Learning Disabilities and Brain Function William H. Gaddes,2013-04-17 Some may say that this book is long overdue others including myself will state that the book appears at just the right time The latter is likely more true for it is doubtful that many in the professions would until now link issues of learning disabilities with those of neurophysiological dysfunction in the manner in which ultimately must be the case As a matter of fact there are those who deny the relationship completely Lee Wiederholt 1974 1 in his short but excellent review of the historical perspectives of learning disabilities traces the early interest in this problem to the work of Gall 1802 and to his successors Broca 1861 Jackson 1864 Bastian 1869 and a few others Each of these men would at the time of this writing be considered to have interests in the field of neurology although at the time of their investigations neurology per se was but a gleam in the eye of the anatomical beholder

A relative detour then took place Cerebral palsy in the decades of the 1940s and 1950s caught the attention of researchers through the work of Winthrop Morgan Phelps orthopedist and George Deaver physiatrist and one or two other medically oriented individuals This was related to the writings of W J Little 1810 1894 It was however Kurt Goldstein Heinz Wemer both eminent German scientists and Alfred A
