Sense Of Guilt

Ernest Jones

Sense Of Guilt:

Guilt John G. McKenzie, 2016-06-10 It is acknowledged by most students of human behaviour that the idea of guilt is closely connected with that of man's freedom and responsibility. It is a theme of law court and pulpit, a concern of psychoanalysis and probation officers, a growing pre-occupation of the novelist. Our era has even been described as a guilt consciousness age. It comes as a surprise therefore to discover that there are so few modern books in which the meaning of guilt is thoroughly explored. In the present volume, originally published in 1962, Dr J. G. McKenzie makes an admirable attempt to fill the gap. He begins by describing and analysing the various senses in which the word guilt is used and by making a number of important distinctions. There follows a close psychological study of the origin and development of guilty feelings, which is illumined by Dr McKenzie's interpretation of negative and positive conscience. The author then turns to the legal, ethical and religious concepts of guilt and examines each with care and insight, always raising and facing the deepest issues for both theory and practice. In the concluding section of the book, he deals with the question: How can the sense of guilt be dissipated? Against the backdrop of depth psychology and theology, he offers a penetrating and provocative understanding of divine forgiveness, which plumbs the depths both of man's sin and of God's love. Dr McKenzie writes out of a long lifetime of teaching and of clinical work in psychotherapy. The range of his reading and interests is extraordinarily wide. Through all his writing, there shines not only his profound concern for people but his lively and indeed infectious conviction that man is still in the making and that his one true Maker is God.

Guilt Salman Akhtar, 2012-12-22 In this elegantly written book, eight distinguished psychoanalysts address the ubiquitous phenomenon of guilt. They describe the childhood experiences that form the bedrock of this emotion and delineate various types of guilt, including pre-oedipal guilt, oedipal guilt, survivor guilt, separation guilt, induced guilt, and so on. Noting that guilt by itself is neither good nor bad, these master clinicians highlight the adverse, e.g. self-punishment, masochism, irritability, and potentially positive, e.g. reparation, helpfulness towards others, outcomes of guilt. They critically assess previously published findings, review diverse theories, and offer illustrative material from treatment of children and adults. As a result, *Guilt: Origins, Manifestations, and Management* is replete with clinical pearls and highly useful tips for the management of patients driven by feelings of guilt and remorse.

Remorse Anthony Bash, 2020-10-02 Though the Christian church has a well-developed theology of Godward-facing remorse about sin, it has paid little attention to the interpersonal implications of the remorse that people feel when they wrong one another. Since the nineteenth century, important work has been done by psychologists, anthropologists, philosophers, ethicists, scientists, and lawyers that has implications for the way theologians might think about remorse. This book draws on the biblical record in its ancient settings as well as on insights from contemporary scholarship to offer a new and distinctively Christian contribution to an understanding of remorse.

Consciousness & Emotion Ralph D. Ellis, Natika Newton, 2005 The papers in this volume of the *Consciousness Emotion Book Series* are organized around the theme of enaction. Enactive emotional processes are not

merely the recipients of information or the passive victims of input and learning The organism first is engaged in an ongoing complex pattern of self organizational activity for the purpose of maintaining a dynamical continuity of pattern across changes of subserving micro constituents and environmental conditions making use of multiple shunt mechanisms feedback loops and other complex dynamical features Self organizational structure is used to distinguish between action and mere reaction Accordingly the papers of this volume by leading students of emotion such as Jaak Panksepp Luc Ciompi Thomas Natsoulas Farzaneh Pahlavan Michela Balconi Todd Lubart Louise Sundararajan Jordan Petersen and others address three main issues I Emotional influences on perception and thought II Agency and choice III Agency and moral value
