Sensing Others:

Sensing Others Alice Rudge, 2023-10 *Sensing Others* explores the lives of Indigenous Batek people in Peninsular Malaysia amid the strange and the new in the borderland between protected national park and oil palm plantation As their ancestral forests disappear around them Batek people nevertheless attempt to live well among the strange Others they now encounter out of place animals and plants traders tourists poachers and forest guards How Batek people voice their experiences of the good and the strange in relation to these Others challenges essentialized notions of cultural and species difference and the separateness of ethical worlds Drawing on meticulous long term ethnographic research with Batek people Alice Rudge argues that as people seek to make habitable a constantly changing landscape what counts as Otherness is always under negotiation Anthropology's traditional dictum to make the strange familiar and the familiar strange creates a binary between the familiar and the Other often encapsulating Indigenous lives as the archetypal Other to the modern worldview Yet living well amid precarity involves constantly negotiating Otherness's ambivalences as people plants animals and places can all become familiar strange or both *Sensing Others* reveals that when looking from the boundary what counts as Otherness is impossible to pin down

Seeds For Democratic Futures Frederic Hanusch, Anna Katsman, 2024-12-12 The 17 essays in this volume investigate potentials for democratizing democracies From finding faith to reclaiming the commons each essay aims to plant a seed which carries the promise of democratic potentials Dealing with topics like planetary change AI and plural knowledge systems the book acts as an inspiration calling for unorthodox compassionate and experimental approaches It is an invitation to cultivate democratic futures that are as diverse resilient and vibrant as the societies they aim to serve

Identity, Power and Influence in the Boardroom Meena Thuraisingham, 2019-04-11 Over the last decade the role of the board of directors in deciding on potentially value creating decisions has gained greater prominence Following extensive board research into the origins

reasons effects and consequences of boardroom influence of directors this book prepares directors for playing a more influential role in shaping such decisions Boards are only as effective as the relationships their members have with each other Despite this many of the published guides on board work do not focus sufficiently on the human dimension of governance nor has there been a comprehensive understanding of the effect that group membership has on the decision behaviour of the individual director or vice versa The author offers the reader actionable strategies to successfully navigate the complex dynamics that are inevitable when a group of powerful individuals with strong individual identities has to work together Without a realistic understanding of the silent risks that a suboptimal dynamic may pose to the processes of making critical decisions boards may find their decision outcomes compromised Despite the best intentions such dynamics can have a chilling effect on an individual director's contribution marginalising or diminishing the value of their contribution and their influence on the board This book will be a valuable resource guide for aspiring and experienced company directors wishing to strengthen their effectiveness in the advisory role and develop a more influential voice in shaping the strategic direction of their companies

The Management of Complex Projects Stephen Pryke, Hedley Smyth, 2012-11-20 Value is added to projects through the relationships surrounding the client the focus of this book is therefore the client as project rather than the building on the ground It shows how to create and maintain effective relationships between the client and the project team as well as intra coalition relationships Students academics and practitioners need to understand the changing nature of reforms from successive calls for change by the industry's various clients and client groups Project team network relationships are a function of mindsets behaviour and competencies of individuals and *The Management of Complex Projects* a relationship approach Explores the relationship at the project interface client design team contractor stakeholders and supply chain relations Examines different concepts to the development and management of relationships formation and maintenance issues Highlights some of the key issues that require development both academically and through applied research Most project management books cover tools and techniques this one covers the softer skills and shows how crucial good relationships are to the successful management of projects

Metacognitive Approaches to Developing Oracy Roy Evans, Deborah Jones, 2013-09-13 The acquisition of speech and language represent significant achievements for all children These aspects of child development have received substantial attention in the research literature and a considerable body of theoretical knowledge exists to chart progress from infancy to maturity Cross cultural studies have identified the common purposes served by the acquisition of oral language by children and the essential similarity in the sequence through which speech develops irrespective of geography and culture What is

less clear is precisely how children learn to say what they mean and how teachers and parents can support and enhance the development of meaningful speech in their children Until now children s speech has been underused as a means of promoting learning in the formal school setting New requirements within the National Curriculum are trying to address this gap but there remains a lack of clarity as to what this means for practice and how it relates to the broad base of curricular objectives This book brings together a body of work from different countries it offers an improved understanding of how strategies for developing speaking and listening may impact metacognitive awareness and raise standards of literacy and dialogic thinking for all children This book was previously published as a special issue of Early Child Development and Care Effective Communication and Soft Skills Nitin Bhatnagar,Mamta,2011 Effective Communication and Soft Skills provides a clear understanding of the attributes of good communication vis a vis soft skills and hard skills It offers practice and assessment modules to sharpen learning while covering all the four tenets of language learning listening speaking reading and writing It covers all essential topics for teachers and students of BCom BBA and MBA and mass communications as well as professionals in all industries and is a comprehensive resource for inter personal communication in the professional world

The Good Drone Kristin Sandvik, Maria Jumbert, 2016-08-25 While the military use of drones has been the subject of much scrutiny the use of drones for humanitarian purposes has so far received little attention As the starting point for this study it is argued that the prospect of using drones for humanitarian and other life saving activities has produced an alternative discourse on drones dedicated to developing and publicizing the endless possibilities that drones have for doing good Furthermore it is suggested that the Good Drone narrative has been appropriated back into the drone warfare discourse as a strategy to make war more human This book explores the role of the Good Drone as an organizing narrative for political projects technology development and humanitarian action Its contribution to the debate is to take stock of the multiple logics and rationales according to which drones are good with a primary objective to initiate a critical conversation about the political currency of good This study recognizes the many possibilities for the use of drones and takes these possibilities seriously by critically examining the difference the drones functionalities can make but also what difference the presence of drones themselves as unmanned and flying objects make Discussed and analysed are the implications for the drone industry user communities and the areas of crisis where drones are deployed
