## **Sentencing And Criminal Justice:**

**Sentencing and Criminal Justice** Andrew Ashworth, Rory Kelly, 2021-07-15 This revised and updated new edition focuses on major developments in sentencing law practice and theory Sentencing in England and Wales is now dominated by Sentencing Council guidelines and scrutiny of those guidelines is central to this book Issues of principle are identified and discussed to include the constitutional position of the Sentencing Council the meaning of and challenges to proportionality and the sentencing of BAME offenders and women offenders The book welcomes the new Sentencing Code introduced as the Sentencing Act 2020 and critically examines the government's plans for sentencing reform set out in the 2020 White Paper A Smarter Approach to Sentencing Throughout the book sentencing is explored in its wider criminal justice context making it essential reading for courses on sentencing criminal justice and criminal law      **Sentencing Fragments** Michael H. Tonry, 2016 Cover Contents Preface Acknowledgments 1 Sentencing Matters 2 Sentencing Fragments 3 Federal Sentencing 4 Sentencing Theories 5 Sentencing Principles 6 Sentencing Futures References Index      *Principled Sentencing* Andrew Von Hirsch, Andrew Ashworth, 1992      Sentencing and Society Cyrus Tata, Neil Hutton, 2017-03-02 Combining the latest work of leading sentencing and punishment scholars from twelve different countries this major new international volume answers key questions in the study of sentencing and society It presents not only a rigorous examination of the latest legal and empirical research from around the world but also reveals the workings of sentencing within society and as a social practice Traditionally work in the field of sentencing has been dominated by legal and philosophical approaches Distinctively this volume provides a more sociological approach to sentencing so allowing previously unanswered questions to be addressed and new questions to be opened This extensive collection is drawn from around one third of the papers presented at the First International Conference on Sentencing and Society Almost without exception the chapters have been revised cross referenced and updated The overall themes and findings of the international volume are set out by the opening Introduction and the closing Reflections chapters Research findings on particular penal policy questions are balanced with an analysis of fundamental conceptual issues making this international volume essential reading for sentencing and punishment scholars criminal justice policy makers and graduate students      Prescription for Justice Jack M. Kress, 1980      Crime and Justice, Volume 45 Michael Tonry, 2017-02-22 Sentencing Policies and Practices in Western Countries Comparative and Cross national Perspectives is the forty fifth addition to the Crime and Justice series Contributors include Thomas Weigend on criminal sentencing in Germany since 2000 Julian V Roberts and Andrew Ashworth on the evolution of sentencing policy and practice in England and Wales from 2003 to 2015 Jacqueline Hodgson and Laure Soubise on understanding the sentencing process in France Anthony N Doob and Cheryl Marie Webster on Canadian sentencing policy in the twenty first century Arie Freiberg on Australian sentencing policies and practices Krzysztof Krajewski on sentencing in Poland Alessandro Corda on Italian policies Michael Tonry on American sentencing and Tapio Lappi Seppälä on penal policy and sentencing in the Nordic

countries      *Sentencing Multiple Crimes* Jesper Ryberg, Julian V. Roberts, Jan Willem de Keijser, 2018 *Sentencing Multiple Crimes* confronts the practical and theoretical challenges for the criminal justice system when punishing multiple crime offenders including the proportionality of the crimes committed the temporal span between the crimes and the relationship between theories about the punitive treatment of recidivists and multiple offenders It provides a comprehensive examination of the dynamics involved with sentencing multiple offenders from the perspective of several legal theories      *The U.S. Sentencing Guidelines* Dean J. Champion, 1989-11-03 A distinguished group of noted criminal justice specialists here examines the impact of the new U S sentencing guidelines imposed in 1987 on law enforcement the prosecution and courts and corrections Although these guidelines were created with the expressed purpose of increasing judicial fairness and reducing prison overcrowding the contributors argue that their long range effects will be to aggravate present overcrowding problems to intolerably high levels To make their case contributors address individually such issues as plea bargaining the new role of parole and corrections officers the likely effects of the scheduled abolition of the parole board in 1992 and more Both students of criminal justice and practicing parole and corrections officers will find these chapters enlightening reading Following an introductory overview that puts the U S sentencing guidelines in perspective two chapters discuss their impact on law enforcement officer discretion and crime control and deterrence Turning to an exploration of the courts the contributors address prosecutorial discretion in plea bargaining judicial discretion and sentencing disparities case processing and sentencing alternatives and how predictions of dangerousness affect the sentencing process In their analysis of the relationship between the sentencing guidelines and corrections trends the contributors examine issues such as community based corrections and privatization inmate litigation and constitutional issues and recidivism Finally editor Dean Champion offers a perceptive synthesis of the volume by summarizing the serious problems posed by imposition of the U S sentencing guidelines Four appendices provide additional related information for the student and researcher      *Predictive Sentencing* Jan W de Keijser, Julian V Roberts, Jesper Ryberg, 2019-05-16 *Predictive Sentencing* addresses the role of risk assessment in contemporary sentencing practices Predictive sentencing has become so deeply ingrained in Western criminal justice decision making that despite early ethical discussions about selective incapacitation it currently attracts little critique Nor has it been subjected to a thorough normative and empirical scrutiny This is problematic since much current policy and practice concerning risk predictions is inconsistent with mainstream theories of punishment Moreover predictive sentencing exacerbates discrimination and disparity in sentencing Although structured risk assessments may have replaced gut feelings and have now been systematically implemented in Western justice systems the fundamental issues and questions that surround the use of risk assessment instruments at sentencing remain unresolved This volume critically evaluates these issues and will be of great interest to scholars of criminal justice and criminology      **Sentencing Law and Policy** Nora V. Demleitner, 2004 Four leading sentencing scholars have produced the first and only text with enough up to date material to

support a full course or seminar on sentencing Other texts offer only partial coverage or out of date examples The chapters in Sentencing Law and Policy Cases Statutes and Guidelines present examples from three distinct types of sentencing guideline determinate and capital The materials draw on the full spectrum of legal institutions from the U S Supreme Court To The state court level with close consideration of the role of legislatures and sentencing commissions The only current full course text on sentencing this new title offers an intuitive conceptually based organization that looks at the essential substantive components and procedural steps following the sequence of decisions that typically occurs in every criminal sentencing examples covering three distinct areas of sentencing with chapter materials based on guideline determinate indeterminate and capital sentencing materials from a range of institutions including decision from the U S Supreme Court state high courts federal appellate courts and some foreign jurisdictions along with statutes and guideline provisions and reports from various sentencing commissions and agencies in text notes on sentencing policies that explain common practices in U S jurisdictions then ask students to compare different institutional practices and consider the relationship between sentencing rules politics And The broader aims of criminal justice

*The Social Contexts of Criminal Sentencing* Martha A. Myers, Susette M. Talarico, 2012-12-06 Historically the announcement and invocation of criminal penalties were public spectacles Today fear of crime and disaffection with the criminal justice system guarantee that this public fascination with punishment continues In the past decade virtually every legislature in the country has undertaken sentencing reform in the hope that public concern with crime would be allayed and disparities in criminal sentences would be reduced if not eliminated Scholars have intensified their longstanding preoccupation with discrimination and the sources of disparate treatment during sentencing issues that continue to fuel contemporary reform efforts As documented in Chapter 1 empirical research on sentencing has concentrated much of its attention on the offender Only recently have attempts been made to embed sentencing in its broader organizational and social contexts Our study extends these attempts by quantitatively analyzing the relationship between the offender and the social contexts in which he or she is sentenced We use data on felony sentencing in Georgia between 1976 and 1985 to ask three questions The first addresses an issue of perennial concern during sentencing how important are offender attributes both those of explicit legal relevance and traits whose legal relevance is questionable or nonexistent The second question directs attention to the social contexts of sentencing and asks whether they directly affect sentencing outcomes

*Strafzumessung* Kai Ambos, 2020 In September 2018 the criminal law section of the 72nd Deutscher Juristentag DJT German Assembly of Jurists debated the question Sentencing Guidelines vs Free Judicial Discretion Is German Sentencing Law in Need of Reform Despite the expert opinion provided by Johannes Kaspar and the accompanying scholarly commentaries ensuing proposals for fundamental reform met with rejection The comparative perspective was limited to the US Federal sentencing guidelines The intention of this volume is therefore on the one hand to draw a more nuanced picture of Anglo American sentencing law focusing on three legal systems England Wales

USA and Canada accompanied by commentaries from a German perspective on the other hand we want to make the German perspective better known within the Anglo American legal world by reproducing important DJT documents in English language To ensure the widest possible distribution we opted for a bilingual open access publication

**Determinate Sentencing** Pamala L. Griset,1991-01-01 This book discusses in depth the rise and fall of the determinate ideal once heralded as a replacement to the old order of criminal justice Using new materials and combining political empirical and theoretical perspectives Griset examines the attempt in New York State to establish determinate sentencing punishment for its own sake to replace the existing policy of rehabilitation In portraying New York s experience against the backdrop of a national reform agenda she analyzes the development and ultimate failure of a major social movement

**Sentencing and Artificial Intelligence** Jesper Ryberg, Julian V. Roberts,2022 This book is the first collective work devoted exclusively to the ethical and penal theoretical considerations of the use of artificial intelligence at sentencing Jesper Ryberg and Julian V Roberts bring together leading experts in the field to investigate to what extent and under which conditions justice and the social good may be promoted by allocating parts of the most important task of the criminal court that of determining legal punishment to computerized sentencing algorithms

**Sentencing Matters** Michael Tonry,1996-01-18 Tonry has written the most inclusive and up to date study of American sentencing practices now available To my knowledge no other work approaches Sentencing Matters field of vision particularly in its sustained attention to developments in the states No other scholar has taken on the painstaking and unglamorous work of learning what so many jurisdictions are doing and then keeping up with their progress over time The tedious nature of this effort should not be undersold Without Michael Tonry virtually no literature on state sentencing would exist His intellectual center of gravity is different from the image sometimes offered of legal scholars that they speak only to each other and are disdainful of practitioners Tonry runs contrary to stereotype the influence of his work over the years has not been due to the intricacy of his theories or the fluency of his writing style Instead his achievements have come from knowing what he is talking about Sentencing Matters is a compendium of the best work of the leading scholar on American sentencing innovations Journal of Criminal Law and Criminology

**Criminal Justice** Stephen R. Mitchell, Emily S. Ross,2012 CRS Report for Congress prepared for members and committees of Congress

**Sentencing Guidelines** United States. Congress. House. Committee on the Judiciary. Subcommittee on Criminal Justice,1988

**The Oxford Handbook of Sentencing and Corrections** Joan Petersilia, Kevin R. Reitz,2012-04-06 This handbook surveys American sentencing and corrections from global and historical views from theoretical and policy perspectives and with attention to a number of problem specific issues

*Just Sentencing* Richard S. Frase,2013 This title presents a fully developed punishment theory which incorporates both utilitarian and retributive sentencing purposes The author describes and defends a hybrid sentencing model that integrates theory and practice blending and balancing both the competing principles of retribution and rehabilitation and the procedural concern of weighing rules against discretion

**The Right to Be Punished** Gabriel Hallevy, 2012-10-12 Does an offender have the right to be punished The right to be punished may sound like an oxymoron but it is not necessarily so With the emergence of modern criminal law the offender gained the right to be punished by rational criminal law rather than being lynched by an angry mob The present day offender may have the right to be punished by doctrinal sentencing rather than being subjected to verdicts based on vague unclear and uncertain principles In modern criminal law the imposition of criminal liability follows accurate and strict rules whereas there are no similar rules for the imposition of punishment The process of sentencing is vague and obscure as are the considerations used for the imposition of punishments The objective of the present book is to propose a comprehensive general and legally sophisticated theory of modern doctrinal sentencing The challenges of such a legal theory are plenty and complex In addition to increasing clarity and certainty modern doctrinal sentencing must deal with modern types of delinquency e g organized crime recidivism corporate offenders high tech offenses etc and modern principles of criminal law Modern doctrinal sentencing must serve to ensure optimal sentencing
