book that makes your life safer and easier as you age then I have accomplished my mission If you gain many things from this book that make your life simpler and easier then I am very grateful to have been the one to enlighten you There are great many HINTS posted in the main text of this Guide to give you something to strive to change or accomplish now There are also many many resources at the end of this Guide for you to do more research and learn more about the topic or topics of aging that interest you most **The Alzheimer's Answer** Marwan Sabbagh, 2010-12-15 A front line researcher offers cutting edge advice on preventing and slowing the progress of Alzheimer's Drawing on the most up to date information available on the disease as well as experiences from his clinical practice Dr Marwan Sabbagh a leading expert in Alzheimer's research translates the current ideas driving Alzheimer's treatment into practical information you can use to determine your risk and develop a prevention strategy You'll find tools for assessing your personal Alzheimer's risk and What You Can Do sections to help you keep your brain and body healthy plus information on the treatment of Alzheimer's and its complications Gives you the most up to date information on Alzheimer's and Alzheimer's prevention Written by a neurologist specializing in geriatric neurology and dementia who is one of the country's leading experts in Alzheimer's research Includes exciting revelations such as finding that early onset Alzheimer's can be significantly slowed in its progress giving the patient as many as ten to fifteen added years of quality life There are an estimated 5.2 million people living with Alzheimer's in America today If you or someone you love is at risk of developing the disease or wishes to slow its advancement this book will give you vital information to help you reduce risk and safeguard health and quality of life [The Little Book of Senior Moments](#) Shelley Klein, 2011-06 For those who have trouble
