Separation And Purification By Crystallization:

Separation and Purification by Crystallization G. D. Botsaris, Ken Toyokura, 1997 Covering a range of topics this volume presents crystallization of polymorphs and the problems encountered in the separation of chiral compounds by selective crystallization as well as aspects of the crystallization of amino acids proteins and pharmaceuticals The introductory section includes state of the art research on secondary nucleation the mechanism for crystallization of proteins kinetics of impurity effect on growth and crystal morphology prediction Other topics include the use of high pressure crystallization in industrial processes precipitation cases for organic and inorganic compounds precipitation processes by antisolvents fast reaction precipitation and isoelectric precipitation

Advanced Process Engineering Control Paul Serban Agachi, Mircea Vasile Cristea, Alexandra Ana Csavdari, Botond Szilagyi, 2023-11-20 As a mature topic in chemical engineering the book provides methods problems and tools used in process control engineering It discusses process knowledge sensor system technology actuators communication technology and logistics design and construction of control systems and their operation The knowledge goes beyond the traditional process engineering field by applying the same principles to biomedical processes energy production and management of environmental issues The book explains all the determinations in the chemical systems or process systems starting from the beginning of the processes going through the intricate interdependency of the process stages analyzing the hardware components of a control system and ending with the design of an appropriate control system for a process parameter or a whole process The book is first addressed to the students and graduates of the departments of Chemical or Process Engineering Second to the chemical or process engineers in all industries or research and development centers because they will notice the resemblance in approach from the system and control point of view between different fields which might seem far from each other but share the same control philosophy
