Identity in Doris Lessing's Space Fiction David F. Waterman, 2006 In this study of identity in Doris Lessing's space fiction David Waterman devotes a chapter to each of the five novels in the Canopus in Argos Archives series as well as Briefing for a Descent into Hell Memoirs of a Survivor and finally The Reason for It This is an important addition to understanding the works of this prolific author His major argument is that Lessing's space fiction identifies the universal problem society's division into competitive and predatory groups and places it outside the bounds of time and space encouraging a social critique which takes into account our inherited blindness our degenerative disease which must be addressed before genuine progress can be made Lessing's examination of the relationship between individual identity and group identity produces a productive tension that accounts for so much of interest in her work over many years Nowhere is that tension more obvious or more interesting than in the space fiction that David Waterman so ably explores Waterman writes convincingly of Lessing's desire to cut through the performance the received ideas the habits and customs of our daily lives Drawing on a wide range of sources he provides an interdisciplinary reading of the space fiction and maps Lessing's brave exploration of the hierarchical landscapes that so often imprison us Waterman offers a timely reading of Lessing for contemporary readers living in the landscape of globalization Professor Margaret Moan Rowe Purdue University      **Doris Lessing and the Forming of History** Kevin Brazil, 2016-09-20 The death of Nobel Prize winning Doris Lessing sparked a range of commemorations that cemented her place as one of the major figures of twentieth and twenty first century world literature This volume views Lessing's writing as a whole and in retrospect focusing on her innovative attempts to rework literary form to engage with the challenges thrown up by the sweeping historical changes through which she lived The 12 original chapters provide new readings of Lessing's work via contexts ranging from post war youth politics and radical women's writing to European cinema analyse her experiments with genres from realism to autobiography and science fiction and draw on previously unstudied archive material The volume also explores how Lessing's writing can provide insight into some of the issues now shaping twenty first century scholarship including trauma ecocriticism the post human and world literature as

they emerge as defining challenges to our own present moment in history      *The Span of Mainstream and Science Fiction*  
Peter Brigg, 2015-09-16 From the 1960s when the advent of what many call the postmodern style made establishing genres more difficult to the present day writers have been incorporating science not only the commonly thought of science and technology but also the soft sciences such as psychology and sociology into what was previously considered mainstream fiction This book examines works by Thomas Pynchon Doris Lessing and others who incorporate science in fiction and exemplify the movement of mainstream fiction writers toward a new genre termed span It also examines works by some science fiction writers who are edging closer to the border of science fiction and slowly over into span This book maps the boundaries of the new span genre of fiction and thus helps define texts that fall outside the realms of mainstream and science fiction Diagrams are included and a bibliography and index      **1,000 Books to Read Before You Die** James

**Entering the Fray** T. Michael W. Halcomb, 2012-08-02 In modern times the relationship between the church and academy has been strained and tension filled Mainstream church culture has often been skeptical of Bible scholars depicting them as self serving intellectuals trying to out think God by devising new and controversial interpretations Just as well academics have often leveled harsh critiques against church culture painting pastors and laity as anti intellectual pseudo spiritualists Entering the Fray argues that in spite of the wide gap between the academic and ecclesiastical worlds the modern church should be aware of the key discussions taking place among biblical scholars To be sure the average churchgoer has not been tuned in to scholarly conversations concerning matters such as the Messianic Secret Q the Historical Jesus the pistis Christou debate and related topics In fact they may have purposefully tuned out Some however are simply unaware that any such dialogue has taken place and beyond the internet may not have the first clue as to how to explore the details This primer seeks to function as that first clue by helping congregants pastors and students of the Bible enter into the fray of scholarly discussions that over the last few hundred years have shaped both the academy and church The companion website can be found at <http://michaelhalcomb.com/enteringthefray/home.html>      **Bloomsbury Good Reading Guide** Nick Rennison, 2009-01-01 Deciding what to read next when you've just finished an unputdownable novel can be a daunting task The Bloomsbury Good Reading Guide features hundreds of authors and thousands of titles with navigation features to lead you on a rich journey through some the best literature to grace our shelves This greatly expanded

**Plotting Terror** Margaret Scanlan,2001-05-29 Is literature dangerous In the romantic view writers were rebels Shelley s unacknowledged legislators of mankind poised to change the world In relation to twentieth century literature however such a view becomes suspect By looking at a range of novels about terrorism Plotting Terror raises the possibility that the writer s relationship to actual politics may be considerably reduced in the age of television and the Internet Margaret Scanlan traces the figure of the writer as rival or double of the terrorist from its origins in the romantic conviction of the writer s originality and power through a century of political social and technological developments that undermine that belief She argues that serious writers like Friedrich D renmatt Doris Lessing and Don DeLillo imagine a contemporary writer s encounter with terrorists as a test of the old alliance between writer and revolutionary After considering the possibility that televised terrorism is replacing the novel or that writing as contemporary theory would have it is itself a form of violence Scanlan asks whether the revolutionary impulse itself is dying in politics as much as in literature Her analyses take the reader on a fascinating exploration of the relationship between actual bombs and stories about bombings from the modern world to its electronic representation and from the exercise of political power to the fiction writer s power in the world

*Virtue Revisited in the Novels of Doris Lessing* Seda ARIKAN,2024-09-06 The ethical approaches to literature have come into prominence in the twentieth century calling for a turn to ethics in the studies of humanities in general and literary studies in particular By leading the ethical turn in literature many theorists proposed a moral oriented approach to literature which is still a significant part of literary criticism The ethical turn in literature has changed the spirit of literary criticism in the direction of virtue and value based approaches In this respect this study scrutinises Doris Lessing s novels in light of virtue ethics in general and virtue politics care ethics and Sufi virtue ethics in particular Lessing s connection to virtue ethics which is implicitly or explicitly reflected in her novels is examined by giving the panorama of ethical movements whose common point is virtues This study asserts that Lessing implements an ethical concern in her novels which is based on her own understanding of virtue ethics
