

Pricing and funding for safety and quality: Sentinel events

Background

In 2017, all Australian governments signed the Addendum to the National Health Reform Agreement and committed to improve Australian health outcomes through safety and quality reforms. This is supported by the collaborative work program between the Independent Health and Aged Care Pricing Authority (IHACPA) and the Australian Commission on Safety and Quality in Health Care (the Commission) to incorporate safety and quality measures into the pricing and funding of public hospital services across three key areas:

**Sentinel
events**

**Hospital
acquired
complications**

**Avoidable
hospital
readmissions**

Definition

- Sentinel events are a subset of adverse patient safety events that are wholly preventable and result in serious harm to, or death of, a patient.
- They are the most serious incidents reported through each jurisdiction's incident reporting system.

Overview

- In 2002, Australian Health Ministers agreed on the first version of the Australian Sentinel Events List. The Commission is responsible for managing, reviewing and updating the Australian Sentinel Events List and associated criteria.
- The Australian Sentinel Events List and specifications are available on the [Commission's website](#).
- Version 2.0 of the Australian Sentinel Events List is outlined in **Table 1**.
