Hellison, 2000 Professionals in educational and recreational settings work hard to understand and address the problems faced by underserved youth Yet the dedicated people in these institutions are often limited in what they can achieve because they tend to remain within the confines of their own work environment rather than sharing their expertise and resources Instead of accepting this as an unfortunate fact of life the coauthors of this book see the situation as an opportunity to develop an approach in which the whole is far greater than the sum of its parts In *Youth Development and Physical Activity Linking Universities and Communities* they draw on their considerable teaching experience to present innovative new ways to serve underserved youth The book describes practical strategies for breaking down the walls between universities and communities so they can combine their strengths to improve young people's lives You'll find a wealth of guidelines for creating physical activity programs that instill a sense of social and personal responsibility including numerous real life examples of successful programs *Youth Development and Physical Activity Linking Universities and Communities* is divided into four parts each enriched with the colorful voices and stories of real kids and youth leaders who have put these ideas into practice Part I provides a sobering look at the challenges today's young people face and introduces positive ways to improve physical activity youth programs so they're meaningful in today's world In Part II you'll learn how to move from how it is to how it could be using a breakthrough model for working with kids and building programs Here the book provides a road map that shows the way for university students and faculty to connect with youth in their communities through service learning internships and other outreach programs Part III spells out how to develop a variety of proven youth physical activity programs from adventure experiences and Coaching Clubs to mentoring and teen parent programs You'll find many great ideas that work in virtually any setting including public schools alternative schools recreation programs youth service groups and social agencies Part IV provides a variety of helpful tools for evaluating programs and improving

*The Servant Leader and High School Change* Rocky Wallace, 2009-01-16 Across the country there is an urgent call for transformational high school reform. *The Servant Leader and High School Change* addresses the plea for secondary school reinvention, inspiring the reader to get more involved in local school improvement efforts. Wallace captures, in story form, what students, teachers, administrators, and parents have been saying for a long time: there is a simpler, more effective way to run a people-centered school. Following a struggling high school principal who has lost his way, Wallace demonstrates what can happen in one school year when a gifted mentor gets the attention of the principal who is his student and teaches him the real meaning of servant leadership, thus transforming not only the principal but the entire school and community.

*Synergist*, 1981      **Empowerment and Participation in Youth Work** Annette Fitzsimons, Max Hope, Keith Russell, Charlie Cooper, 2011-09-20 In today's society, many young people feel marginalised and unable to find their own voice. It is vital, therefore, that youth workers are able to work with them to tackle this in a meaningful way. Drawing on the real experiences and difficulties faced by youth workers, this book will help those who want to work with young people in an empowering way. The concepts of empowerment and participation are explained, explored, and critically analysed, along with the key notion of resilience. This is backed up by activities and case studies which help to bring together the theory and the practice.
